## **Modernism In Literature:**

**The Concept of Modernism** Astradur Eysteinnsson, Ástráður Eysteinnsson, 1990 The term modernism is central to any discussion of twentieth century literature and critical theory Astradur Eysteinnsson here maintains that the concept of modernism does not emerge directly from the literature it subsumes but is in fact a product of critical practices relating to nontraditional literature Intervening in these practices and correlating them with modernist works and with modern literary theory Eysteinnsson undertakes a comprehensive reexamination of the idea of modernism Eysteinnsson critically explores various manifestations of modernism in a rich array of American British and European literature criticism and theory He first examines many modernist paradigms detecting in them a conflict between modernism's culturally subversive potential and its relatively conservative status as a formalist project He then considers these paradigms as interpretations and fabrications of literary history Seen in this light modernism both signals a historical change on the literary scene and implies the context of that change Laden with the implications of tradition and modernity modernism fills its major function that of highlighting and defining the complex relations between history and postrealist literature Eysteinnsson focuses on the ways in which the concept of modernism directs our understanding of literature and literary history and influences our judgment of experimental and postrealist works in literature and art He discusses in detail the relation of modernism to the key concepts postmodernism the avant garde and realism Enacting a crisis of subject and reference modernism is not so much a form of discourse he asserts as its interruption a possible other modernity that reveals critical aspects of our social and linguistic experience in Western culture Comparatists literary theorists cultural historians and others interested in twentieth century literature and art will profit from this provocative book **A History of Modernist Literature** Andrzej

What is modernism's logic of time and contemporaneity and how might it speak to the problem of thinking genuine novelty or the possibility of an alternative to the current stage of neo liberal capitalism? What is modernism and what is its history? The book is thus committed to revising our understanding of what modernism was in its earlier instantiations and in accounting for the current moment addressing the problems raised by modernism's afterlives and reverberations in the 20th and 21st centuries. The volume includes essays that consider literature, sociology, philosophy, visual art, music, architecture, digital culture, television, and other artistic media. It synthesizes the most recent thinking on modernism and contemporary culture and presents a compelling case for what happens to literature, art, and culture in the wake of the exhaustion of postmodernism. This book will be of interest to those studying literature, visual art, media studies, architecture, literary theory, modernism, and twentieth century and contemporary culture more generally. **Incredible Modernism** John

Attridge, 2016-05-23 With the twentieth century came a new awareness of just how much an individual was obliged to accept on trust, and this heightened awareness of social trust in turn prompted new kinds of anxiety about fraudulence and deception. Beginning with the premise that the traditional liberal concept of trust as a bond of society entered a period of crisis around the turn of the twentieth century, this collection examines the profound influence of this shift on a wide range of modernist writers including James Joyce, Marcel Proust, Gertrude Stein, Ezra Pound, Wyndham Lewis, H. D., Ford Madox Ford, Samuel Beckett, Ralph Ellison, and Wallace Stevens. In examining the importance of trust and fraudulence during the period, the contributors take up a diverse set of topics related to reception, the institutions of modernism, the history of authorship, the nature of representation, authenticity, genre, social order, and politics. Taken as a whole, *Incredible Modernism* provides concrete historical coordinates for the study of twentieth century trust, while also arguing that a problem of trust is central to the institutions and formal innovations of modernism itself. *Multimedia Modernism* Julian Murphet, 2009-04-30

*Multimedia Modernism* explores the complex effects of a new media environment on avant garde literary production in the early twentieth century. During this period, the likes of Gertrude Stein, Ezra Pound, and Louis Zukofsky wrote works which in one way or another attest to the immense effect that photography, cinematography, mechanical print technology, and visual advertising had on the established arts. Re-reading modernism's technological origins through the lens of media theory, this innovative study proposes a serious new methodological approach to modernism in general. Examining a wide range of literature that includes Gertrude Stein's contributions to *Camera Work*, Louis Zukofsky's groundbreaking poem *A*, and Wyndham Lewis's celebrated *Blast*, this book embeds literary revolution within media evolution to show that literary criticism and media history have a lot to learn from each other. **Modernism and the Post-Colonial** Peter Childs, 2007-08-09 This book considers the shifts in aesthetic representation over the period 1885-1930 that coincide both with the rise of literary Modernism and imperialism's high point. Peter Childs argues that modernist literary writing should be read in terms of its response and relationship to events overseas and that it should be seen as moving towards an emergent post colonialism.

instead of struggling with a residual colonial past Each of the core chapters focuses on one key writer and discuss a range of others including Conrad Lawrence Kipling Eliot Woolf Joyce Conan Doyle and Haggard Literature, Modernism, and Dance Susan Jones, 2013-08-01 This book explores the complex relationship between literature and dance in the era of modernism During this period an unprecedented dialogue between the two art forms took place based on a common aesthetics initiated by contemporary discussions of the body and gender language formal experimentation primitivism anthropology and modern technologies such as photography film and mechanisation The book traces the origins of this relationship to the philosophical antecedents of modernism in the nineteenth century and examines experimentation in both art forms The book investigates dance s impact on the modernists critique of language and shows the importance to writers of choreographic innovations by dancers of the fin de si cle of the Ballets Russes and of European and American experimentalists in non balletic forms of modern dance A reciprocal relationship occurs with choreographic use of literary text Dance and literature meet at this time at the site of formal experiments in narrative drama and poetics and their relationship contributes to common aesthetic modes such as symbolism primitivism expressionism and constructivism Focussing on the first half of the twentieth century the book locates these transactions in a transatlantic field giving weight to both European and American contexts and illustrating the importance of dance as a conduit of modernist preoccupations in Europe and the US through patterns of influence and exchange Chapters explore the close interrelationships of writers and choreographers of this period including Mallarm Nietzsche Yeats Conrad Woolf Lawrence Pound Eliot and Beckett Fuller Duncan Fokine Nijinsky Massine Nijinska Balanchine Tudor Laban Wigman Graham and Humphrey and recover radical experiments by neglected writers and choreographers from David Garnett and Esther Forbes to Andr e Howard and Oskar Schlemmer
