Shadows By Saul J:

Shadows John Saul, 2010-11-03 They call it the Academy A secluded cliff top mansion overlooking the rugged Pacific coast A school for children gifted or cursed with extraordinary minds Children soon to come under the influence of an intelligence even more brilliant than their own and unspeakably evil For within this mind a dark plan is taking form A plan so horrifying no one will believe it No one but the children And for them it is already too late Too late unless one young student can resist the seductive invitation that will lead into the Shadows

Shadows John Saul, 1993 As one by one the children housed at The Academy a clifftop mansion school for gifted children begin to die mysterious deaths Josh McCallum a brilliant but lonely boy knows that someone or something evil is to blame Reprint *Shadow of Liberation* Vishnu Padayachee, Robert Van Niekerk, 2019-10-01 *Shadow of Liberation* explores the intricate twists turns contestations and compromises of ANC economic and social policymaking with a focus on the transition era of the 1990 s and the early years of democracy With the damning revelations by the Zondo Commission of Inquiry into State Capture on the massive corruption of the South African body politic the timing of this book could not be more relevant South Africans need to confront the economic and social policy choices that the liberation movement made and to see how these decisions may have facilitated the conditions for corruption to emerge and flourish Answers are needed Padayachee and van Niekerk focus their attention on the primary question of how and why the ANC given its historical anti inequality re distributive stance come in the 1990s to such a dramatic turn around and move towards an essentially market dominated approach Were they pushed or did they go willingly What role if any did Western governments and international financial institutions play And what of the role of the late apartheid state and South African business Did leaders and comrades sell out the ANC s emancipatory policy vision *Shadow of Liberation* tries to provide answers to these questions drawing on the best available primary archival evidence as well as extensive interviews with key protagonists across the political non government and business spectrum The authors argue that the ANC s emancipatory policy agenda was broadly to establish a social democratic welfare state upholding rights of social citizenship However its economic policy framework to realise this emancipatory mission was either non existent or egregiously misguided

Manegold, 2009-12-09 *In Glory s Shadow* explores the history of The Citadel an institution set on preserving tradition in the face of profound change Established as protection against slave insurrections feared by the white minority of Charleston South Carolina a generation later The Citadel was a school of privilege for young white men Through two world wars it grew in size and reputation proudly providing the United States with male military leaders paying little heed to what was happening in the country around it In 1993 when the school rescinded Shannon Faulkner s admission because of her gender a landmark legal battle ensued Faulkner won and although she faced vicious harassment and left after a week The Citadel was forced to reform nearly 30 women have graduated since her brief time at The Citadel *In Glory s Shadow* is an engrossing and illuminating look at this pivotal event in military history

and the history of women *In The Shadow of Mandela* Alexander Johnston,2019-12-12 This outstanding and original work goes to the heart of South Africa s political problems doubts as to the sustainability of the post apartheid settlement beset with divisions in the ruling ANC factionalism corruption and the widening of fault lines in state and society The leadership issue has become key and this will be the first specific examination of leadership in the light of Mandela s legacy and its effect on his successor as potential and actual leaders all in the shadow of Mandela as the architect of the transition from apartheid to democracy and with overarching moral authority and international reputation Alexander Johnston shows how his successors are judged against Mandela s achievements including the potentially impressive lost leaders and concentrating on his immediate successors Thabo Mbeki and Jacob Zuma The book concludes with an in depth assessment of new president Cyril Ramaphosa s potential to be a leader for a new dawn This is an objective and critical work by a close observer who acknowledges the achievement of South African leadership but is acutely aware of the doubts as to the sustainability of South Africa s hard won democratic settlement An essential read for all readers interested in leadership and in the traumatic history and future of Africa s leading state as the continent rises to global importance *Investigating Light and Shadow with Young Children (Ages 3-8)* Beth Dykstra Van Meeteren,2022-06-17 Children are intrigued by switches that power a light source and by items that reflect light and sparkle and they take notice of personal shadows cast on the playground An understanding of light and shadow is crucial to many STEM fields including astronomy biology engineering architecture and more This book shows teachers how to engage children ages 3 8 with light and shadow in a playful way building an early foundation for the later more complex study of this phenomena and ultimately for children s interest in professions within the STEM fields The text offers guidance for arranging the physical environment of classrooms integrating literacy learning and investigations and building partnerships with administrators Each volume in the STEM for Our Youngest Learners Series includes examples of educators and children engaging in inquiry learning guidance for selecting materials and arranging the learning environment modifications and accommodations for diverse learners support for establishing adult learning communities and more **Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory** Musingafi, Maxwell Constantine Chando,Mafumbate, Racheal,Khumalo, Thandi Fredah,2021-04-23 Much of our understanding of the world our societies and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes This male dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building Feminism argues that the male dominated knowledge represents a skewed perception of reality and is only partial knowledge Feminism is a generalized wide ranging system of ideas about social life and human experience developed from a woman centered perspective It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world The best way to empower women

and better the situation for women is to take women's daily experiences and their informal theorizing into account and on this basis adopt feminist approaches to building theory and knowledge Philosophising Experiences and Vision of the Female Body Mind and Soul Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences This book provides a starting point for further and more advanced study of the nexus of feminism gender and development and translates feminist theory and concepts into practice The chapters investigate in a historical context mainstream and contemporary theories of feminism and gender studies This book is ideal for post graduate students of social science researchers of development management business management public governance and gender and development activists feminists and practitioners stakeholders researchers academicians and students interested in feminist theory and knowledge building

the sacred divine or infinite which characterizes much contemporary thought It shows how these concerns have surfaced in the work of Derrida Baudrillard Lyotard Kristeva Irigaray and others Examining the connection between this postmodern turn and the current search for a new discourse of ethics and politics it also stresses the contribution made by feminist thought to this unexpected intellectual direction

Trouble With Gender Alex Byrne, 2023-10-04 Sex used to rule Now gender identity is on the throne Sex survives as a cheap imitation of its former self assigned at birth on a spectrum socially constructed and definitely not binary Apparently quite a few of us fall outside the categories male and female But gender identity is said to be universal we all have one Humanity used to be cleaved into two sexes whereas now the crucial division depends on whether our gender identity aligns with our body If it does we are cisgender if it does not we are transgender The dethroning of sex has meant the threat of execution for formerly noble words such as woman and man In this provocative bold and humane book the philosopher Alex Byrne pushes back against the new gender revolution Drawing on evidence from biology psychology anthropology and sexology Byrne exposes the flaws in the revolutionary manifesto The book applies the tools of philosophy accessibly and with flair to gender sex transsexuality patriarchy our many identities and our true or authentic selves The topics of Trouble with Gender are relevant to us all This is a book for anyone who has wondered Is sex binary Why are men and women different What is a woman or simply Where can I go to know more about these controversies Revolutions devour their own children and the gender revolution is no exception Trouble with Gender joins the forefront of the counter revolution restoring sex to its rightful place

at the centre of what it means to be human *Ownership and Governance of Companies* Jonathan Michie, Vishnu Padayachee, 2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC's mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics **In the Shadow of Empire** Pamela Barmash, Mark W. Hamilton Hamilton, 2021-11-05 Empires Come and Go Homelands Never Readers of the Hebrew Bible know the basic story line during the early sixth century BCE the Babylonian ruler Nebuchadnezzar sacked Jerusalem deported a portion of the population to Mesopotamia and triggered a crisis of faith in the minds of prophets priests and liturgists that still echoes through the centuries Though many Judahites chose to make their way home under Persian imperial control the straightforward biblical story of exile and return masks many complex issues of evidence and fact Unlike previous studies that focused narrowly on the Babylonian exile of the Judahite elites this volume widens the geographical and temporal scope to include the Assyrian Babylonian and Persian Empires Improved access to and understanding of relevant texts iconography and material culture provide an opportunity for scholars to reappraise methods of imperial control and the responses of those in exile and under occupation Contributors Pamela Barmash Ryan P Bonfiglio Caralie Cooke Lisbeth S Fried Martien A Halvorson Taylor Mark W Hamilton Matt Waters and Ian D Wilson lay a firm foundation for future work on the long sixth century The Biological Mind Justin Garson, 2022-03-17 For some biology explains all there is to know about the mind Yet many big questions remain Is the mind shaped by genes or the environment If mental traits are the result of adaptations built up over thousands of years as evolutionary psychologists claim how can such claims be tested If the mind is a machine as biologists argue how does it allow for something as complex as human thought Revised and updated to take account of new developments in the field The Biological Mind A Philosophical Introduction explores these questions and more using the philosophy of biology to introduce and assess the nature of the mind Justin Garson addresses the following key topics moral psychology altruism and levels of

selection evolutionary psychology and the adaptationism debate genes environment and the nature nurture debate natural selection and mental representation psychiatric classification and the maladapted mind This second edition includes three new chapters on race sex and human nature as well as new sections on group and kin selection psychological altruism and cultural evolution Including chapter summaries annotated further readings a glossary of terms and examples and case studies throughout this is an indispensable introduction for those teaching philosophy of mind philosophy of psychology and philosophy of biology It will also be an excellent resource for those in related fields such as biology

The Long Shadow Karl Alexander, Doris Entwisle, Linda Olson, 2014-05-31 A volume in the American Sociological Association's Rose Series in Sociology West Baltimore stands out in the popular imagination as the quintessential inner city gritty run down and marred by drugs and gang violence Indeed with the collapse of manufacturing jobs in the 1970s the area experienced a rapid onset of poverty and high unemployment with few public resources available to alleviate economic distress But in stark contrast to the image of a perpetual urban underclass depicted in television by shows like *The Wire* sociologists Karl Alexander Doris Entwisle and Linda Olson present a more nuanced portrait of Baltimore's inner city residents that employs important new research on the significance of early life opportunities available to low income populations *The Long Shadow* focuses on children who grew up in west Baltimore neighborhoods and others like them throughout the city tracing how their early lives in the inner city have affected their long term well being Although research for this book was conducted in Baltimore that city's struggles with deindustrialization white flight and concentrated poverty were characteristic of most East Coast and Midwest manufacturing cities The experience of Baltimore's children who came of age during this era is mirrored in the experiences of urban children across the nation For 25 years the authors of *The Long Shadow* tracked the life progress of a group of almost 800 predominantly low income Baltimore school children through the Beginning School Study Youth Panel BSSYP The study monitored the children's transitions to young adulthood with special attention to how opportunities available to them as early as first grade shaped their socioeconomic status as adults The authors' fine grained analysis confirms that the children who lived in more cohesive neighborhoods had stronger families and attended better schools tended to maintain a higher economic status later in life As young adults they held

higher income jobs and had achieved more personal milestones such as marriage than their lower status counterparts. Differences in race and gender further stratified life opportunities for the Baltimore children. As one of the first studies to closely examine the outcomes of inner city whites in addition to African Americans, data from the BSSYP shows that by adulthood, white men of lower status family background, despite attaining less education on average, were more likely to be employed than any other group, in part due to family connections and long-standing racial biases in Baltimore's industrial economy. Gender imbalances were also evident; the women who were more likely to be working in low wage service and clerical jobs earned less than men. African American women were doubly disadvantaged insofar as they were less likely to be in a stable relationship than white women and therefore less likely to benefit from a second income. Combining original interviews with Baltimore families, teachers, and other community members with the empirical data gathered from the authors' groundbreaking research, *The Long Shadow* unravels the complex connections between socioeconomic origins and socioeconomic destinations to reveal a startling and much-needed examination of who succeeds and why.

Re-Viewing Resistance in Namibian History Jeremy Silvester, 2015-07-13

Re-Viewing Resistance in Namibian History brings together the work of experienced academics and a new wave of young Namibian historians, architects of the past. They are working on a range of public history and heritage projects from late nineteenth century resistance to the use of songs from the role of gender in SWAPO's camps to memorialisation and from international solidarity to aspects of the history of Kavango and Caprivi. In a culturally and politically diverse democracy such as Namibia, there are bound to be different perspectives on the past, and history will be as plural as the history tellers. The chapters in this book reflect this diversity and combine to create a remarkable collection of divergent voices providing alternative perspectives on the past. The book writes forgotten people into history, provides a reading of the past that reflects the tensions and competing identities that pervaded the struggle and deals with heritage that hurts.
