

A Comprehensive Model for God's Identity & Existence

Frequently, there appears to be a clash between scientific and religious perspectives. Nevertheless, award-winning scientist J. G. Lenhart has introduced "Modeletics," a framework consisting of four principles that establish a coherent and non-contradictory models for God and Salvation.

In the second edition, theologian Joel Swokowski provides additional insights and commentary, further enriching the understanding of these models.

Explore "Modeling God - The Meaning of Life" and gain a deeper comprehension of God, His identity, and His significance in our lives.

About J.G. Lenhart

J.G. Lenhart has degrees in Chemistry and Chemical Engineering. First and foremost, he is a modeler. His ability to understand the Bible in a non-contradictory manner led to determining a model for the human brain and nose connection. Eventually, he used the Bible to determine the only non-contradictory model for the mind and brain. Modeling God is the first of three books that present a non-contradictory Christian worldview.

About Joel Swokowski

Joel Swokowski is a U.S. Marine Corps Veteran with a Master's Degree in Theological Studies from Liberty University. He is currently pursuing a Doctorate in Theology and Apologetics. Joel has been pastoring a local church since 2013. His passion for the doctrine underlying God's Word is evident in how he teaches, including having developed an online Bible Commentary to help people understand what the Bible means in a way that it can be applied to the world today. He first read Modeling God when it was still in manuscript form and has taught this book more than anyone. Joel is also the proud father of his son, Jack.
