evaluation tracks in CLEF 2008 plus two pilot tasks. The aim as usual was to test the performance of a wide range of multilingual information access MLIA systems or system components. This year 100 groups mainly but not only from academia participated in the campaign. Most of the groups were from Europe but there was also a good contingent from North America and Asia plus a few participants from South America and Africa. Full details regarding the design of the tracks, the methodologies used for evaluation and the results obtained by the participants can be found in the different sections of these proceedings. The results of the CLEF 2008 campaign were presented at a two and a half day workshop held in Aarhus, Denmark, September 17-19 and attended by 150 researchers and system developers. The annual workshop held in conjunction with the European Conference on Digital Libraries plays an important role by providing the opportunity for all the groups that have participated in the evaluation campaign to get together, comparing approaches and exchanging ideas. The schedule of the workshop was divided between plenary track overviews and parallel poster and breakout sessions presenting this year's experiments and discussing ideas for the future. There were several invited talks.
