Modern American English Grammar

Otto Jespersen

Modern American English Grammar:

Oxford Modern English Grammar Bas Aarts, 2011-02-10 Oxford's new and definitive guide to grammar is written by a leading expert in the field and covers both British and American English. Its impressive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly. An authoritative and engaging guide to what grammar is and how it can be used.

Garner's Modern American Usage Bryan Garner, 2009-08-27 A guide to proper American English word usage, grammar, pronunciation, and style features examples of good and bad usage from the media.

Garner's Modern American Usage Bryan A. Garner, 2003 Painstakingly researched with copious citations from books, newspapers, and news magazines, this new edition has become the classic reference work praised by professional copy editors.

A Modern English Grammar on Historical Principles Otto Jespersen, 2013-05-24 This book was first published in 1954. A Modern English Grammar on Historical Principles is a valuable contribution to the field of English Language and Linguistics.

Garner's Modern English Usage Bryan Garner, 2016-03-11 With more than a thousand new entries and more than 2,300 word frequency ratios, the magisterial fourth edition of this book, now renamed Garner's Modern English Usage (GMEU), reflects usage lexicography at its finest. Garner explains the nuances of grammar and vocabulary with thoroughness, finesse, and wit. He discourages whatever is slovenly, pretentious, or pedantic. GMEU is the liveliest and most compulsively readable reference work for writers of our time. It delights while providing instruction on skillful, persuasive, and vivid writing. Garner liberates English from two extremes: both from the hidebound purists who mistakenly believe that split infinitives and sentence-ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted. The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available. In this fourth edition, Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources. No other resource provides as comprehensive, reliable, and empirical a guide to current English usage. For all concerned with writing and editing, GMEU will prove invaluable as a desk reference. Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to, whether in word choice, syntax, phrasing, punctuation, or pronunciation. No matter how knowledgeable you may already be, you're sure to learn from every single page of this book.

Oxford Modern English Grammar Bas Aarts, 2011-02-10 Uses authentic spoken and written examples from the British Component of the International Corpus of English (ICE-GB) as well as newspapers and other sources.

Garner's Modern English Usage Bryan A.

Garner, 2022 Garner's Modern English Usage is one of the most influential style guides ever written for the English language. With more than a thousand new entries, 200 replacement entries, and thoroughly updated usage data, this fifth edition is fully abreast of the times and further establishes the author as the authority on effective writing.
