From One Author To Another: Marketing Advice For Self-Publishing Writers Marques Vickers,2023-09-22 Assembling helpful marketing advice and guideposts for promoting your self published writings often appears like a trek through a cloistered forest The industry is so relatively new that there is minimal precedent to draw upon and few established strategies guaranteeing success The self publishing industry is an evolving landscape of financial and exposure promise supplanting a formerly rigid and longstanding business model currently crumbling and fragmenting Each writer becomes a trailblazer Self publishing is not a competition There is no finishing tape Writing has no retirement age You may construct literature profiles or lifestyle text until you can no longer lift a pen or tap a keystroke You may not become an acknowledged success within your lifetime The elemental act of writing completing a manuscript and publishing however is achievement Many individuals claim that they are writers without following up by actively composing Within our often sedentary universe of spectators there still exist niches for fresh voices and visions The marketing advice offered is sourced straight from personal experience The articulation and explanation process is still being shaped and refined just as the influence of the Internet upon the publishing industry remains fluid My observations are neither self serving nor ego driven I want you to

succeed as an author on your terms I hope that I may contribute towards your continued productivity Whatever pathway you embark upon keep your creative output continuous Marketing is an important element in the process but ultimately your output is the measurement Self publishing may become the best tool to amplify your message
