Lifelines Elaine Chin, 2015-09-15. Unlock the secrets of your telomeres for a longer, healthier life. They're like the plastic tips of your shoelaces that keep them from fraying. But they're at the ends of your DNA and they keep you from developing disease and dying too young. The discovery of telomeres is one of the great breakthroughs in contemporary medicine. Nobel winning scientist Dr Elizabeth Blackburn and her research teams have opened a world of promise when it comes to living longer and healthier. Today we have the know-how to slow the disintegration process to beat our biological clock and prevent disease. Keeping your telomeres robust and as long as possible is crucial to your health. Noted physician Dr Elaine Chin offers practical and realistic ways to optimize the length of your telomeres and maximize your health. Containing comprehensive information on diet and lifestyle, the potential of supplements, hormone replacement therapy, sleep patterns, mindfulness, stress management, and life purpose, **Lifelines** will show you how to use our knowledge of telomere science to give you an advantage in what really counts most in life: how long and how well you will live.

Prospective Longevity Warren C. Sanderson, Sergei Scherbov, 2019-11-19. Warren Sanderson and Sergei Scherbov argue for a new way to measure individual and population aging. Instead of counting how many years we've lived, we should think about our prospective age: the number of years we expect to have left. Their pioneering model can generate better demographic estimates which inform better policy choices.

Work Across the Lifespan Boris Baltes, Cort W. Rudolph, Hannes Zacher, 2019-01-08. **Work Across the Lifespan** coalesces theoretical and empirical perspectives on aging and work. This volume examines a collection of human development theories that explain trajectories of change, including patterns of growth, maintenance, and decline across the adult lifespan. At its core, the lifespan perspective assumes a focus on aging as a continuous process of intraindividual change and goal-based self-regulation. In this text, the lifespan perspective serves as a lens for examining the complex relationship between aging

and work Integrating research from the fields of developmental psychology as well as industrial work and organizational psychology this authoritative reference brings together the collective thinking of researchers who study work careers organizations and aging
