Modern Spiritualism and Magic Arthur Edward Waite, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. S. Cassidy, 1886 **Modern Spiritualism** Frank Podmore, 1902 *Archaeological Sites as Space for Modern Spiritual Practice* Raimund Karl, Jutta Leskovar, 2018-11-07 Archaeological heritage can be disputed, especially where it is important to religions and their practitioners. While the destruction of archaeological sites in war often due to religious fervour is frequently making the headlines, apparently lesser disputes about local heritage sites go unreported. This book focuses on these lesser but much more frequent potential conflicts between archaeological heritage management and conservation on the one hand and practitioners of religious beliefs who use archaeological heritage in their practice on the other. By exploring case studies from Austria, the Czech Republic, Estonia, France, Norway, Romania, Russia, Spain, Sweden, and Wales, this book examines the interaction between spiritual practice and monuments conservation. This book will be of great interest to heritage professionals, archaeologists, historians, conservationists, and religious practitioners alike through its exploration of various kinds of interactions between these different heritage communities and their interests in archaeology. **Ancient Magic and Modern Spiritualism** Emma Hardinge Britten, 1924 *Art Magic; Or, Mundane, Sub-mundane and Super-mundane Spiritism, Etc.* [By William Britten? Edited by Emma Hardinge, Afterwards Britten.] , 1876 **Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries** , 1927 *The Rise of Contemporary Spiritualism* Anne Kalvig, 2016-10-04 Talking to the dead and communication with the other side is often presented as a taboo in an increasingly technological and medically advanced world. However, practices of spiritualism and mediumship continue to remain popular and in high demand within contemporary Western societies. This book analyses the practices of today's mediums who insist on standing at the threshold between life and death, interpreting signs and passing on communications, and asks how such concepts and practices are perceived by contemporary society. Using first-hand material gathered from alternative fairs, mediumistic congresses, sances, and interviews with both practitioners and clients, as well as thorough textual analysis, Anne Kalvig provides a clear overview of the various forms of consumption of mediumship in Western society and places these within a socio-cultural, religious, and historical context. She also raises questions as to the controversies surrounding spiritualism and its representation and relationship with popular culture and the media. This book will be of interest to researchers in the field of sociology, religious studies, folklore, media studies, and anthropology, as well as to anyone interested in the upsurge of contemporary spiritualism, psychic phenomena, and the paranormal. *The History of*

Archaeology of Spiritualities Kathryn Rountree,Christine Morris,Alan A. D. Peatfield,2012-05-23 Archaeology of Spiritualities provides a fresh exploration of the interface between archaeology and religion spirituality Archaeological approaches to the study of religion have typically and often unconsciously drawn on western paradigms especially Judaeo Christian mono theistic frameworks and academic rationalisations Archaeologists have rarely reflected on how these approaches have framed and constrained their choices of methodologies research questions hypotheses definitions interpretations and analyses and have neglected an important dimension of religion the human experience of the numinous the power presence or experience of the supernatural Within the religions of many of the world's peoples sacred experiences particularly in relation to sacred landscapes and beings connected with those landscapes are often given greater emphasis while doctrine and beliefs are relatively less important Archaeology of Spiritualities asks how such experiences might be discerned in the archaeological record how do we recognize and investigate other forms of religious or spiritual experience in the remains of the past The volume opens up a space to explore critically and reflexively the encounter between archaeology and diverse cultural expressions of spirituality It showcases experiential and experimental methodologies in this area of the discipline an unconventional approach within the archaeology of religion Thus Archaeology of Spiritualities offers a unique timely and innovative contribution one that is also challenging and stimulating It is a great resource to archaeologists historians religious scholars and others interested in cultural and religious heritage
