*A Passion for Mountains* Kathryn Bridge,2006 Don and

Phyllis Munday are western Canada's most famous mountaineering couple. Active members of the Alpine Club of Canada, they climbed for almost four decades throughout the Pacific Northwest as well as in the Selkirks and the Rocky Mountains. The Mundays were ahead of their time. They are chiefly renowned for their tenacity and environmental awareness as well as for their scientific contributions in exploring and documenting the little-known Coast Mountains. Their joint climbs from the 1920s through the 1940s included scaling 150 plus mountains; more than 40 were first ascents. *A Passion for Mountains* features a broad selection of the Mundays' photographs and incorporates their own words to describe many of their ascents.

**Continental Divide** Maurice Isserman, 2016-04-21 This magisterial and thrilling history argues that the story of American mountaineering is the story of America itself. In *Continental Divide*, Maurice Isserman tells the history of American mountaineering through four centuries of landmark climbs and first ascents. Mountains were originally seen as obstacles to civilization; over time, they came to be viewed as places of redemption and renewal. The White Mountains stirred the transcendentalists; the Rockies and Sierras pulled explorers westward toward Manifest Destiny. Yosemite inspired the early environmental conservationists. Climbing began in North America as a pursuit for lone eccentrics but grew to become a mass participation sport. Beginning with Darby Field in 1642, the first person to climb a mountain in North America, Isserman describes the exploration and first ascents of the major American mountain ranges from the Appalachians to Alaska. He also profiles the most important American mountaineers, including such figures as John C. Fremont, John Muir, Annie Peck, Bradford Washburn, Charlie Houston, and Bob Bates, relating their exploits both at home and abroad. Isserman traces the evolving social, cultural, and political roles mountains played in shaping the country. He describes how American mountaineers forged a brotherhood of the rope, modeled on America's unique democratic self-image that characterized climbing in the years leading up to and immediately following World War II. And he underscores the impact of the postwar rucksack revolution, including the advances in technique and style made by pioneering dirtbag rock climbers. A magnificent, deeply researched history, *Continental Divide* tells a story of adventure and aspiration in the high peaks that makes a vivid case for the importance of mountains to American national identity.

Mount Robson Jane Lytton Gooch, 2013 When Jane Gooch first camped at Lake O'Hara in 1975, she could not have foreseen how important the Rockies would become in her life. She travelled from her home in Vancouver many times during the summer months to hike in the mountains, and her love of the alpine landscape eventually inspired her to study the artists who have painted in the Rockies.
