Modern Juvenile Justice:

The Juvenile Justice Century John C. Watkins, 1998 This book describes the historical roots of American juvenile courts and the development of court philosophy and appellate case law over the past century tracing developments in the courts legislatures and juvenile institutions After discussing events surrounding the court s formation Watkins details specific court operations through case decisions and statutory enactments as well as academic and social commentary regarding the court throughout the twentieth century Special attention is given to the 1960s era and the U S Supreme Court decisions of that decade that have shaped the contemporary juvenile justice system The recriminalization of the juvenile court from the mid 1970s is reviewed along with socio cultural factors that have spurred such a change in court philosophy The book also discusses the issue of capital punishment for juveniles and the pro and con arguments for death eligibility for minors under age eighteen The concluding chapter discusses the future of the so called post modern juvenile court and suggests ways in which the institution may be saved from itself Beginning with a thorough discussion of sociolegal foundations of the juvenile court system Watkins examines key issues and develops a comprehensive understanding of *parens patriae* and treatment orientation An important book with an excellent bibliography CHOICE Magazine [American Juvenile Justice](#) Franklin E. Zimring, 2018-12-21 *American Juvenile Justice* is a definitive volume for courses on the criminology and policy analysis of adolescence The focus is on the principles and policy of a separate and distinct system of juvenile justice The book opens with an introduction of the creation of adolescence presenting a justification for the category of the juvenile or a period of partial responsibility before full adulthood Subsequent sections include empirical investigations of the nature of youth criminality and legal policy toward youth crime At the heart of the book is an argument for a penal policy that recognizes diminished responsibility and a youth policy that emphasizes the benefits of letting the maturing process continue with minimal interruption In this updated and expanded second edition Zimring has included four new chapters with examinations on important topics including US Supreme Court decisions of life sentences for minors the elected use of juvenile courts over criminal court punitive sex offender registration for juveniles and appropriate tactics for juvenile justice reform *Rights, Race, and Reform* Kristin Henning, Laura Cohen, Ellen Marrus, 2018-05-08 In 1962 a 15 year old Arizona boy named Gerald Gault may or may not have made a lewd phone call to a neighbor Gerald was arrested prosecuted removed from his parents custody and sent to a juvenile prison all without legal representation Gerald s mother s outrage at the treatment of her son eventually propelled the case to the United States Supreme Court With its sweeping 1967 decision in *In re Gault* the Court revolutionized the American juvenile court system by finding that children charged with delinquency have a constitutional right to counsel This anthology which commemorates the fiftieth anniversary of the Gault decision blends across its three parts legal and historical analyses oral history and personal narrative to provide an overview of modern Supreme Court juvenile justice jurisprudence the advocates and organizations that defend children in juvenile court the role these lawyers

have played in the fight for justice for accused children and the contemporary challenges facing juvenile defenders and their clients. The authors are leading juvenile justice reformers, advocates, and scholars, all of whom have been deeply involved in shaping modern juvenile justice policy and practice, and most of whom have represented children in juvenile court. This book is for everyone concerned about justice in America. The personal narratives about children in the system will intrigue students and academics, engage lay individuals who are interested in children's rights, and guide professionals, legislators, and other policymakers involved in juvenile justice reform and criminology.

Cases and Materials on Modern Juvenile Justice Sanford J. Fox, 1981 *American Juvenile Justice* Franklin E. Zimring, 2018-12-21 *American Juvenile Justice* is a definitive volume for courses on the criminology and policy analysis of adolescence. The focus is on the principles and policy of a separate and distinct system of juvenile justice. The book opens with an introduction of the creation of adolescence, presenting a justification for the category of the juvenile or a period of partial responsibility before full adulthood. Subsequent sections include empirical investigations of the nature of youth criminality and legal policy toward youth crime. At the heart of the book is an argument for a penal policy that recognizes diminished responsibility and a youth policy that emphasizes the benefits of letting the maturing process continue with minimal interruption. In this updated and expanded second edition, Zimring has included four new chapters with examinations on important topics including US Supreme Court decisions of life sentences for minors, the elected use of juvenile courts over criminal court, punitive sex offender registration for juveniles, and appropriate tactics for juvenile justice reform.

Juvenile Justice Donald J. Shoemaker, Timothy W. Wolfe, 2016-01-18 Authoritative, current, and easy to use, this book is an outstanding resource for readers looking to gain an accurate and thorough understanding of American juvenile justice. Juvenile delinquency has been of interest to the general public and academic scholars for many decades, and it has been an ongoing societal problem for the same amount of time. Delinquency covers a range of behaviors from minor offenses such as trespassing or vandalism to the more serious crimes often associated with gangs that include murder. *Juvenile Justice: A Reference Handbook* puts juvenile justice under the microscope, surveying its long history and key issues, exploring the myriad of problems and controversies tied to the juvenile justice system, and explaining how policymakers and legal professionals have tried to solve these vexing issues. The book first presents historical and contemporary discussions of juvenile justice, especially in the United States. The next chapters address problems, controversies, and possible solutions for juvenile justice, present insightful diverse perspectives from leading experts, and profile important figures in the juvenile justice system and the field of crime and delinquency. The book also contains data and primary documents that show who gets processed through the juvenile justice system and for what kinds of criminal acts.

Since the 1960s recurring cycles of political activism over youth crime have motivated efforts to remove adolescents from the juvenile court Periodic surges of crime youth violence in the 1970s the spread of gangs in the 1980s and more recently epidemic gun violence and drug related crime have spurred laws and policies aimed at narrowing the reach of the juvenile court Despite declining juvenile crime rates every state in the country has increased the number of youths tried and punished as adults Research in this area has not kept pace with these legislative developments There has never been a detailed sociolegal analytic book devoted to this topic In this important collection researchers discuss policy substantive procedural and empirical dimensions of waivers and where the boundaries of the courts lie Part 1 provides an overview of the origins and development of law and contemporary policy on the jurisdiction of adolescents Part 2 examines the effects of jurisdictional shifts Part 3 offers valuable insight into the developmental and psychological aspects of current and future reforms Contributors Donna Bishop Richard Bonnie M A Bortner Elizabeth Cauffman Linda Frost Clausel Robert O Dawson Jeffrey Fagan Barry Feld Charles Frazier Thomas Grisso Darnell Hawkins James C Howell Akiva Liberman Richard Redding Simon Singer Laurence Steinberg David Tanenhaus Marjorie Zatz and Franklin E Zimring *Juvenile Delinquency* Thomas R.
