Long March On Rome The Forgotten War:

The Long March on Rome Charles Whiting, 2023-07-31 A lively and highly readable study of the often overlooked Italian Campaign from the invasion of Sicily to the march on Rome An ideal book for fans of Jonathan Dimbleby Max Hastings and Antony Beevor While the Allied armies were beginning their invasion of the beaches of north west Europe during D Day their fellow soldiers were also engaged in a gruelling campaign throughout the length of Italy They had expected to carve through the soft underbelly of Europe but what they found instead was a tough old gut filled with battle hardened troops It was the costliest campaign on the Western front in terms of casualties suffered by infantry forces of both sides with both the Allies and Germans losing over three hundred thousand men Drawing on the recollections of British American Polish French and German men and women who took part as well as on the official histories Charles Whiting paints a vivid picture of the liberation of Italy as seen through the eyes of the ordinary soldier Whiting sheds light on some of the most ferocious fighting that took place during this conflict including the bloody Battle of Anzio where Allied troops attempted to outflank German forces but were held down by dogged fighting The Long March on Rome should be essential reading for anyone wanting to learn more about this overlooked but hugely important front which after over a year of brutal conflict helped defeat the Axis

The Story of Rome Mary MacGregor, 2018-03-04 A vivid account of the story of Rome from the earliest times to the death of Augustus retold for children chronicling the birth of a city and its growth through storm and struggle to become a great world empire Gives short accounts of battles and campaigns and of the men who expanded the borders of the Roman empire to include all lands bordering the Mediterranean Sea **Civil Engineering**, 2003 **The Gothic Line** Mark Zuehlke, 2009-07-01 Like an armor toothed belt across Italy's upper thigh the Gothic Line was the most fortified and fiercely defended position the German army had yet thrown in the path of the Allied forces On August 25 1944 it fell to I Canadian Corps to spearhead the famed Eighth Army's major offensive intended to rip through it The 1st Infantry and 5th Armored Divisions advanced into a killing ground covered by thousands of machine gun antitank gun positions and pillboxes expertly sited behind minefields and dense thickets of barbed wire Never had the Germans in Italy brought so much artillery to bear or deployed such a great number of tanks For 28 days the battle raged as the Allied troops slugged an ever deeper hole into the German defences The Metauro River the Foglia River Point 204 Tomba Di Pesaro Coriano Ridge San Martino and San Fortunato became place names seared into the memories of those who fought there They fought in a dust choked

land under a searing sun which by battle's end was reduced to a quagmire by rain But they prevailed and on September 22 won the ground overlooking the Po River Valley opening the way for the next phase of the Allied advance

Light Infantry of the Greek and Roman World

Jean Charl du Plessis, 2024-10-30 Ancient accounts of battle often neglected the role of lightly armed infantry presenting the deeds of the heavy infantry such as Greek hoplites or Roman legionaries or dashing cavalry charges as the decisive battle winners This bias was partly due to the light infantry typically being drawn from the poorer sections of society who could not afford to equip themselves with armor and because they generally fought from a distance killing from afar with missile weapons not bravely face to face like heroes worthy of recording Modern research has generally followed this bias Dr Jean Charl Du Plessis argues that while light infantry might have had a subordinate role in pitched battles such clashes were relatively rare occurrences Most ancient campaigns consisted mostly of foraging raiding and pillaging of enemy territory minor skirmishes and ambushes all roles in which light infantry excelled In particular they were indispensable for an army traversing mountainous or forested terrain Moreover he shows that even in pitched battles they were far from useless and made a valuable contribution typically harassing the enemy as they deployed and screening friendly battle lines from similar treatment Some such as Cretan archers or Balearic slingers were highly sought after specialists Uniquely the author draws on years of practical experimentation to demonstrate and test the various weapons used slings bows and javelins including the use of the amentum throwing strap This yields fresh evidence and insights into matters such as range penetrative power and the level of skill and practice required Overall this is a valuable study of these forgotten heroes of ancient warfare
