Researching Health Care Designs Dilemmas And Disciplines:

Researching Health Care, 1989 *Researching Health Care* Jeanne Daly, Ian McDonald, Evan Willis, 2020-04-14 First Published in 1992 Health care is currently under intense pressure both to be cost effective and to deliver a service its users want This text is an important contribution to the debate about the most appropriate research method for evaluating its effectiveness **Researching Health** Mike Saks, Judy Allsop, 2007-04-06 *Researching Health* covers the background to conducting health research qualitative and quantitative methods employed in researching health contemporary issues such as research ethics comparative research and the use of mixed methods and how to disseminate health research

Researching Health Care Jeanne Daly, Ian G. McDonald, Evan Willis, 1992 First Published in 1992 Routledge is an imprint of Taylor Francis an informa company **Researching Real-World Problems** Zina O'Leary, 2005-11-23 Taking as her starting point the need for students to conduct research for themselves in the real world Zina O Leary guides those new to research through the whys and how tos of the entire research process This student focused book offers a hands on and practical guide to the research process Qualitative Research In Health Care Holloway, Immy, 2005-06-01 This edited text on qualitative research methods in health is aimed at a multi professional multi disciplinary audience It explains qualitative methods applied specifically to health care research and draws extensively on European examples **Qualitative Research in the Health Professions** William Pitney, Jenny Parker, Stephanie Mazerolle, Kelly Potteiger, 2024-06-01 Qualitative research can provide a great depth of understanding for health professionals in practice Although many general research texts used in health discipline research courses present a broad spectrum of research methods their discussion of qualitative methods is often limited *Qualitative Research in the Health Professions* by Drs William A Pitney Jenny Parker Stephanie M Mazerolle and Kelly Potteiger is a practical and straightforward text for those learning about qualitative research in the health professions In *Qualitative Research in the Health Professions* readers will acquire skills in mastering Introductory concepts of qualitative research how it compares to quantitative research and how to conceptualize a qualitative study How to conduct a qualitative research study and present findings including sections on collecting and analyzing data ensuring trustworthiness of the data and attending to ethical issues Advanced concepts including various forms of qualitative research how to mix quantitative and qualitative methods and how to evaluate qualitative research Each chapter includes activities and exercises to further students understanding and the text also includes personal commentaries from scholarly practitioners in various health professions underscoring the value and importance of qualitative research *Qualitative Research in the Health Professions* will help current and future practitioners master the principles of qualitative research understand published qualitative studies and apply these findings in furthering evidence based practice Context and Method in Qualitative Research Gale Miller, Robert Dingwall, 1997-06-11 A critical examination of the principles and practice of qualitative research is provided in this book which examines the interplay between context and method making it

invaluable for both the experienced and the beginning researcher A range of methodological and practical issues central to the concerns of qualitative researchers are addressed These include the validity and plausibility of qualitative methods the problems encountered using specific techniques in a range of social settings and the moral issues raised in qualitative research These themes are related to practical issues which are illustrated by a breadth of examples and in depth case studies The contributors look at the methods and strategies that they have used to study everyday life and make suggestions to readers on why and how they might conduct their own studies They raise issues that go beyond cookbook discussions of issues such as how to enter social settings manage the subjects of one s research and ask good questions in the process of formulating research strategies These issues are addressed within the framework of the larger purposes and uses of qualitative research where specific methodological problems are not used as ends in themselves

A Clash of Paradigms: Response and Development in the South Pacific Suan Maiava,2024-11-01 This title was first published in 2001 This study indicates that researchers have far to go in understanding and assessing how development projects work The author shows that often the perception of failure is not shared by those whom were intended to benefit She uses a case study of Samoan villagers introduced to cattle farming to examine the wider development process and challenge the conventional theories By drawing on people centred perspectives that give much greater weight to the role of culture in development the volume does not simply criticize development project management but suggests practical and positive ways forward encouraging spontaneous indigenous development which should be supported by projects where appropriate

Qualitative Research Methods in Sport, Exercise and Health Andrew C. Sparkes,Brett Smith,2013-10-15 Qualitative forms of inquiry are a dynamic and exciting area within contemporary research in sport exercise and health Students and researchers at all levels are now expected to understand qualitative approaches and be able to employ them in their work In this comprehensive and in depth introductory text Andrew C Sparkes and Brett Smith take the reader on a journey through the entire qualitative research process that begins with the conceptualization of ideas and the planning of a study moves through the phases of data collection and analysis and then explains how findings might be represented in various ways to different audiences Ethical issues are also explored in detail as well as the ways that the goodness of qualitative research might be judged by its consumers The book is based on the view that researchers need to make principled informed and strategic decisions about what why when and how to use qualitative forms of inquiry The nature of qualitative research is explained in terms of both its core assumptions and what practitioners actually do in the field when they collect data and subject it to analysis Each chapter is vividly illustrated with cases and examples from published research to demonstrate different qualitative approaches in action and their relative strengths and weaknesses The book also extends the boundaries of qualitative research by exploring innovative contemporary methodologies and novel ways to report research findings Qualitative Research Methods in Sport Exercise and Health is essential reading for any student researcher or professional

who wishes to understand this form of inquiry and to engage in a research project within a sport exercise or health context

The Unobtrusive Researcher Allan Kellehear, 2020-08-27 What does graffiti reveal about social behaviour Where can you find out about Australian social values without doing your own survey There is more to social research than surveys and in depth interviews The Unobtrusive Researcher looks beyond the limited accounts people provide of themselves to examine society at a deeper level Written in a clear easy to read style The Unobtrusive Researcher is a practical guide to a range of methods that can supplement and at times even replace conventional social research It is essential reading for new and experienced researchers in the Social Sciences Education Communication Studies and Cultural Studies Methods discussed include library and archival work audiovisual sources observation techniques material culture the use of cameras and computers Witty clear and concise a remarkable overview of the field Professor Bryan Turner Deakin University One of the few guides to research methods which takes on board the implications of poststructuralist theory for research The Unobtrusive Researcher will be useful both for practising researchers wanting to broaden and update their approaches and those at the very beginning of learning how to do research Professor Ann Curthoys University of Technology Sydney

Research in Health Care Julius Sim, Chris Wright, 2000 Providing everything the researcher in a health care setting needs to know about undertaking and completing a research project this book provides detailed information about the various types of research projects that might be undertaken *Interpreting Qualitative Data* David Silverman, 2011-11-01 This is the perfect book for any student new to qualitative research In this exciting and major updating of his bestselling benchmark text David Silverman walks the reader through the basics of gathering and analysing qualitative data David Silverman offers beginners unrivalled hands on guidance necessary to get the best out of a research methods course or an undergraduate research project New to the fourth edition A new chapter on data analysis dealing with grounded theory discourse analysis and narrative analysis Further worked through examples of different kinds of data and how to interpret them A separate section on focus groups and interpreting focus group data An expanded ethics chapter More coverage of digital media and photographs as data A companion website with additional case studies and examples links to SAGE journals online and links to useful websites podcasts and Youtube videos This fourth edition is also accompanied with its own group page on www.methodspace.com where users can give feedback and discuss research issues Visit www.methodspace.com/group/silverman

The Social Meaning of Midwifery Sheila C. Hunt, Anthea Symonds, 1995-11-11 Many books exist illustrating the power structure of the medical professional which is male gendered and its significance for women within this No study has so far tackled the relationship between women as child birth professionals and women as mothers The attitude of the midwife towards the labour ward is examined How the mother is marginalised by the managerial role taken on by the midwife towards the production process childbirth and the object of production child is the main focus of this book The stream of feminist orientation which is said to run through a section of the midwifery profession is examined **Cancer on the**

Margins Judy Gould, Jennifer Nelson, Susan Keller-Olaman, 2009-05-16 *Cancer on the Margins* presents the findings of the Ontario Breast Cancer Community Research Initiative an organization created to investigate the experiences of women with breast cancer from marginalized and underrepresented groups The authors examine the psychosocial needs of women living with breast cancer while investigating differences in treatment care and survivorship amongst Aboriginal women women of colour francophone women lesbians as well as young women lower income women and women in rural areas Structured as a guide for similar research *Cancer on the Margins* provides a start to finish format that reveals the complexities of doing such work at each stage of research beginning with the study design and ending with the dissemination of results The authors address the challenges of working with and speaking for these groups of women the tension between description and interpretation and the challenge for qualitative work to present findings that positively influence the circumstances of research participants With a strong commitment to social justice this volume also shows how participatory research can lead to social change and indicates effective ways to ensure that research not only reaches but is also employed in the communities it intends to serve Bridging the gap between a wide range of audiences this vitally important work will be of interest to health professionals new researchers policy makers new researchers and experienced investigators as well as the public

The Sociology of Healthcare Alan Clarke, 2013-09-13 *The Sociology of Healthcare* Second Edition explores the impact of current social changes on health illness and healthcare and provides an overview of the fundamental concerns in these areas This new edition features a brand new chapter entitled End of Life which will help health and social care workers to respond with confidence to one of the most difficult and challenging areas of care The End of Life chapter includes information on changing attitudes to death theories of death and dying and palliative care All chapters have been thoroughly updated to address diversity issues such as gender ethnicity and disability In addition expanded and updated chapters include Childhood and Adolescence and Health Inequalities The text is further enhanced through the use of case studies that relate theory to professional practice and discussion questions to aid understanding Links to websites direct the reader to further information on health social wellbeing and government policies This book is essential reading for all students of healthcare including nursing medicine midwifery and health studies and for those studying healthcare as part of sociology social care and social policy degrees In an age when health policy follows an individualist model of personal responsibility this book by Alan Clarke demonstrates with a vast array of evidence just how much there is such a thing as society An excellent overall book Dr Stephen Cowden Senior Lecturer in Social Work Coventry University

Evaluating Research in Health and Social Care Roger Gomm, Gill Needham, Anne Bullman, 2000-11-13 Explains and critically evaluates a range of research techniques for the caring professions

The Imperative of Health Deborah Lupton, 1995-06-15 In this reappraisal of public health and health promotion in contemporary societies Deborah Lupton explores public health and health promotion using contemporary sociocultural and political theory particularly that building on Foucault's writings on subjectivity

embodiment and power relations The author examines the implications of the new social theories for the study of health promotion and health communication to analyze the symbolic nature of public health practices and explores their underlying meanings and assumptions **Ethical Intersections** Jeanne Daly, 2019-03-13 This book presents a collection of essays that aims to make public the social discourse on ethics of health research used by responsible practising researchers in order to demonstrate the detailed and fine consideration given to the ethics of the research task **Political Research** Sandr Halperin, 2025
