designed inter alia to enhance enterprise and to strengthen the UK's approach to bankruptcy and corporate rescue. In a similar vein, a recent reform in France has modernised French insolvency law and even introduced a tool similar to the successful English company voluntary arrangement (CVA). This book provides a collection of studies by some of the leading English and French experts today analysing current perspectives of insolvency and financial law in Europe both on the national as well as on the European level.

European Perspectives on Producers' Liability Martin Ebers, André Janssen, Olaf Meyer, 2009-10-16. A growing number of countries recognise a direct producers liability for non conforming goods. The European Commission has considered the introduction of an EU wide direct producers liability for a long time. Will there be new responsibilities for producers in the future? This book compiles national reports from 24 European countries on the sale of goods law as well as the consumer's remedies for non conforming goods and the final seller's right of redress. A comparative report informs about the different models of producers liability and their impact on the internal market. Beneficial for practitioners working in the field of consumer contract law and sale of goods law.
