Secular Vocations Intellectuals Professionalism Culture:

Secular Vocations Bruce Robbins, 1993-07-17 During the 1980s university based intellectuals came under heavy fire from both radicals and conservatives They were accused by the former of betraying their public duty as general critics of society and by the latter of promulgating radical ideologies and corrupting the young In this work the author counters both left and right arguing that the professionalization of literary study was inevitable and fortuitous Robbins undertakes close studies of such figures as Edward Said Fredric Jameson and Raymond Williams while considering the major trends in contemporary cultural studies and giving significant attention to relevant developments in such disciplines as ethnology and sociology *Secular Vocations* ranges over materials from Britain France and the US knitting them together in a synthesis that places in bold relief many of the major controversies in contemporary intellectual life It concludes with a plea for what Robbins calls comparative cosmopolitanism to displace the more militantly particularist projects that have come to dominate the human sciences

Postcolonial Intellectuals in Europe Sandra Ponzanesi,, Adriano José Habed, 2018-08-31 Postcolonial intellectuals have engaged with and deeply impacted upon European society since the figure of the intellectual emerged at the beginning of the nineteenth century Yet a critical assessment and overview of their influential roles is long overdue particularly in the light of contemporary debates in Europe and beyond This book offers an innovative take on the role of intellectuals in Europe through a postcolonial lens and in doing so questions the very definition of public intellectual on the one hand and the meaning of such a thing as Europe on the other It does so not only by offering portraits of charismatic figures such as Stuart Hall Jacques Derrida Antonio Gramsci Frantz Fanon and Hannah Arendt among others but also by exploring their lasting legacies and the many dialogues they have generated The notion of the classic intellectual is further challenged by bringing to the fore artists writers and activists as well as social movements networks and new forms of mobilization and collective engagement that are part of the intellectual scene

Film and the Anarchist Imagination Richard Porton, 1999 Bearded bomb throwers self indulgent nihilists dangerous subversives these characteristic clichés of anarchists in the popular imagination are often reproduced in the cinema In *Film and the Anarchist Imagination* the first comprehensive survey of anarchism in film Richard Porton deconstructs such stereotypes while offering an authoritative account of films featuring anarchist characters and motifs From the early cinema of Griffith and Ren Clair to the work of Godard Lina Wertmüller Lizzie Borden and Ken Loach Porton analyzes portrayals of anarchism in film presenting commentaries and critiques of such classics as *Zéro de Conduite* *Tout Va Bien* and *Love and Anarchy* In addition he provides an excellent guide to the complex traditions of anarchist thought from Bakunin and Kropotkin to Emma Goldman and Murray Bookchin disclosing a rich historical legacy that encompasses the Paris Commune the Haymarket martyrs the anarcho syndicalists of the Spanish Civil War as well as more familiar contemporary avatars like the Situationists and the enragés of May 1968

Postmodernism and China Xudong Zhang, Arif Dirlik, 2000-10-27 This work maps the terrain of the postmodern in China

Amateur Media Dan Hunter, 2013 The rise of Web 2.0 has pushed the amateur to the forefront of public discourse public policy and media scholarship Typically non salaried non specialist and untrained in media production amateur producers are now seen as key drivers of the creative economy But how do the activities of citizen journalists fan fiction writers and bedroom musicians connect with longer traditions of extra institutional media production This edited collection provides a much needed interdisciplinary contextualisation of amateur media before and after Web 2.0 Surveying the institutional economic and legal construction of the amateur media producer via a series of case studies it features contributions from experts in the fields of law economics and media studies based in the UK Europe and Singapore Each section of the book contains a detailed case study on a selected topic followed by two further pieces providing additional analysis and commentary Using an extraordinary array of case studies and examples from YouTube to online games from subtitling communities to reality TV the book is neither a celebration of amateur production nor a denunciation of the demise of professional media industries Rather this book presents a critical dialogue across law and the humanities exploring the dynamic tensions and interdependencies between amateur and professional creative production This book will appeal to both academics and students of intellectual property and media law as well as to scholars and students of economics media cultural and internet studies

Democracy's Children John McGowan, 2018-03-15 How do American intellectuals try to achieve their political and social goals By what means do they articulate their hopes for change John McGowan seeks to identify the goals and strategies of contemporary humanistic intellectuals who strive to shape the politics and culture of their time In a lively mix of personal reflection and shrewd analysis McGowan visits the sites of intellectual activity scholarly publications professional conferences the classroom and the university and considers the hazards of working within such institutional contexts to effect change outside the academy Democracy's Children considers the historical trajectory that

produced current intellectual practices McGowan links the growing prestige of culture since 1800 to the growth of democracy and the obsession with modernity and explores how intellectuals became both custodians and creators of culture Caught between fears of culture's irrelevance and dreams of its omnipotence intellectuals pursue a cultural politics that aims for wide ranging social transformations For better or worse McGowan says the humanities are now tied to culture and to the university The opportunities and frustrations attendant on this partnership resonate with the larger successes and failures of contemporary democratic societies His purpose in this collection of essays is to illuminate the conditions under which intellectuals in a democracy work and at the same time to promote intellectual activities that further democratic ideals

Professional Domesticity in the Victorian Novel Monica F. Cohen,1998-02-05 Much attention has recently been given by scholars to the widening of the gender gap in the nineteenth century and the concept of separate spheres Testing such constructions and questioning the stereotypes associated with Victorian domesticity Monica F Cohen offers new readings of narratives by Austen Charlotte Bront Dickens Eliot Eden Gaskell Oliphant and Reade to show how domestic work the most feminine of all activities gained much of its social credibility by positioning itself in relation to the emergent professions By exploring how novels cast the Victorian conception of female morality into the vocabulary of nineteenth century professionalism Cohen traces the ways in which women sought identity and privilege within a professionalised culture and revises our understanding of Victorian domestic ideology

Pedagogy, Intellectuals, and Dissent in the Later Middle Ages Rita Copeland,2001-07-26 This book is about the place of pedagogy and the role of intellectuals in medieval dissent Focusing on the medieval English heresy known as Lollardy Rita Copeland places heretical and orthodox attitudes to learning in a long historical perspective that reaches back to antiquity She shows how educational ideologies of ancient lineage left their imprint on the most sharply politicized categories of late medieval culture and how radical teachers transformed inherited ideas about classrooms and pedagogy as they brought their teaching to adult learners The pedagogical imperatives

of Lollard dissent were also embodied in the work of certain public figures intellectuals whose dissident careers transformed the social category of the medieval intellectual Looking closely at the prison narratives of two Lollard preachers Copeland shows how their writings could serve as examples for their fellow dissidents and forge a new rapport between academic and non academic communities Subject to Colonialism Gaurav Desai,2001-06-20 The discursive construction of Africa under colonialism with an emphasis on the part played by African writers themselves *Edward Said and the Authority of Literary Criticism* Nicolas Vandeviver,2019-09-26 This book examines the earliest writings of Edward Said and the foundations of what came to be known as postcolonial criticism in order to reveal how the groundbreaking author of *Orientalism* turned literary criticism into a form of political intervention Tracing Said s shifting conceptions of literature and agency in relation to the history of American literary studies in the thirty years or so between the end of World War II and the last quarter of the twentieth century this book offers a rich and novel understanding of the critical practice of this indispensable figure and the institutional context from which it emerged By combining broad scale literary history with granular attention to the vocabulary of criticism Nicolas Vandeviver brings to light the harmonizing of methodological conflicts that informs Said s approach to literature and argues that Said s enduring political significance is grounded in his practice as a literary critic

The Oxford Handbook of the Victorian Novel Lisa Rodensky,2013-07-11 Much has been written about the Victorian novel and for good reason The cultural power it exerted and to some extent still exerts is beyond question The Oxford Handbook of the Victorian Novel contributes substantially to this thriving scholarly field by offering new approaches to familiar topics the novel and science the Victorian Bildungroman as well as essays on topics often overlooked the novel and classics the novel and the OED the novel and allusion Manifesting the increasing interdisciplinarity of Victorian studies its essays situate the novel within a complex network of relations among for instance readers editors reviewers and the novelists themselves or among different cultural pressures the religious the commercial the legal The handbook s essays also build on recent bibliographic work of remarkable scope and detail responding to the growing attention to print culture With a detailed introduction and 36 newly commissioned chapters by leading and emerging scholars beginning with Peter Garside s examination of the early nineteenth century novel and ending with two essays proposing the last Victorian novel the handbook attends to the major themes in Victorian scholarship while at the same time creating new possibilities for further research Balancing breadth and depth the clearly written nonjargon laden essays provide readers with overviews as well as original scholarship an approach which will serve advanced undergraduates graduate students and established scholars As the Victorians get further away from us our versions of their culture and its novel inevitably change this Handbook offers fresh explorations of the novel that teach us about this genre its culture and by extension our own **Public Intellectuals** Richard A. Giroux, Patrick Shannon, 2013-12-02 Although the disciplines of critical education and cultural studies have traditionally occupied separate spaces as they have addressed different audiences their concerns as well as the political and pedagogical nature of their work overlap Education and Cultural Studies brings members of these two groups together to demonstrate how a critical understanding of culture and education can transgressively implement broad political change All written from within this framework of cultural studies and critical pedagogy the contributors illuminate the possibilities and opportunities open to practicing educators In eschewing a romantic utopianism and in assessing the current climate of what is attainable and practical this book teaches us how we can begin to translate and perhaps even transform the vexing social problems that confront us daily Contributors include Carol Becker Harvey J Kaye David Theo Goldberg Jeffrey Williams Sharon Todd Douglas Kellner Deborah Britzman Jacqueline Reid Walsh Claudia Mitchell Cameron McCarthy Mike Hill Susan Searls Stanley Aronowitz Douglas Noble Kakie Urch Henry Giroux David Trend and Robert Mikilitsch

Truth to Power Karyn Hollis, Silvia Nagy-Zekmi, 2010-06-09 The notion that public intellectuals in the US are in decline has again become fashionable with their portrayal as trapped between Academe and the real world The questions addressed by this volume are How can the voices of scholars and erudite thinkers penetrate the globalized corporate media and how does media receive and represent the contribution of intellectuals to the academic and public spheres all the while recognizing what Paul Bov calls the the nonidentity of intellectuals as a group Dedicated to the memory of Howard Zinn whose life work is a model for intellectual engagement this collection of intriguing articles with an introduction by the editors and a foreword by Henry A Giroux presents new scholarship on the role of the intellectual in a society and specifically in Academe from many different perspectives Indeed intellectuals have been negotiating access to public discourse for centuries but never have their opinions been more crucial to the public good because of the privately owned media s domination of public discourse The inspiration for this volume comes also from Edward Said s notion of intellectuals whose role is to uncover and elucidate the contest to challenge and defeat both an imposed silence and the normalized quiet of unseen power wherever and whenever possible *The Institution of Literature* Jeffrey Williams, 2002-01-01 Leading voices in literary and cultural studies examine the study of literature at the college level including the fate of theory the rise of cultural studies the academic star system and the difficult job market
