Mogens And Other Stories:

Mogens and Other Stories Jens Peter Jacobsen, 2020-09-28 In the decade from 1870 to 1880 a new spirit was stirring in the intellectual and literary world of Denmark George Brandes was delivering his lectures on the Main Currents of Nineteenth Century Literature from Norway came the deeply probing questionings of the granitic Ibsen from across the North Sea from England echoes of the evolutionary theory and Darwinism It was a time of controversy and bitterness of a conflict joined between the old and the new both going to extremes in which nearly every one had a share How many of the works of that period are already out worn and how old fashioned the theories that were then so violently defended and attacked Too much logic too much contention for its own sake one might say and too little art This was the period when Jens Peter Jacobsen began to write but he stood aside from the conflict content to be merely artist a creator of beauty and a seeker after truth eager to bring into the realm of literature the eternal laws of nature its glories its riddles its miracles as he once put it That is why his work has retained its living colors until to day without the least trace of fading There is in his work something of the passion for form and style that one finds in Flaubert and Pater but where they are often hard percussive like a piano he is soft and strong and intimate like a violin on which he plays his reading of life Such analogies however have little significance except that they indicate a unique and powerful artistic personality Jacobsen is more than a mere stylist The art of writers who are too consciously that is a sort of decorative representation of life a formal composition not a plastic composition One element particularly characteristic of Jacobsen is his accuracy of observation and minuteness of detail welded with a deep and intimate understanding of the human heart His characters are not studied tissue by tissue as under a scientist's microscope rather they are built up living cell by living cell out of the author's experience and imagination He shows how they are conditioned and modified by their physical being their inheritance and environment Through each of his senses he lets impressions from without pour into him He harmonizes them with a passionate desire for beauty into marvelously plastic figures and moods A style which grows thus organically from within is style out of richness the other is style out of poverty Mogens, and Other Stories Jens Peter Jacobsen, 1921 Mogens and Other Stories by Jens Peter Jacobsen, Fiction, Short Stories, Classics, Literary Jens Peter Jacobsen, 2007 The tale of a young dreamer and his maturing during love sorrow and new hope of love Mogens and Other Stories Jens Jacobsen, 2012-12-24 A classic collection of short stories from a poet associated with the so called modern breakthrough in Danish literature in the 1870s Jacobsen s immediate importance was his status as the writer of his generation **Mogens, and Other Stories** J.
