Environmental Conservation, Clean Water, Air & Soil (CleanWAS) Muhammad Aqeel Ashraf, Wan Syaidatul

Aqma, 2017-02-15 As we embark into the 21st century we need to address new challenges ranging from population growth climate change and depletion of natural resources to providing better health care food security and peace to humankind while at the same time protecting natural ecosystems that provide the services which allow life to flourish on Earth To meet those challenges profound changes are required in the way that societies conduct their everyday affairs ways that will lead to better preservation protection and sustainable management of natural resources with long lasting impacts The aim of CleanWAS 2016 is to provide productive opportunities for academics and practitioners from interdisciplinary fields of Environmental Sciences to meet share and bring expertise and ideas in related disciplines The CleanWAS conference was first organized in the year 2012 It is an annual event organised by the International Water Air and Soil Conservation society INWASCON and is supported by various Malaysian UKM UMS UIAM and Chinese universities CUG NKU SYSU **Law**

Books Published, 2002 *Nature's Trust* Mary Christina Wood, 2013-09-30 Environmental law has failed us all As ecosystems collapse across the globe and the climate crisis intensifies environmental agencies worldwide use their authority to permit the very harm that they are supposed to prevent Growing numbers of citizens now realize they must act before it is too late This book exposes what is wrong with environmental law and offers transformational change based on the public trust doctrine An ancient and enduring principle the trust doctrine asserts public property rights to crucial resources Its core logic compels government as trustee to protect natural inheritance such as air and water for all humanity Propelled by populist impulses and democratic imperatives the public trust surfaces at epic times in history as a manifest human right But until now it has lacked the precision necessary for citizens government employees legislators and judges to fully safeguard the natural resources we rely on for survival and prosperity The Nature's Trust approach empowers citizens worldwide to protect their inalienable ecological rights for generations to come Selected Environmental Law Statutes United
