

Non communicable diseases

Are non infectious diseases, usually chronic diseases of long duration and generally slow progression.

Examples: Heart disease, cancer, chronic respiratory diseases, Hypertension , Liver cirrhosis, Diabetes mellitus, and Genetic diseases.

They are the leading cause of mortality in the world, representing more than 60% of all deaths. (WHO)

Risk factors

tobacco use, alcohol consumption, raised lipid levels, overweight, low fruit/vegetable intake, physical inactivity

Reducing The Risk Of Noncommunicable Diseases:

Reducing the Risk of Noncommunicable Diseases Wesley P. Cushman, 1970 **Noncommunicable Diseases** Nick Banatvala, Pascal Bovet, 2023-01-30

Noncommunicable Diseases A Compendium introduces readers to noncommunicable diseases NCDs what they are their burden their determinants and how they can be prevented and controlled Focusing on cardiovascular disease diabetes cancer and chronic respiratory disease and their five shared main risk factors tobacco use harmful use of alcohol unhealthy diet physical inactivity and air pollution as defined by the United Nations this book provides a synopsis of one of the world's biggest challenges of the 21st century NCDs prematurely claim the lives of millions of people across the world every year with untold suffering to hundreds of millions more trapping many people in poverty and curtailing economic growth and sustainable development While resources between and within countries largely differ the key principles of surveillance prevention and management apply to all countries as does the need to focus resources on the most cost effective and affordable interventions and the need for strong political will sufficient resources and sustained and broad partnerships This compendium consists of 59 short and accessible chapters in six sections i describing and measuring the burden and impact of NCDs ii the burden epidemiology and priority interventions for individual NCDs iii social determinants and risk factors for NCDs and priority interventions iv global policy v cross cutting issues and vi stakeholder action Drawing on the expertise of a large and diverse team of internationally renowned policy and academic experts the book describes the key epidemiologic features of NCDs and evidence based interventions in a concise manner that will be useful for policymakers across all parts of society as well as for public health and clinical practitioners The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

An Introduction to Population-level Prevention of Non-communicable Diseases Mike Rayner, Kremlin Wickramasinghe, Julianne Williams, Karen McColl, Shanthi Mendis, 2017 Provides an unparalleled overview of population based approaches to the prevention of non communicable diseases reflecting the latest research in the field and a key resource for anyone with an interest in NCD prevention as they develop the knowledge and skills needed for effective population based prevention strategies

Non-Communicable Disease Prevention: Best Buys, Wasted Buys and Contestable Buys Wanrudee Isaranuwachai, Rachel A. Archer, Yot Teerawattananon, Anthony J. Culyer, 2019-12-12

Non communicable diseases NCDs are the leading cause of death worldwide contributing to over 73% of all deaths annually Each day NCDs cause more than 100 000 deaths 80% of which occur in low and middle income countries NCDs however are largely preventable and a great deal of technical knowledge exists about how to prevent and manage them Why then have we as a global community not been more successful at reducing this NCD burden Does a universal problem not have a universal solution Created by an international consortium of experts this informative and accessible book provides practical guidelines key learning points and dynamic real world case studies to aid

NCD program managers policy officers and decision makers in low and middle income countries so that they can assess interventions for the prevention and control of NCDs The book was commissioned by the Prince Mahidol Award Conference PMAC an annual international conference centred on policy of global significance related to public health Non Communicable Disease Prevention Best Buys Wasted Buys and Contestable Buys emphasises the importance of context in NCD control and prevention arguing that the success of an intervention lies in an ability to respond to local needs and environments The book comprises ten chapters which collectively explore the reasons behind and strategies for preventing and managing the NCD burden It spans key themes such as political economy the transferability of economic evidence the role of cross sectoral policies the importance of deliberative processes and health technology assessment This book is written for the benefit of the global health community and is primarily targeted at those individuals who are involved in NCD programs This book will also be of interest to NCD champions policy advocates and educators spearheading the movement for increased visibility of NCDs

Integrating the prevention and control of noncommunicable diseases in HIV/AIDS, tuberculosis, and sexual and reproductive health programmes World Health Organization,2023-04-03 In 2011 heads of state and government at the United Nations General Assembly formally acknowledged that NCDs are one of the major challenges to development and committed to integrate NCD prevention and control into other programmes such as for HIV and broader maternal and child health programmes especially in PHC The commitment to integrate NCDs into existing disease programmes was reaffirmed again through its NCD resolutions at its Third High level Meeting in 2018 This guidance outlines strategic actions and practical solutions in response to the challenges of integration of NCDs as appropriate and relevant to the country context The objective is to maximize the impact of health services and extend access to NCD care The target readership is policymakers programme managers and health providers The guidance should also be useful for WHO and international partners including donors and banks that champion integrated support for NCD service delivery in countries and better management

Legal environment assessment for the prevention of non-communicable diseases World Health Organization,United Nations Development Programme,2023-12-18 This guidebook developed collaboratively by the United Nations Development Programme UNDP and the World Health Organization WHO provides an operational framework for conducting legal environment assessments to prevent non communicable diseases NCDs Aimed at policymakers and health professionals it outlines strategies for planning conducting desk reviews engaging key informants and formulating and validating reports The guide emphasizes the role of law and policy in addressing risk factors like tobacco use alcohol consumption unhealthy diets and physical inactivity It supports the implementation of WHO recommended interventions and aligns with global health targets including those of the Sustainable Development Goals The publication aims to empower low and middle income countries to combat the NCD epidemic reduce premature deaths and promote health equity

Assessing national capacity for the prevention and control of noncommunicable diseases World Health

Organization,2023-07-05 **Health literacy development for the prevention and control of noncommunicable diseases** World Health Organization,2022-11-07 This volume published by the World Health Organization focuses on the development of health literacy as a crucial tool for the prevention and control of non communicable diseases NCDs globally The book emphasizes health literacy as a social practice that empowers individuals and communities to understand and manage health related information effectively It highlights the role of education media and communication in enhancing health literacy and addresses barriers such as cultural gender and language challenges The work aims to provide governments and organizations with strategies and interventions to improve health outcomes particularly for disadvantaged groups by fostering locally relevant and sustainable health literacy practices The intended audience includes policymakers health practitioners and educators involved in health literacy and public health initiatives **Noncommunicable Diseases in Saudi Arabia** The World Bank,Ada Alqunaibet,Christopher H. Herbst,Sameh El-Saharty,Abdullah Algwizani,2021-12-06 Saudi Arabia is at an early stage of its demographic transition to an older population and so it has an opportunity to prepare early for a rising noncommunicable disease NCD epidemic NCDs such as cancers cardiovascular diseases diabetes and chronic respiratory diseases and their associated behavioral risk factors tobacco use unhealthy diet and physical inactivity are an increasing economic and public health challenge An aging population is expected to significantly increase the prevalence of NCDs and the related demand for costlier health care services Interventions and reforms to prevent NCDs and to minimize current and future treatment costs are needed now particularly if Saudi Arabia is to achieve the Vision 2030 goal of increasing life expectancy from 75 years in 2021 to 80 years in 2030 To support strategic planning efforts **Noncommunicable Diseases in Saudi Arabia Toward Effective Interventions for Prevention** assesses the latest evidence on the prevalence and risk factors explores the health and economic burden of NCDs as well as their impact on human capital and identifies key gaps in prevention efforts and ways to address these gaps The book discusses the need for a national master plan for NCD prevention one that is selective and targeted with a particular focus on improving the implementation of cost effective interventions and achieving results To be successful the national master plan will need to take into account the roles of the different stakeholders and their likely responsibilities in implementation The book will be of interest to all those who work on NCDs in Saudi Arabia and beyond **Tackling NCDs: best buys and other recommended interventions for the prevention and control of noncommunicable diseases** World Health Organization,2024-04-30 This document provides an updated list of best buys and other recommended interventions to address noncommunicable diseases NCDs It is based on Appendix 3 of the Global action plan for the prevention and control of noncommunicable diseases 2013 2020 which was first approved in 2013 and last updated in 2017 The global action plan which was extended to 2030 by a World Health Assembly decision in 2019 has 6 objectives the implementation of which at country level supports the attainment of the 9 voluntary NCD targets and facilitates the realization of Sustainable Development Goal SDG 3 on good health and well being

Consolidated guidelines on HIV prevention, testing, treatment, service delivery and monitoring World Health Organization, 2021-07-16 These consolidated guidelines on HIV prevention testing treatment service delivery and monitoring bring together existing and new clinical and programmatic recommendations across different ages populations and settings bringing together all relevant WHO guidance on HIV produced since 2016 It serves as an update to the previous edition of the consolidated guidelines on HIV These guidelines continue to be structured along the continuum of HIV care Information on new combination prevention approaches HIV testing ARV regimens and treatment monitoring are included There is a new chapter on advanced HIV disease that integrates updated guidance on the management of important HIV comorbidities including cryptococcal disease histoplasmosis and tuberculosis The chapter on general HIV care contains a new section on palliative care and pain management and up to date information on treatment of several neglected tropical diseases such as visceral leishmaniasis and Buruli ulcer New recommendations for screening and treating of cervical pre cancer lesions in women living with HIV are also addressed in this chapter Guidance on service delivery was expanded to help the implementation and strengthening the HIV care cascade Importantly this guidance emphasizes the need for differentiated approaches to care for people who are established on ART such as reduced frequency of clinic visits use of multi month drug dispensing and implementation of community ART distribution The adoption of these efficiencies is essential to improve the quality of care of people receiving treatment and reduce the burden on health facilities particularly in resource limited settings

Advancing the global agenda on prevention and control of noncommunicable diseases 2000 to 2020 World Health Organization, 2023-07-05 Noncommunicable diseases NCDs continue to be the world's leading cause of death and disability This document highlights the landmarks and milestones in the development and implementation of the global NCD agenda since 2000 indicating where the world wants to be in terms of NCD prevention and control by 2030 It summarizes WHO's actions and initiatives to support Member States in addressing NCDs and to fulfil the relevant commitments with regard to NCDs by the United Nations General Assembly following the guidance provided by the Health Assembly to realize these commitments
