Prebish,2010-11-01 **An Introduction to Buddhism** Peter Harvey,1990-05-25 Unlike other studies this work not only explores Buddhism s world views but attempts to show how it functions as a set of practices based on devotion ethics and meditation **Buddhist Asia** Christoph Kleine,Karénina Kollmar-Paulenz,Hubert Seiwert,2025-04-21 This volume seeks to chart and elucidate the diverse relationships between the religious and secular spheres in regions of Asia that were significantly influenced sometimes even dominated by Buddhist discourses ideas and institutions These regions include South Asia India Sri Lanka East and Southeast Asia China Japan Korea Vietnam Inner Asia Buryatia Mongolia Tibet and the Himalayan region Bhutan These regions were connected by communicative networks long before the global modern age They constituted an intricately entangled discursive sphere shaped by the cross regional spread of concepts and ideas from Buddhism and in East Asia Confucianism The volume sheds light on the prehistory and development of culturally specific forms of secularity and related concepts in Asia It comprises a wide range of texts spanning approximately 2000 years in many cases this is the first time that they have been presented in English The texts here are not merely reproduced but are also introduced and contextualized Through these materials the volume highlights the fact that distinctions akin to those between the religious and the secular were already prevalent in premodern Asia laying the groundwork for the various forms of secularity which took shape in the modern period
