Of Mats And Men:

Arts of Vanuatu Joël Bonnemaison, 1996-01-01 This prodigiously diverse and living culture has for its spiritual source a single traditional vision central to which is the fact that the world belongs not to the living but to the ancestors In Vanuatu art we have the construction of canoes and of standing slit drums the inventiveness apparent in the masks and mats the aesthetics of dress the raising of tusker pigs the sharing out of sea turtle meat the symbol of the hawk representing the outward sign of the possession of the world through the eyes of the departed This art sacred in inspiration takes root in the magic of each place and shore Arts of Vanuatu is the first major contemporary anthropology work covering such a range of topics It is also the first work covering the traditional art of the former South Pacific island colony of the New Hebrides

Ryukyu (Loochoo) Islands United States. Office of the Chief of Naval Operations, 1944 **The Witch-Hunt; or, The Triumph of Morality** F. G. Bailey, 2018-07-05 In the village of Bisipara in eastern India an anthropologist is witness to a drama when a young girl takes a fever and quickly dies

The villagers find Susilla's death suspicious and fear that she was possessed. Holding an investigation to find someone to blame, they carry out a hurried inquiry because the stage must be cleared for the annual celebration of the birthday of the god Sri Ramchandro. However, they eventually agree on the identity of a culprit: an extract from him, a large fine. F. G. Bailey, who was doing fieldwork in Bisipara in the 1950s, tells what it was like to be living there during this witch hunt. As his narrative unfolds, we sense the very texture of the villagers' lives: their caste relationships, occupations, kinship networks, and religious practices. We become familiar with the site's sounds and smells of Bisipara and with many of the village men and women, and we learn their ideas of health and disease, their practice of medicine and burial customs, their ways of resolving discord. The author's commentary opens the curtain on a larger and more complicated scene. It portrays a community in the process of change; from one aspect, the offender is seen as a heroic individual who has broken from the chains of the past, a dissenter standing up for his rights against an entrenched and conservative establishment. From the opposite point of view, he is a troublemaker who rejects the moral order on which society and the good life depend, a man who has trespassed outside his proper domain. From Bailey's neutral perspective, the offender's conduct threatens those in power; their determined and successful effort to punish him was an attempt to protect their own privileged position. In doing so, of course, they could say that they were defending the moral order of their community. Bailey moves easily between field notes and memory as he takes a new look at his first impressions and reflects on what he has learned. His elegant book is a powerful reassessment of anthropology's most enduring themes and debates, which will imprint on the reader's mind a vivid image of a place and its people.
