Octovian Medieval Studies:

Thinking Medieval Romance Katherine C. Little, Nicola McDonald, 2018-11-10 Medieval romances with their magic fountains brave knights and beautiful maidens have come to stand for the Middle Ages more generally This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages an idealized fantasy of chivalry and hierarchy and also for our understanding of romances as always already archaic part of a half forgotten past And yet romances were one of the most influential and long lasting innovations of the medieval period To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies whether social order Jewish Christian relations the Crusades the connectivity of the Mediterranean women s roles as mothers and how to write a national past This volume takes up the challenge to think romance investigating the various ways that romances imagine reflect and describe the challenges of the medieval world **Narrating the Crusades**

Lee Manion, 2014-04-24 In *Narrating the Crusades* Lee Manion examines crusading s narrative generating power as it is reflected in English literature from c 1300 to 1604 By synthesizing key features of crusade discourse into one paradigm this book identifies and analyzes the kinds of stories crusading produced in England uncovering new evidence for literary and historical research as well as genre studies Surveying medieval romances including Richard C ur de Lion Sir Isumbras Octavian and The Sowdone of Babylone alongside historical practices chronicles and treatises this study shows how different forms of crusading literature address cultural concerns about collective and private action These insights extend to early modern writing including Spenser s *Faerie Queene* Marlowe s *Tamburlaine* and Shakespeare s *Othello* providing a richer understanding of how crusading s narrative shaped the beginning of the modern era This first full length examination of English crusading literature will be an essential resource for the study of crusading in literary and historical contexts

Octovian Emperor Frances McSparran, 1979 *The Cambridge Medieval History* Henry Melvill Gwatkin, James P. Whitney, Joseph Robson Tanner, Charles William Previté-Orton, Zachary Nugent Brooke, 1929 **Cultural Translations in Medieval Romance** Victoria Flood, Megan G. Leitch, 2022 New approaches to this most fluid of medieval genres considering in particular its reception and transmission Romance was the most popular secular literature of the Middle Ages and has been understood most productively as a genre that continually refashioned itself The essays collected in this volume explore the subject of translation both linguistic and cultural in relation to the composition reception and dissemination of romance across the languages of late medieval Britain Ireland and Iceland In taking this multilingual approach this volume proposes a re centring and extension of our understanding of the corpus of medieval Insular romance which although long considered extra canonical has over the previous decades acquired something approaching its own canon a canon which we might now begin to unsettle and of which we might ask new questions The topics of the essays gathered here range from Dafydd ap Gwilym and Walter Map to Melusine and English Trojan narratives and address topics

from women and merchants to werewolves and marvels Together they position the study of romance in translation in relation to cross border and cross linguistic transmission and reception and alongside the generic re imaginings of romance both early and late that implicate romance in new linguistic cultural and social networks The volume also shows how even where linguistic translation is not involved we can understand the ways in which romance moved across cultural and social boundaries and incorporated elements of different genres into its own capacious and malleable frame as types of translation in terms of learning or power or both

Four Middle English Romances Harriet Hudson, 2006-11-01 Sir Isumbras Octavian Sir Eglamour of Artois and Sir Tryamour are important works in a major literary development of the fourteenth century the flourishing of Middle English popular romance These four narratives were among the most popular all survive in multiple manuscripts and continued to circulate in prints through the sixteenth century All were composed in the northeast Midlands in the fifty years between 1325 and 1375 and they appear together in several manuscripts The tale the romances tell of exiled queens orphaned children and penitent fathers was one of the most prevalent medieval stories Sometimes called the Constance Eustace legend after two well known pious versions its influence can be seen in numerous romances

Negotiating Boundaries in Medieval Literature and Culture Valerie B. Johnson, Kara L. McShane, 2022-03-21 Thomas Hahn's work laid the foundations for medieval romance studies to embrace the study of alterity and hybridity within Middle English literature His contributions to scholarship brought Robin Hood studies into the critical mainstream normalized the study of historically marginalized literature and peoples and encouraged scholars to view medieval readers as actively encountering others and exploring themselves This volume employs his methodologies careful attention to texts and their contexts cross cultural readings and theoretically informed analysis to highlight the literary culture of late medieval England afresh Addressing long established canonical works such as Chaucer Christine de Pizan and Malory alongside understudied traditions and manuscripts this book will be of interest to literary scholars of the

later Middle Ages who like Hahn work across boundaries of genre tradition and chronology

The Legend of Charlemagne in Medieval England Phillipa Hardman, Marianne Ailes, 2017 The first full length examination of the medieval Charlemagne tradition in the literature and culture of medieval England from the Chanson de Roland to Caxton The Matter of France the legendary history of Charlemagne had a central but now largely unrecognised place in the multilingual culture of medieval England From the early claim in the Chanson de Roland that Charlemagne held England as his personal domain to the later proliferation of Middle English romances of Charlemagne the materials are woven into the insular political and cultural imagination However unlike the wide range of continental French romances the insular tradition concentrates on stories of a few heroic characters Roland Fierabras Otinel Why did writers and audiences in England turn again and again to these narratives rewriting and reinterpreting them for more than two hundred years This book offers the first full length in depth study of the tradition as manifested in literature and culture It investigates the currency and impact of the Matter of France with equal attention to English and French language texts setting each individual manuscript or early printed text in its contemporary cultural and political context The narratives are revealed to be extraordinarily adaptable using the iconic opposition between Carolingian and Saracen heroes to reflect concerns with national politics religious identity the future of Christendom chivalry and ethics and monarchy and treason PHILLIPA HARDMAN is Reader in Medieval English Literature retired at the University of Reading MARIANNE AILES is Senior Lecturer in French at the University of Bristol
