*How to Fix Exploding Brains?* Ram Arora, 2009-11-11 All living organisms are like biological robots Their physical actions organic capabilities and senses are firmly and very narrowly limited and so programmed in the DNA Brain the master controller of the living system is as susceptible to external and internal stresses as all other bodily components The brain is also abode of the mind and the mind is the embodiment of thoughts The scientific observation that brain and mind die simultaneously is irrefutable Wherein the brain the mind parks itself is a mystery The brain is more intricate than the universe and the mind exceeds the brain in complexity Billions of neurons and trillions of synapses keep on firing acting reacting storing and communicating to and from sensory organs as long as the structure of the brain is not damaged diseased or dead Brain when overloaded with its electric charge due to intense mental activity can explode like a bomb Five people are known to have died when their brains blew up because of the condition called Hyper Cerebral Electrosis HCE The most recent death occurred when psychic Barbara Nicole's skull burst Chess Champion Nikolai Titov's head suddenly blew apart when he was concentrating on his move The brain endures many mini explosions without shattering HCE kills rarely but sickens very often All evil emotions cause stronger HCE than pleasant thoughts do

**The Flanders Road** Claude Simon, 2022-07-12 By the winner of the 1985 Nobel Prize in Literature a riveting stylistically audacious modernist epic about the French cavalry s bloody face off against German Panzer tanks during WWII On a sunny day in May 1940 the French army sent out the cavalry against the invading German army s panzer tanks Unsurprisingly the French were routed Twenty six year old Claude Simon was among the French forces As they retreated he saw his captain shot off his horse by a German sniper This is the primal scene to which Simon returns repeatedly in his fiction and nowhere so powerfully as in his most famous novel The Flanders Road Here Simon s own memories overlap with those of his central character Georges whose captain a distant relative dies a similar death Georges reviews the circumstances and sense or senselessness of that death first in the company of a fellow prisoner in a POW camp and then some years later in the course of an ever more erotically charged visit to the captain s widow Corinne As he does other stories emerge Corinne s prewar affair with the jockey Igl sia who would become the captain s orderly the possible suicide of an eighteenth century ancestor whose grim portrait loomed large in Georges s childhood home Georges s learned father whose books are no help against barbarism The great question throughout the question that must be urgently asked even as it remains unanswerable is whether fiction can confront and respond to the trauma of history

**Losing Your Faith, Finding Your Soul** David Robert Anderson, 2013-09-17 Losing Your Faith Finding Your Soul is for those of us who have come to the end of traditional beliefs and wonder if we have reached the end of faith as well It is for the day when assumptions about God and the religious teachings we trusted in the past no longer apply to life When your old beliefs die is it possible to hold onto faith David Robert Anderson answers this question with a resounding yes With Anderson as friend and guide we discover that what once seemed an ending is actually a promising beginning an invitation into a more authentic and very different spiritual experience

The Path to Love is the Practice of Love Carol Riddell, 1995 The book explains the meaning of a spiritual life and provides a way for people to get together with like minded friends to practice its principles Through understanding and practice the book promotes the chance to transform daily life to give meaning to its experiences and to find happiness in the service of others The teachings can apply equally to Christians Buddhists Moslems Hindus or Humanists as long as it is accepted that the essential principle of the cosmos is love a love both detached and personal all pervasive and specific wisdom that can be learned first third of the book The exercises have been tested out over

a period of four years in workshops in several European countries and at the Findhorn Foundation *Finding Philosophers in Global Fiction* Anway Mukhopadhyay, Saptarshi Mallick, Debashree Dattaray, 2024-09-05 A cross cultural study that explores and redefines what philosophy philosophizing and philosophers are through the lens of literature The academic discipline of philosophy may tell us too rigidly what a philosopher is or should be but fictional narration often upholds the core conundrums of humankind in which philosophy germinates This collection of essays explores whether a study of philosophers at a planetary scale or at least on a broad cross cultural spectrum can decouple philosophy from its academic aspect and lend it a more inclusive domain Contributors to this volume play with three conceptual poles making them interact with each other and get modified through this interaction fiction narrative and philosopher How do these three terms get semantically modified and broadened in scope when we speak of the figures of philosophers in imaginative writing How do these terms assume different connotations in different cultural contexts interacting with the multiplicity of not just thought but also the media and tools of thought Do we always think only rationally Or do we also think with and through emotively powerful images symbols and tropes In the end *Finding Philosophers in Global Fiction* insists on the need to de-elitize and democratize the concept of a philosopher by reflecting on the possibility of seeing a philosopher as one who sees things clearly from any vantage point

**Searching for Presence** Robert W. Greene, 2022-04-11 Yves Bonnefoy's writings have won him praise not only from readers and critics of French poetry but also thanks to translations into many other languages from readers and critics of poetry far beyond the francophone world Indeed Bonnefoy may be the most admired poet to have emerged in France since World War II Yet his art criticism dazzling in its scope possibly as original as his poetry is yet to receive the attention it deserves *Searching for Presence* Yves Bonnefoy's Writings on Art undertakes to fill that lacuna Elusive skirting the ineffable the notion of presence has haunted Bonnefoy for decades Central to the notion for the poet is the fleeting experience of mutuality between self and other of lightning transaction in a transient world of a shared mortal destiny hence a plenitude within finitude In an age when so many of his contemporaries seem to view any form of art as wallpaper spanning a void Bonnefoy's faith in presence is all the more welcome Focusing on his art criticism the aspect of the poet's oeuvre in which the notion of presence is the most salient this study tries to do justice to that fidelity
