K. Patell, Bryan Waterman, 2010-03-11 New York holds a special place in America's national mythology as both the gateway to the USA and as a diverse vibrant cultural center distinct from the rest of the nation From the international atmosphere of the Dutch colony New Amsterdam through the expansion of the city in the nineteenth century to its unique appeal to artists and writers in the twentieth New York has given its writers a unique perspective on American culture This Companion explores the range of writing and performance in the city celebrating Herman Melville Walt Whitman Edith Wharton Eugene O'Neill and Allen Ginsberg among a host of authors who have contributed to the city's rich literary and cultural history Illustrated and featuring a chronology and guide to further reading this book is the ideal guide for students of American literature as well as for all who love New York and its writers **The Life of P. T. Barnum, written by himself. Author's edition. With illustrations and a portrait** Phineas Taylor BARNUM, 1855 **Political Prayer in Nineteenth-Century American Literature** Amy Dunham Strand, 2024-09-30 Political Prayer in Nineteenth Century American Literature explores how American women writers such as Catharine Maria Sedgwick Harriet Beecher Stowe Rebecca Harding Davis and Emily Dickinson translated petitioning a political form for redress of grievances with religious resonance or what Strand calls political prayer in their literary works At a time when petitioning was historically transforming governments mobilizing masses and democratizing North America these White women writers wrote literary petitions to advocate for others in social justice causes such as antiremoval antislavery and labor reform to transform American literature and culture and to articulate an ambivalent political agency Political Prayer in Nineteenth Century American Literature introduces historic petitioning into literary study as an overlooked but important new lens for reading nineteenth century fiction and poetry Understanding petitions in these literary works and these literary works as petitions also helps us to understand women's political agency before their enfranchisement to explain why scholars have long debated and inconsistently interpreted the works of well anthologized women writers and to see more clearly the multidimensional coexisting and often competing religious and political aspects of their writings *Sum of the Parts* Kent C Ryden, 2011-04-01 Proponents of the new

regional history understand that regional identities are constructed and contested multifarious and not monolithic that they involve questions of dominance and power and that their nature is inherently political In this lively new book writing in the spirit of these understandings Kent Ryden engagingly examines works of American regional writing to show us how literary partisans of place create and recreate attack and defend argue over and dramatize the meaning and identity of their regions in the pages of their books Cleverly drawing upon mathematical models that complement his ideas and focusing on both classic and contemporary literary regionalists Ryden demonstrates that regionalism in the cultural sense retains a great deal of power as a framework for literary interpretation For New England he examines such writers as Robert Frost and Hayden Carruth Mary E Wilkins Freeman and Edith Wharton and Carolyn Chute and Russell Banks to demonstrate that today's regionalists inspire closer more democratic readings of life and landscape For the West and South he describes Wallace Stegner's and William Faulkner's use of region to respectively exclude and evade or confront and indict For the Midwest he focuses on C J Hribal William Least Heat Moon Paul Gruchow and others to demonstrate that midwesterners continually construct the past anew from the materials at hand filling the seemingly empty midlands with history and significance Ryden reveals that there are many Wests many New Englands many Souths and many Midwests all raising similar issues about the cultural politics of region and place Writing with appealing freshness and a sense of adventure he shows us that place and the stories that emerge from and define place can be a source of subversive energy that blunts the homogenizing force of region inscribing marginal places and people back onto the imaginative surface of the landscape when we read it on a place by place landscape by landscape book by book basis
