

Critical Review Structure

Critical reviews, both short (one page) and long (four pages), usually have a similar structure. Check your assignment instructions for formatting and structural specifications. You need to write a critical review not more than 2000 words. Please use the following structure for your own critical review. Choose one of the following journals attached. There are FIVE journals that you may choose **ONLY ONE** and review based on your own interest. Font size of your review should be **12, doubled space**, and in **Times New Roman Style**. Put your identity and NIM in your work (don't forget to have a cover).

Introduction

The length of an introduction is usually one paragraph for a journal article review and two or three paragraphs for a longer book review. Include a few opening sentences that announce the author(s) and the title, and briefly explain the topic of the text. Present the aim of the text and summarize the main finding or key argument. Conclude the introduction with a brief statement of your evaluation of the text. This can be a positive or negative evaluation or, as is usually the case, a mixed response.

Summary

Present a summary of the key points along with a limited number of examples. You can also briefly explain the author's purpose/intentions throughout the text and you may briefly describe how the text is organized. The summary should only make up about a third of the critical review.

Critique

The critique should be a balanced discussion and evaluation of the strengths, weakness and notable features of the text. Remember to base your discussion on specific criteria. Good reviews also include other sources to support your evaluation (remember to reference).

You can choose how to sequence your critique. Here are some examples to get you started:
