Modernities And Other Writings:

Modernities and Other Writings Blaise Cendrars, 1992 Blaise Cendrars was the pseudonym of Frederic Louis Sauser 1887 1961 a Swiss born poet and novelist A contemporary of Apollinaire and Max Jacob and a friend of Chagall and Modigliani he must be reckoned with as a prophetic voice Of all the avant garde writers he was the one most attuned to our age hence the title of this collection of his short prose works Modernities represents the poet at his most intense The seven essays consider modern artists many of them his friends and associates and their altered relations to a new world of communications technology advertising and mass politics These essays are daring and inventive in their expression of the sense of simultaneity far more so than the official artistic manifestoes of their period the first quarter of the twentieth century Because most of the selections have never before been translated and have been hard to find this volume brings to the English language reader for the first time an essential part of the European voice of the avant garde **The Rampant**

Modernities is a critical interrogation of some of the ideologies of so called modernity and modernization in the post colonial Arab world with a specific focus on three political ideologies liberalism nationalism and Islamism By providing a critical analysis of the work of major Arab intellectuals activists namely Abdallah Laroui Mohamed Abed al Jabri and Abdessalam Yassine Arab Modernities brings together three political ideologies that have hitherto been considered competing and even

incompatible in the Arab world This much needed intervention is also best understood as an inquiry into one of the central paradoxes of post colonial Arab societies and Middle Eastern societies more generally the rise of Islamism and Islamist fundamentalism at a time when global neo liberalism has declared the end of history Arab Modernities is a sophisticated attempt to name contemporary Islamism and Arab nationalism and liberalism to delineate the social cultural economic and political conditions under which they first emerged evolved and ultimately failed and thereby to shed light on Arab Islamic societies at the current historical conjuncture Arab Modernities argues against facile analyses that attribute the rise and subsequent decline of liberalism and nationalism as well as the current rise of Islamism to purely cultural religious or ideological factors and provides a rigorous complex materialist critique where Arab ideologies of modernity are placed in the context of the particular historical formation within which they have developed and to which they have responded

In Defence of Modernity Efraim Podoksik, 2013-05-14 Although Oakeshott's philosophy has received considerable attention the vision which underlies it has been almost completely ignored This vision which is rooted in the intellectual debates of his epoch cements his ideas into a coherent whole and provides a compelling defence of modernity The main feature of Oakeshott's vision of modernity is seen here as radical plurality resulting from fragmentation of experience and society On the level of experience modernity denies the existence of the hierarchical medieval scheme and argues that there exist independent ways of understanding our world such as science and history which cannot be reduced to each other On the level of society modernity finds expression in liberal doctrine according to which society is an aggregate of individuals each pursuing his or her own choices For Oakeshott to be modern means not only to recognise this condition of radical plurality but also to learn to appreciate and enjoy it Oakeshott did not think that it was possible to find a comprehensive philosophical justification for modernity therefore the only way to preserve modern civilisation seemed to be an appeal to sentiment As a consequence he was a passionate defender of liberal education as the best way to underwrite the conversation of mankind

The Quest for Modernity Roel Meijer, 2018-10-24 This book analyses the political ideologies of the several highly influential liberal socialist and communist thinkers groups and movements which sought to modernize Egypt after World War II Most of the representatives of these currents intended to transform Egyptian society completely through rapid industrialization land reforms and economic planning which would eliminate the peasantry rationalize the economy and create a new Egyptian citizen who would live in accordance with the spirit of the age This study explains why and how most liberal and left wing intellectuals eventually supported the authoritarian modernization programme of the July Revolution of 1952 It gives new insights into intellectual life during one of the most optimistic periods in Egyptian history a time when Egypt was at the height of its power and believed a whole new future lay before it uniting the Arab world and joining Asia and Africa in the common struggle for independence and dignity

Between Heaven and Modernity

Peter J. Carroll, 2006 Combining social political and cultural history this book examines the contestation over space history and power in the late Qing and Republican era reconstruction of the ancient capital of Suzhou as a modern city Located fifty miles west of Shanghai Suzhou has been celebrated throughout Asia as a cynosure of Chinese urbanity and economic plenty for a thousand years With the city s 1895 opening as a treaty port businessmen and state officials began to draw on Western urban planning in order to bolster Chinese political and economic power against Japanese encroachment As a result both Suzhou as a whole and individual components of the cityscape developed new significance according to a calculus of commerce and nationalism Japanese monks and travelers Chinese officials local people and others competed to claim Suzhou s streets state institutions historic monuments and temples and thereby to define the course of Suzhou s and greater China s modernity

Henri Lefebvre, Metaphilosophy, and Modernity Patrick Gamsby, 2025-08-22 Henri Lefebvre

Metaphilosophy and Modernity provides a new interpretation of the work of Henri Lefebvre 1901 1991 reframing it as being above all a metaphilosophy of modernity Henri Lefebvre is increasingly being recognized as one of the great twentieth century thinkers Nevertheless the majority of scholarship on Lefebvre predominantly focuses on his theorizing of space often taking Lefebvre s The Production of Space as the point of departure and or on his theorizing of everyday life with his multi volume Critique of Everyday Life as the focal point This book argues that it is Lefebvre s concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre s writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology

Organizing Modernity Larry Ray, Michael Reed, 2002-11 This book provides a re evaluation of Weber s work on the current debates about the institutional and organizational dynamics of modernity offering interpretations of his work which emphasize the reality of modernity as a dual process

Grammatology and Literary Modernity in Turkey Nergis

Erturk, 2011-10-19 The 1928 Turkish alphabet reform replacing the Perso Arabic script with the Latin phonetic alphabet is an emblem of Turkish modernization Grammatology and Literary Modernity in Turkey traces the history of Turkish alphabet and language reform from the mid nineteenth to the mid twentieth century examining its effects on modern Turkish literature In readings of the novels essays and poetry of Ahmed Midhat Rec izade Mahmud Ekrem mer Seyfeddin Ahmet Hamdi Tanpınar Peyami Safa and N zım Hikmet Nergis Erturk argues that modern Turkish literature is profoundly self conscious of dramatic change in its own historical conditions of possibility Where literary historiography has sometimes idealized the Turkish

language reforms as the culmination of a successful project of Westernizing modernization. Ert rk suggests a different critical narrative: one of the consolidation of control over communication, forging a unitary nation and language from a pluralistic and multilingual society.

Modernity's Classics Sarah C. Humphreys, Rudolf G Wagner, 2013-02-11 This book presents critical studies of modern reconfigurations of conceptions of the past of the classical and of national heritage. Its scope is global: China, India, Egypt, Iran, Judaism, the Greco-Roman world, and interdisciplinary textual philology, history of art and architecture, philosophy, gardening. Its emphasis is on the complexity of the modernization process and of reactions to it: ideas and technologies travelled from India to Iran and from Japan to China, while reactions show tensions between museumization and the recreation of presence. It challenges readers to rethink the assumptions of the disciplines in which they were trained.

Militarized Modernity and Gendered Citizenship in South Korea Seungsook Moon, 2005-09-30 A postcolonial feminist study of the formation of contemporary political subjectivities in South Korea, framed by the rise and decline in 20th century militarization.

The Bloomsbury Group and Modernity Dianne C. Betts, 2025-05-05 Historians have long noted the change in England's social and political life that occurred after the death of Queen Victoria in 1901. The Bloomsbury Group began to coalesce during the early years of Edwardian England, responding to the shifts that were occurring. Among these writers, artists, critics, political scientists, and economists, a shared sensibility and common ethos drove the group to scrutinize middle class values and authority and to champion the priorities of the individual in the face of a stifling socioeconomic system. This study examines the relationship between the Bloomsbury intellectuals and the moral compass of society. Their philosophy influenced English history as each member in their own way sought to realize the civilization of their dreams, constantly fluctuating between the illusion of their ideals and the disillusion of reality.

Decolonizing Modernism Jose Luis Venegas, 2017-07-05 James Joyce's *Ulysses* (1922) has been recognized as a central model for the Spanish American New Narrative. Joyce's linguistic and technical influence became the unequivocal sign that literature in Spanish America had definitively abandoned narrow regionalist concerns and entered a global literary canon. In this bold and wide-ranging study, Jose Luis Venegas rethinks this evolutionary conception of literary history by focusing on the connection between cultural specificity and literary innovation. He argues that the intertextual dialogue between James Joyce and prominent authors such as Argentina's Jorge Luis Borges and Julio Cortázar, Cuban Guillermo Cabrera Infante, and Mexican Fernando del Paso reveals the anti-colonial value of modernist form. Venegas explores the historical similarities between Joyce's Ireland during the 1920s and Spanish America between the 1940s and 70s to challenge depoliticized interpretations of modernist aesthetics and propose unsuspected connections between formal experimentation and the cultural transformations demanded by decolonizing societies. Jose Luis Venegas is Visiting Assistant Professor of Spanish at the University of North Carolina at Greensboro.

Streetwalking the Metropolis : Women, the City and Modernity Deborah L. Parsons, 2000-03-02 Can there be a flâneuse, and what form might she take? This is the central question of *Streetwalking the Metropolis*, an important

contribution to ongoing debates on the city and modernity in which Deborah Parsons re draws the gendered map of urban modernism Assessing the cultural and literary history of the concept of the flaneur the urban observer writer traditionally gendered as masculine the author advances critical space for the discussion of a female flaneuse focused around a range of women writers from the 1880 s to World War Two Cutting across period boundaries this wide ranging study offers stimulating accounts of works by writers including Amy Levy Dorothy Richardson Virginia Woolf Rosamund Lehmann Jean Rhys Janet Flanner Djuna Barnes Anais Nin Elizabeth Bowen and Doris Lessing highlighting women s changing relationship with the social and psychic spaces of the city and drawing attention to the ways in which the perceptions and experiences of the street are translated into the dynamics of literary texts **Modernity, Tradition, and Indian Women** U.

Kalpagam,2024-12-16 For women the conundrum of modernity and tradition is an on going puzzle of what aspects of modernity to appropriate and what aspects of tradition to retain in their everyday lives Tracing the emergence of this conundrum in the nationalist debates on colonial modernity **Modernity Tradition and Indian Women** argues that the everyday lives in contemporary times is animated by both the civilizational meta narratives and the constitutional meta narratives that keeps alive this conundrum of modernity and tradition While societal gender scripts socialize women in families based on cultural ideologies individuals struggle to expand their zones of freedom by rescripting their personal gender scripts in the direction of modernity Rescripting a life of more freedom depends upon the changes in dispositions that cultural ideologies have for long instilled in men and women Drawing evidence from marriage norms and partner choice in diverse contexts religiosity clothing and consumption this book explores the ways in which women selectively appropriate aspects of modernity even while retaining traditions in their lives **Habitations of Modernity** Dipesh Chakrabarty,2002-07-15

Chakrabarty explores the complexities of modernism in India and seeks principles of humaneness grounded in everyday life that may elude grand political theories These issues are pursued in a series of closely linked cultural essays **Sundanese Print Culture and Modernity in Nineteenth-century West Java** Mikihiro Moriyama,2005 Sundanese books have been printed since 1850 up to the present This article tries to draw a configuration of printing books in Sundanese for about 100 years in the Dutch colonial and Japanese occupation period Printing and publishing books in Sundanese was initiated by the Dutch colonial government for the sake of management of their colony This article discuss three aspects in print culture in Sundanese 1 the role of government printing house and private publishers 2 the cultural relationship between manuscript and printed books and 3 the changes after the emergence of printed books Print culture in the Sundanese speaking community was born and has developed Its facets have changed from time to time We notice more than 2200 Sundanese books were published up to the second decade of the 21st century when the technological innovation has proceeded in an enormous pace However the importance of Sundanese publication has not diminished in terms of nurturing educated citizens in this digital oriented society and supporting cultural identity Surpassing Modernity Andrew McNamara,2018-11-29 For

the past thirty to forty years cultural analysis has focused on developing terms to explain the surpassing of modernity Discussion is stranded in an impasse between those who view the term modernity with automatic disdain as deterministic Eurocentric or imperialistic and a booming interest that is renewing the study of modernism Another dilemma is that the urge to move away from or beyond modernity arises because it is viewed as difficult even unsavoury Yet there has always been a view of modernity as somehow difficult to live with and that has been said by figures we regard today as typical modernists McNamara argues in this book that it is time to forget the quest to surpass modernity Instead we should re examine a legacy that continues to inform our artistic conceptions our political debates our critical justifications even if that legacy is baffling and contradictory We may find it difficult to live with but without recourse to this legacy our critical cultural ambitions would remain seriously diminished How do we explain the culture we live in today And how do we as citizens make sense of it This book suggests these questions have become increasingly difficult to answer
