Bookman's Guide to Americana Joseph Norman Heard, Charles F. Hamsa, 1986 No descriptive material is available for this title

As Others See Chicago Bessie Louise Pierce, Joe Lester Norris, 2004-05-29 Sometimes it takes an outsider to capture the essence of an individual place The impressions of travelers in particular have a special allure unanticipated and serendipitous their views get to the heart of a particular region because nothing to them is routine or expected First published in 1933 by the University of Chicago Press to mark the occasion of the Century of Progress Exhibition As Others See Chicago consists of writings culled from over a thousand men and women who visited the city and commented on the best and worst it had to offer from the skyscrapers to the stockyards Originally compiled by Bessie Louise Pierce the first major historian of Chicago and featuring her own incisive commentary the volume brings together the impressions of visitors to Chicago over two and a half centuries from the early years of Westward Expansion to the height of the Great Depression In addition to writings from better known personalities such as Rudyard Kipling and Waldo Frank the book collects the opinions of missionaries aristocrats journalists and politicians observers who were perfectly placed to comment on the development of the city its inhabitants and well known events that would one day define Chicago history such as the Great Fire of 1871 and the 1893 World's Fair Taking us back to a time when Chicago was more astonishing than the wildest visions of the most vagrant imaginations As Others See Chicago offers an enthralling portrait of an enduring American metropolis *Catalog of Copyright Entries. From All Points Elliott Robert Barkan, 2007-05-11 A history of immigrants in the American West in the nineteenth and twentieth centuries and their effect on the region At a time when immigration policy is the subject of heated debate this book makes clear that the true wealth of America is in the diversity of its peoples By the end of the twentieth century the American West was home to nearly half of America's immigrant population including Asians and Armenians Germans and Greeks Mexicans Italians Swedes Basques and others This book tells their rich and complex story of adaptation and isolation maintaining and mixing traditions and an ongoing ebb and flow of movement assimilation and replenishment These immigrants and their children built communities added to the region's culture and contended with discrimination and the lure of Americanization The mark of the outsider the alien the nonwhite passed from group to group even as the complexion of the region changed The region welcomed then excluded immigrants in restless waves of need and nativism that continue to this day Written in the fashion of Oscar Handlin this study makes a convincing case that immigration history comprises an essential part of the history of the American West and that appreciation of the former and the roles played by myriad alien arrivals is essential for understanding the latter Barkan combines vignettes based on immigrant reminiscences with keen analysis to explore four related themes various groups arrivals their economic influences their effects on public policy and their adaptation and assimilation The resulting narrative is readable and informative Recommended Choice A

remarkable synthesis of the West as a region of immigrants It tells the story of how vital immigrants were to economic growth and modernization This will be the prime reference for 21st century scholars of immigration and ethnicity in the American West Annals of Wyoming Spring 2010 **American Far West in the Twentieth Century** Earl S.

Pomeroy, 2008-10-21 In this richly insightful survey that represents the culmination of decades of research a leading western specialist argues that the unique history of the American West did not end in the year 1900 as is commonly assumed but was shaped as much if not more by events and innovations in the twentieth century Earl Pomeroy gathers copious information on economic political social intellectual and business issues thoughtfully evaluates it and draws a new and more nuanced portrait of the West than has ever been depicted before Pomeroy mines extensive published and unpublished sources to show how the post 1900 West charted a path that was influenced by but separate from the rest of the country and the world He deals not only with the West's transition from an agricultural to an urban region but also with the important contributions of minority racial and ethnic groups and women in that transformation Pomeroy describes a modern West increasingly urban transnational and multicultural that has overcome much of the isolation that challenged it at an earlier time His final book is nothing short of the definitive source on that West **Race and U.S. Foreign Policy in the Ages of Territorial and Market Expansion, 1840-1900** E. Nathaniel Gates, 2014-03-05 First Published in 1998 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and

scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject **The Publishers Weekly** ,1875 *South East Asia, Colonial History: Empire-building in the nineteenth century* Paul H. Kratoska,2001 The six volumes that make up this unique set provide an extensive overview of colonialism in South East Asia In the majority of cases authors chosen were specialists writing about their individual areas of expertise and had first hand experience in the region Outline of contents I Imperialism before 1800 Edited by Peter Borschberg II Empire Building in the Nineteenth Century III High Imperialism IV Imperial Decline Nationalism and the Japanese Challenge V Peaceful Transitions to Independence VI Independence through Violent Struggle **Early Western Travels, 1748-1846: Flagg, E. Flagg's The Far West, 1836-1837. Pt. 1** Reuben Gold Thwaites,1906 *The Publishers' Circular and Booksellers' Record* ,1928 **Resources in Education** ,1997 Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office,1949 *The North British Review* ,1853 **Housing and Planning References** ,1976 **Mormonism and Music** Michael Hicks,2003 A history of the Mormon faith and people as they use the art of music to define and re define their religious identity *Catalogue of Books belonging to the Saint Louis Mercantile Library Association, etc* Mercantile Library Association (SAINT LOUIS, Missouri),1850 *Coyote Valley* Thomas G.
