Modernizing Lives Experiments In English Biography 1918 1939:

Modernizing Lives Ruth Hoberman, 1987 Eight distinguished English writers Lytton Strachey Geoffrey Scott David Cecil Percy Lubbock A J A Symonds Virginia Woolf E M Forster and Harold Nicolson all wrote biographies of great influence Hoberman suggests that it is time to re examine these people and their contribution to biography The biographers featured in this study were vastly different writers writing about people as diverse as Queen Elizabeth and Roger Fry but they shared a common concern the reshaping of traditional biography into a more flexible more artful form able to accommodate modern ideas of self of time and of narration These lives written between the wars no longer have the serious joyless depressing similarity that Virginia Woolf complained about in Victorian biographies Between the wars a number of discoveries generated new personalities and theories made traditional biography seem inadequate No longer was the compilation of letters and autobiographical fragments enough Childhood became important as did the unconscious unwilling element in character Social forces became paramount

Victorian Biography Reconsidered Juliette Atkinson, 2010-08-26 In 1939 Virginia Woolf called for a more inclusive form of biography which would include the failures as well as the successes the humble as well as the illustrious She did so in part as a reaction against Victorian biography deemed to have been overly preoccupied with Great Men Yet a significant number of Victorians had already broken ranks to write the lives of humble unsuccessful or neglected men and women Victorian

Biography Reconsidered seeks to uncover and assess this trend The book begins with an overview of Victorian biography followed by a reflection on how the bagginess of nineteenth century hero worship enabled new subjects to emerge Biographies of hidden lives are then scrutinized through chapters on the lives of humble naturalists failed destinies minor women writers neglected Romantic poets rescued by Victorian biographers and finally the Dictionary of National Biography In its conclusion the book briefly discusses how Virginia Woolf absorbed earlier biographical trends before redirecting the representation of hidden lives Victorian Biography Reconsidered argues that often paradoxically nineteenth century biographers regarded the public sphere with intense wariness At a time of instability for men of letters biographers embraced the role of mediators in a manner that asserted their own cultural authority Frequently they showed little interest in vouchsafing immortality for their unknown or forgotten subjects but strove instead to provoke amongst their readers a feeling of gratitude for the hidden labour that sustained the nation and an appreciation for the writers who had brought it to their attention

Understanding Our Selves Susan Tridgell, 2004 Modern Western biography has become one of the most popular and most controversial forms of literature Critics have attacked its tendency to rely on a strong narrative drive its focus on a single person's life and its tendency to delve ever more deeply into that person's inner private experience though these tendencies seem to have only increased biography's popularity To date however biography has been a rarely studied literary form Little serious attention has been given to the light biographies can shed on philosophical problems such as the intertwining of knowledge and power or the ways in which we can understand lives or terms like the self Should selves be seen as relational or as autonomous What of the lies and silences of biographies the ways in which embodiment can be ignored A study of these problems allows engagement with a range of philosophers and literary theorists including Roland Barthes Lorraine Code Michel Foucault Emmanuel Levinas Alasdair MacIntyre Ray Monk Friedrich Nietzsche Paul Ricoeur Richard Rorty and Charles Taylor Biography can be a dangerous art claiming to know just how you feel This book explores the double edged nature of biography looking at what it reveals about both narratives and selves

Samuel Butler against the Professionals David Gillott, 2017-07-05 In the wake of the 2009 Darwin bicentenary Samuel Butler 1835-1902 is becoming as well known for his public attack on Darwin's character and the basis of his scientific authority as for his novels Erewhon and The Way of All Flesh In the first monograph devoted to Butler's ideas for over twenty years David Gillott offers a much needed reappraisal of Butler's work and shows how Lamarckian ideas pervaded the whole of Butler's wide ranging oeuvre and not merely his evolutionary theory In particular he argues that Lamarckism was the foundation on which Butler's attempt to undermine professional authority in a variety of disciplines was based Samuel Butler against the Professionals provides new insight into a fascinating but often misunderstood writer and on the surprisingly broad application of Lamarckian ideas in the decades following publication of the Origin of Species

A Sense of Shock Adam Parkes, 2011-08-19 What does modern British and Irish literature have to do with French impressionist painting And what

does Henry James have to do with the legal dispute between John Ruskin and J M W Whistler What links Walter Pater with Conrad's portrait of a genocidal maniac in *Heart of Darkness* Or George Moore with Irish nationalism Virginia Woolf with modern distraction and Ford Madox Ford with the Great Depression Adam Parkes argues that we must answer such questions if we are to appreciate the full impact of impressionist aesthetics on modern British and Irish writers Complicating previous accounts of the influence of painting and philosophy on literary impressionism *A Sense of Shock* highlights the role of politics uncovering new and deeper linkages In the hands of such practitioners as Conrad Ford James Moore Pater and Woolf literary impressionism was shaped by its engagement with important social issues and political events that defined the modern age As Parkes demonstrates the formal and stylistic practices that distinguish impressionist writing were the result of dynamic and often provocative interactions between aesthetic and historical factors Parkes ultimately suggests that it was through this incendiary combination of aesthetics and history that impressionist writing forced significant change on the literary culture of its time *A Sense of Shock* will appeal to students and scholars of nineteenth and twentieth century literature as well as the growing readership for books that explore problems of literary history and interdisciplinarity

Rereading Modernism Lisa Rado, 2012-08-21 Until about 1986 feminists generally considered modernism a reactionary misogynist and hegemonic mire not worth investigating Since then enough studies of modernism have appeared that 17 feminist critics can now review and debate their treatment of the period They evaluate the progress and goals of the new era of modernist scholarship As the authors in this volume suggest instead of condemning writers for not practicing or portraying an acceptable politics of gender we ought instead to show how their assumptions about the nature of the sexes inform their texts both in their creation and in their reception This also allows examination of the complex and changing relationship between human subjectivity and aesthetics This volume is a highly reflective dialogue introspective and evaluative at a moment of crisis within modernist studies and feminist studies The analysis of critical work on early twentieth century literature not only helps reread and redefine a definition of modernism it also intends to redirect and reintegrate feminist theory

Modernism and Still Life Tobin Claudia Tobin, 2020-03-02 Explores the still life spirit in modern painting prose dance sculpture and poetry Challenges the conventional positioning of still life a minor genre in art history Proposes a radical alternative to narratives of modernism that privilege speed and motion by revealing forms of stillness and still life at the heart of modern literature and visual

cultureProvides the first study of still life to consider the genre across modern literature visual cultures and danceUncovers connections and cultural exchange between networks of European and American artists including the Bloomsbury Group and Wallace StevensThe late nineteenth and early twentieth centuries have been characterised as the age of speed but they also witnessed a reanimation of still life across different art forms This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary It ranges widely in its material taking Cezanne and literary responses to his still life painting as its point of departure It investigates constellations of writers visual artists and dancers including D H Lawrence Virginia Woolf David Jones Winifred Nicholson Wallace Stevens and lesser known figures including Charles Maeron and Margaret Morris Claudia Tobin reveals that at the heart of modern art were forms of stillness that were intimately bound up with movement the still life emerges charged with animation vibration and rhythm an unstable medium unexpectedly vital and well suited to the expression of modern concerns

Virginia Woolf's Unwritten Histories Anne Besnault,2021-11-04 Virginia Woolf's *Unwritten Histories* explores the interrelatedness of Woolf's modernism feminism and her understanding of history as a site of knowledge and a writing practice that enabled her to negotiate her heritage to find her place among the moderns as a female artist and intellectual and to elaborate her poetics of the new not as radical rupture but as the result of a process of unwriting and rewriting traditional historiographical orthodoxies Its central argument is that unless we comprehend the genealogy of Woolf's historical thought and the complexity of its lineage we cannot fully grasp the innovative thrust of her attempt to think back through our mothers Bringing together canonical texts such as *Orlando* 1928 *A Room of One's Own* 1929 *Three Guineas* 1938 or *Between the Acts* 1941 and under researched ones among which stand Woolf's essays on historians and reviews of history books and her pieces on literary history and nineteenth century women's literature this book argues that Woolf's textual conversations with nineteenth century writers historians and critics many of which remain unexplored are interwoven with her historiographical poesis and constitute the groundwork for her alternative histories and literary histories unwritten open textured unacademic and polemical counter narratives that keep track of the past and engage politically with the future

Trespassing Boundaries K. Benzel,R. Hoberman,2004-10-28 In *Trespassing Boundaries* ten contemporary Woolf scholars discuss a broad range of Woolf s short stories Despite being now easily available these stories have not yet received the attention they deserve Complex yet involving they deserve to be read not only for the light they shed on the novels but in their own right as major contributions to the short fiction as a genre This volume places Woolf s short stories in the context of modernist experimentalism then explores them as ambitious attempts to challenge generic boundaries undercutting traditional distinctions between short fiction and the novel between experimental and popular fiction between fiction and nonfiction Collectively the essays suggest that Woolf s contribution to the short story is as important as her contribution to the novel
