Unconditional Secrets Beyond Love Marlies van den Broek, 2025-01-29 Whoever delves into the lives of L and S who achieved something in Dorthrin and the earth is struck once more by the lives of their children their Halflings and new demonic enemies and divine friends that with their power to heal children it wasn't a lack to bend it into magical quality The deeper demons sank the higher the children of L and S could rise They have never heard from their raisers about the crime that S and L committed that they themselves could commit They knew how to conjure the appealing versatility of their criminal possibilities into a peacock's tail of their great oeuvre They were living in vain And they were young adults

The Secret Five and the Stunt Nun Legacy John Lawrence, 2010 A comic novel a surreal parody of children's adventure stories aimed at adult readers in which unnervingly the time travelling characters are aware of their place in the narrative and the author treats them with curmudgeonly disdain The plot creaky and with more holes than a Swiss cheese is the vehicle for the quirky and unusual humour which is packed

onto every page Our young adult heroes Betty Daniel Ricky Amy and their dog Whatshisname think that they live life on the edge dominated by secret passwords and meetings They have a tetchy relationship with Whatshisname who might just be cleverer than they think they also have a tetchy relationship with the author who definitely isn't The characters sometimes become uncontrollable Ricky walks out of the book at one stage and at another critical point Daniel demands that his character should wear spectacles A feeble attempt by the author to kill off his characters fails miserably This book for adults is crammed with humour occasionally a little cheeky never offensive but always unashamedly silly [Bowker's Complete Video Directory](#) ,2000 [The Tunguska Mystery](#) Vladimir Rubtsov,2009-08-15 The purpose of the book is a dual one to detail the nature and results of Tunguska investigations in the former USSR and present day CIS and to destroy two long standing myths still held in the West The first concerns alleged final solutions that have ostensibly been found in Russia or elsewhere The second concerns the mistaken belief that there has been little or no progress in understanding the nature of the Tunguska phenomenon All this is treated by the author in a scholarly and responsible manner Although the book does present certain unusual findings of Russian and Ukrainian scholars it is important to stress that this is not a sensational book it is rather a serious exposition of the results of rational investigations into a difficult scientific problem We are demonstrating the true complexity of the problem that is now entering its second century of existence Simple meteoritic models cannot explain all the characteristics of this complicated event and therefore certain so called unconventional hypotheses about the nature of the Tunguska explosion are to be considered as well [Secret Violences](#) Slawomir Maslon,2023-04-06 Although Michelangelo Antonioni became one of the icons of modernist cinema in the 1960s his position in the pantheon of great directors has never been quite secure Unlike his famous contemporaries such as Ingmar Bergman and Luchino Visconti whose essential contribution to the art of cinema is hardly ever questioned Antonioni's work has been repeatedly denigrated from many angles for both aesthetic and political reasons Though the historical importance of some of Antonioni's films as an incarnation of certain attitudes and problems characteristic of the 1960s and 70s is not denied they are often considered pass artificial and boring Contesting prevalent readings which focus on existential and psychological motifs involving anxiety and the malady of sentiments this book offers a re-evaluation of Antonioni's most important films interpreted as political cinema engaged with issues which are still crucial in the 21st century Far from being politically neutral Antonioni's oblique and abstract approach makes possible the prising open and devaluation of the morally and politically constrictive organic narrative structures His approach overthrows the primacy of character and plot on the one hand by showing them to be emanations of the spectral materiality of capital and on the other hand by allowing for an opening into the utopian dimension implying engagement in the rethinking of our attachments to the world [The Volcano Suite](#) Shake Keane,1979 [Secret of Omordion](#) NANDE ORCEL,2017-11-02 *The Secret Memoires of the Duc de Roquelaure* Gaston-Jean-Baptiste duc de Roquelaure,1897 **Jules Verne For Children: 16 Incredible Tales of Mystery,**
