China's Quest for Foreign Technology William C. Hannas, Didi Kirsten Tatlow, 2020-09-22 This book analyzes China's foreign technology acquisition activity and how this has helped its rapid rise to superpower status Since 1949 China has operated a vast and unique system of foreign technology spotting and transfer aimed at accelerating civilian and military development reducing the cost of basic research and shoring up its power domestically and abroad without running the political risks borne by

liberal societies as a basis for their creative developments While discounted in some circles as derivative and consigned to perpetual catch up mode China's hybrid system of legal illegal and extralegal import of foreign technology combined with its indigenous efforts is the authors believe enormously effective and must be taken seriously Accordingly in this volume 17 international specialists combine their scholarship to portray the system's structure and functioning in heretofore unseen detail using primary Chinese sources to demonstrate the perniciousness of the problem in a manner not likely to be controverted The book concludes with a series of recommendations culled from the authors interactions with experts worldwide This book will be of much interest to students of Chinese politics US foreign policy intelligence studies science and technology studies and International Relations in general Chinese Civil-Military Relations Nan Li,2010-04-05 This new book addresses three key issues What has changed in Chinese civil military relations What can account for changes And what are the implications for Chinese security policy and strategic behaviour It tackles these questions by sharply assessing civil military dynamics in elite politics such dynamics in national security and arms control policy relations between commanders and political commissars relations between the PLA and society civil military dynamics regarding defence economics and logistics and such dynamics regarding dual use technologies and defence industry These analyses build into the central theme that the emphasis of Chinese civil military relations is shifting from politics to military tasks This is an extremely important new development by a nation many predict to become a super power in the twenty first century This is therefore essential reading for all students and scholars of strategic and security studies Chinese studies and international relations **Securing India's Rise** Kamal Davar,2021-06-28 Currently the world and more so the South Asian region is unquestionably gravely stressed geopolitically As India confronts myriad and formidable challenges to its economic well being and security it has to synergise its genius and resources not only for its survival and sustenance but to be counted in the comity of nations where by any standards it deserves a seat on the global high table Securing India's Rise edited by one of India's leading military experts Lt General Kamal Davar is a labour of love and dedication to the glory of India in its march towards self realisation as a nation not only for itself but to contribute towards global peace and harmony Nineteen eminent Indians from diverse fields have contributed to this volume focusing on their areas of expertise the lessons from each if implemented will contribute to ensuring India's inevitable rise A path breaking anthology this is a must read for intellectuals and those in the establishment citizens especially the youth and all those who believe that India's rise has to be secured for itself and the good of the region and the world **Mao's Invisible Hand** Sebastian Heilmann,Elizabeth J. Perry,2020-10-26 Observers have been predicting the demise of China's political system since Mao Zedong's death over thirty years ago The Chinese Communist state however seems to have become increasingly adept at responding to challenges ranging from leadership succession and popular unrest to administrative reorganization legal institutionalization and global economic integration What political techniques and procedures have Chinese policymakers employed to manage the unsettling impact

of the fastest sustained economic expansion in world history As the authors of these essays demonstrate China's political system allows for more diverse and flexible input than would be predicted from its formal structures Many contemporary methods of governance have their roots in techniques of policy generation and implementation dating to the revolution and early PRC techniques that emphasize continual experimentation China's long revolution had given rise to this guerrilla style decisionmaking as a way of dealing creatively with pervasive uncertainty Thus even in a post revolutionary PRC the invisible hand of Chairman Mao tamed tweaked and transformed plays an important role in China's adaptive governance

The Future of China-Russia Relations James Bellacqua, 2010-09-12 Relations between China and Russia have evolved dramatically since their first diplomatic contact particularly during the twentieth century During the past decade China and Russia have made efforts to strengthen bilateral ties and improve cooperation on a number of diplomatic fronts The People's Republic of China and the Russian Federation maintain exceptionally close and friendly relations strong geopolitical and regional cooperation and significant levels of trade In The Future of China Russia Relations scholars from around the world explore the current state of the relationship between the two powers and assess the prospects for future cooperation and possible tensions in the new century The contributors examine Russian and Chinese perspectives on a wide range of issues including security political relationships economic interactions and defense ties This collection explores the energy courtship between the two nations and analyzes their interests and policies regarding Central Asia the Korean Peninsula and Taiwan

The Evolution of Military Power in the West and Asia Pauline Eadie, Wyn Rees, 2015-09-16 This book investigates how states in both the West and Asia have responded to multi dimensional security challenges since the end of the Cold War focusing on military transformation Looking at a cross section of different countries this volume assesses how their armed forces have responded to a changing international security context The book investigates two main themes First how the process of military transformation in terms of technological advances and new ways of conducting warfare has impacted on the militaries of various countries These technologies are hugely expensive and the extent to which different states can afford them and the ability of these states to utilise these technologies differs greatly Second the volume investigates the social dimensions of military transformation It reveals the expanding breadth of tasks that contemporary armed forces have been required to address This includes the need for military forces to work with other actors such as non governmental agencies and humanitarian organisations and the ability of armed forces to fight asymmetric opponents and conduct post conflict reconstruction tasks The conflicts in Iraq and Afghanistan exemplified how important the relationship between technological and social transformation has become This book will be of much interest to students of strategic studies military innovation Asian politics security studies and International Relations

The China Reader David L. Shambaugh, 2016 Chronicles the diverse aspects of this transition since the late 1990s It is comprehensive in scope and draws upon both primary Chinese sources and secondary Western analyses written by the world's leading experts on contemporary China covers the full range

of China's internal and external developments From publisher description **Science and Technology in Contemporary China** Varaprasad S. Dolla, 2015-01-15 The Science and Technology policy changes in post Mao China cannot be complete without a historical narrative and analysis of Science and Technology in its pre policy prior to 1850 and policy since 1850 when the Qing rulers began to promote Science and Technology periods This book is an imperative to revisit and interrogate the nature and scope of Chinese Science and Technology policy and progress The text is divided into three parts The first part considers both the macro and micro issues pertaining to Science and Technology policy in general and also of the policy in particular The second part highlights the historical narrative of Chinese Science and Technology policy as it has a key role in the evolution of contemporary Science and Technology architecture The third part discusses three focal components of the Chinese Science and Technology system each representing state society and international systems the organizational structure representing the state the research system representing society and technology acquisition representing the international system with serious implications for China Compilation of Hearings Held Before the U.S.-China Security Review Commission U.S.-China Security Review Commission, 2002 The PLA at Home and Abroad :, 2010 *Why Taiwan? Geostrategic Rationales for China's Territorial Integrity* Alan M. Wachman, 2008 Why has the PRC been so determined that Taiwan be part of China Why since the 1990s has Beijing been feverishly developing means to prevail in combat with the U S over Taiwan's status Why is Taiwan worth fighting for To answer this book focuses on the territorial dimension of the Taiwan issue and highlights arguments made by PRC analysts about the geostrategic significance of Taiwan rather than emphasizing the political dispute between Beijing and Taipei It considers Beijing's quest for Taiwan since 1949 against the backdrop of recurring Chinese anxieties about the island's status since the seventeenth century **America's Challenge** Michael D. Swaine, 2012-05-01 The emergence of the People's Republic of China on the world scene constitutes the most significant event in world politics since the end of World War II As the world's predominant political economic and military power the United States faces a particularly significant challenge in responding to China's rising power and influence especially in Asia Offering a fresh perspective on current and future U S policy toward China Michael Swaine examines the basic interests and beliefs behind U S China relations recent U S and Chinese policy practices in seven key areas and future trends most likely to affect U S policy American leaders he concludes must reexamine certain basic assumptions and approaches regarding America's position in the Western Pacific integrate China policy more effectively into a broader Asian strategy and recalibrate the U S balance between cooperative engagement and deterrence toward Beijing
