that no political thinking would rise in the absence of it This book springboards from an enquiry into this question I was sure that I will find an answer if dug deep into the last three decades of Muslim League s history or at least to 19th and 20th centuries A generation that lived with history has more or less given way to the new carriers of the flame completing their duty Though not written or well established they had solid philosophical ideology with which they could draw a line between the political lines that they took and those behind them had taken Since that knowledge has also faded into oblivion with them this political ideology may cease to be a rootless bubble in the air This book is an attempt to withstand that crisis Therefor its main aim is to remind of the roots wherever its forgotten and inform with it the new generation Along with that it aims to expose the unnecessary burden the community bears as a curse on its shoulder This books also attempts to do a hairsplitting analysis of the accusations of social bifurcation communalism sectarianism etc posed against the League by its enemies unveiling the fluff in it to the public      *English (2022-23 TGT/PGT/LT*
