Commission on Pornography United States. Attorney General's Commission on Pornography,1986 *The Life Model of Social Work Practice* Alex Gitterman,Carel B. Germain,2008-05-27 Originally published in 1980 this seminal work was the first to introduce an ecological perspective into social work practice The third edition expands and deepens this perspective further developing the basic premise that by being situated within the people environment interface the social work profession is distinct from other service professions The book presents the what theories and concepts and the how practice methods to help people with their life stressors and simultaneously to influence communities organizations and policymakers to be more responsive to them In this edition Gitterman and Germain examine major changes to our socioeconomic and political landscape They restore a chapter on the history of social work practice offering a view of the limited services for African Americans provided by settlements and charity organization societies Building on the African American self help and mutual aid traditions this chapter traces the replication of a parallel social service system by African American leaders for their own communities The chapter also addresses the impact of contemporary societal trends including the global economy immigration cultural changes and the technology revolution In addition it discusses current professional contexts of managed mental health care evidence based practice and the professional uses of technology A new chapter explores issues and processes embedded in assessment practice monitoring and practice evaluation The volume continues to feature innovative schema for assessment and intervention with respect to stressful life transitions and traumatic events environmental pressures and dysfunctional interpersonal processes Practice illustrations offer reflections of today s major social issues such as AIDS homelessness and modern forms of violence **Tokkatsu: The Japanese Educational Model Of Holistic**

Education Ryoko Tsuneyoshi,Hiroshi Sugita,Kanako Kusanagi,Fumiko Takahashi,2019-09-16 Though there has been much discussion on the academic aspects of Japanese education abroad e g high scores on international tests lesson study there has been little information on the non academic aspects of Japanese schooling This non academic aspect is called Tokkatsu tokubetsu katsudo Unlike math and reading Tokkatsu is not confined to a certain period but extends throughout the school day and even after school activities such as school excursions It includes classroom activities such as classroom discussions morning and afternoon meetings that take place daily cleaning and serving lunch school events such as sports day school excursions student councils and club activities Such activities occur every single day throughout one s school years from elementary school actually even kindergarten to high school They are however bound together by the common goals of the Tokkatsu framework This book is the foremost attempt to address a gap in English literature on Tokkatsu **The Global Model of Constitutional Rights** Kai Möller,2012-10-25 Since the end of the Second World War and the subsequent success

of constitutional judicial review one particular model of constitutional rights has had remarkable success first in Europe and now globally This global model of constitutional rights is characterized by an extremely broad approach to the scope of rights sometimes referred to as rights inflation the acceptance of horizontal effect of rights positive obligations and increasingly also socio economic rights and the use of the doctrines of balancing and proportionality to determine the permissible limitations of rights Drawing on analyses of a broad range of cases from the UK the European Court of Human Rights Germany Canada the US and South Africa this book provides the first substantive moral reconstructive theory of the global model It shows that it is based on a coherent conception of constitutional rights which connects to attractive accounts of judicial review democracy and the separation of powers The first part of the book develops a theory of the scope of rights under the global model It defends the idea of a general right to personal autonomy a right to everything which according to the agent s self conception is in his or her interest The function of this right is to acknowledge that every act by a public authority which places a burden on a person s autonomy requires justification The second part of the book proposes a theory of the structure of this justification which offers original and useful accounts of the important doctrines of balancing and proportionality **Occupational Outlook Quarterly** ,1968 The Future of Correctional Rehabilitation Ronen

Ziv,2017-08-23 In the aftermath of Martinson s 1974 nothing works doctrine scholars have made a concerted effort to develop an evidence based corrections theory and practice to show what works to change offenders Perhaps the most important contribution to this effort was made by a group of Canadian psychologists most notably Donald Andrews James Bonta and Paul Gendreau who developed a treatment paradigm called the Risk Need Responsivity RNR model which became the dominant theory of correctional treatment This approach was more recently challenged by a perspective developed by Tony Ward Shadd Maruna and others called the Good Lives Model GLM Based in part on desistance research and positive psychology this model proposes to rehabilitate offenders by building on the strengths offenders possess GLM proponents see the RNR model as a deficit model that fixes dynamic risk factors rather than identifying what offenders value most and using these positive factors to pull them out of crime Through a detailed examination of both models theoretical and correctional frameworks The Future of Correctional Rehabilitation Moving Beyond the RNR Model and Good Lives Model Debate probes the extent to which the models offer incompatible or compatible approaches to offender treatment and suggests how to integrate the RNR and GLM approaches to build a new and hopefully more effective vision for offender treatment A foreword by renowned criminologist Francis T Cullen helps put the material into context This book will be of much interest to scholars and students studying correctional rehabilitation as well as practitioners working with offenders *Focus On: 100 Most Popular South Korean Male Film Actors* Wikipedia contributors, *The Radical Redemption Model* Beatrice de Graaf,2025-01-07 This is the first volume in the Extreme Belief and Behavior Series The purpose of the series is to defend develop and articulate a paradigm for studying extreme belief and behavior that has been insufficiently explored in the

literature The paradigm is built on five hypotheses that together distinguish this series from other work on extreme belief and behavior
