McCue,Meera Balasubramaniam,2016-10-27 This book provides a comprehensive view of rational suicide in the elderly a group that has nearly twice the rate of suicide when chronically ill than any other demographic Its frame of reference does not endorse a single point of view about the legitimacy of rational suicide which is evolving across societies with little guidance for geriatric mental health professionals Instead it serves as a resource for both those clinicians who agree that older people may rationally commit suicide and those who believe that this wish may require further assessment and treatment The first chapters of the book provides an overview of rational suicide in the elderly examining it through history and across cultures also addressing the special case of baby boomers This book takes an ethical and philosophical look at whether suicide can truly be rational and whether the nearness of death in late life adults means that suicide should be considered differently than in younger adults Clinical criteria for rational suicide in the elderly are proposed in this book for the first time as well as a guidelines for the psychosocial profile of an older adult who wants to commit rational suicide Unlike any other book this text examines the existential psychological and psychodynamic perspectives A chapter on terminal mental illness and a consideration of suicide in that context and proposed interventions even without a diagnosable mental illness also plays a vital role in this book as these are key issues in within the question of suicide among the elderly This book is the first to consider all preventative measures including the spiritual as well as the psychotherapeutic and pharmacologic A commentary

on modern society aging and rational suicide that ties all of these elements together making this the ultimate guide for addressing suicide among the elderly Rational Suicide in the Elderly is an excellent resource for all medical professionals with potentially suicidal patients including geriatricians geriatric and general psychiatrists geriatric nurses social workers and public health officials **The Psychoanalytic Study of Society, V. 12** L. decades of field research by one of Sri Lanka's distinguished anthropological interpreters **The Culture-Bound Syndromes** Ronald C. Simons, C.C. Hughes, 2012-12-06 In the last few years there has been a great revival of interest in culture bound psychiatric syndromes A spate of new papers has been published on well known and less familiar syndromes and there have been a number of attempts to put some order into the field of inquiry In a review of the literature on culture bound syndromes up to 1969 Yap made certain suggestions for organizing thinking about them which for the most part have not received general acceptance see Carr this volume p 199 Through the seventies new descriptive and conceptual work was scarce but in the last few years books and papers discussing the field were authored or edited by Tseng and McDermott 1981 Al Issa 1982 Friedman and Faguet 1982 and Murphy 1982 In 1983 Favazza summarized his understanding of the state of current thinking for the fourth edition of the Comprehensive Textbook of Psychiatry and a symposium on culture bound syndromes was organized by Kenny for the Eighth International Congress of Anthropology and Ethnology The strongest impression to emerge from all this recent work is that there is no substantive consensus and that the very concept culture bound syndrome could well use some serious reconsideration As the role of culture specific beliefs and practices in all affliction has come to be increasingly recognized it has become less and less clear what sets the culture bound syndromes apart Beyond Fragmentation Ingrid Pedroni, 2023-03-09 Profoundly honest unflinching in examining her own history as a thinker and clinician Ingrid Pedroni challenges us to see where we have been and where we have failed each of us Donna Orange from the Foreword Ingrid Pedroni is multicultural to her core Fully fluent in German Italian and English she took that multilingual outlook to the varied world of psychoanalysis Beginning her journey with a Jungian analysis she later read *The Restoration of the Self* by Heinz Kohut and discovered a theoretical and clinical framework consistent with her Jungian experience Thus began her engagement with different theoretical dimensions and clinical settings *Beyond Fragmentation* is a masterly overview of the result of her open minded exploration of not only traditional and contemporary psychoanalytic schools of thought but also systemic family therapy plus modern anthropology theatre and literature Part I explores the integration of different theoretical and clinical models with special reference to self psychology and relational psychoanalysis Part II outlines significant areas of experience that build the sense of self and how it is represented in intra psychic and inter relational dimensions Part III focuses on couple and family relations their evolution over time and how they represent an essential part of the self The final part deals with the treatment of cultural diversity the universality of attachment bonds and the extreme specificity of their cultural expression Throughout the book are clinical and theoretical concepts derived from authors such as Adler Jung Rank Fromm Ferenczi Klein Winnicott Loewald Bowlby Bion and of course Freud The clinical examples illustrate how it is possible to weave together the various threads of theoretical thinking and clinical practice not

only in the many diversified psychoanalytic schools but also in the larger field of the psychotherapies The varied themes covered include gender couple relations family therapy spirituality cultural diversity and integration migration transcultural psychotherapy and collective trauma This book is essential reading for trainee and practising clinicians and may well help them to find their own integration of therapeutic experiences Professionals active in social educational and psychological fields will also find much useful and engaging information to help them in their work Symbolic Analysis Cross-Culturally George A.
