Models of Power David F. Bell, 1988 Models of Power David F. Bell, 1988-01-01 **Models of Power** David Fowler Bell, 1981 **Circumstances** David F. Bell, 1993-01-01 **The Facts on File Companion to the French Novel** Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

Families in Jeopardy Roddey Reid, 1993 This interdisciplinary study shows how a new commercial and learned print culture attempted to write and regulate individual and collective practices in terms of a master idiom of family sexuality and gender upon which a post revolutionary national community would turn Offering a radical new approach to family and textuality in the field of cultural and literary studies the author argues that from its very inception this print culture from domestic manuals to public health reports and most notably prose fiction promoted new norms of behavior and selfhood not through narratives of idealized family life but instead by means of a rhetoric of danger lack and pathology The book follows familial discourse as it assigns deficient or illicit behaviors to ever wider social groups from the Old Regime nobility and the traditional bourgeoisie to the new middle classes urban workers and the peasants in the countryside to finally the new social elites of the late nineteenth century The author describes how the lack of normative family and sexuality became the primary tactic for designating social others within the social body and for reworking social and gender identities so as to authorize new knowing practices and expertise and new objects of knowledge and discipline Furthermore through analyses of novels by Bernardin de Saint Pierre Sue Balzac Sand Zola and Gide the author demonstrates that the peculiar force of the French novel resided in its power to reach wide newly literate audiences and to inscribe new identities and desires through the reading process Finally the book proposes the provocative thesis that because of these tales of threatened or failed family life the domestic conjugal household has never worked even down to our time it has always been in crisis endangered by forces from without and within and thus in constant need of protection and renewal **Between Literature and Science** Peter Swirski, 2000 In *Between Literature and Science* Peter Swirski examines the true intellectual scope of Edgar Allan Poe and Stanislaw Lem Using a genuinely interdisciplinary approach he shows that they propose far reaching hypotheses in aesthetics epistemology cognitive science philosophy of science literary studies and pragmatics as well as in cosmology artificial intelligence and futurology Swirski argues that previous studies of their science fiction works in neglecting these broader philosophical and scientific ambitions have misrepresented Poe and Lem s artistic achievements *The Fortune of the Rougons* Émile Zola, 2012-08-09 He thought he could see in a flash the future of the Rougon Macquart family a pack of wild satiated appetites in the midst of a blaze of gold and blood Set in the fictitious Provençal town of Plassans *The Fortune of the Rougons* tells the story of Silvère and Miette two idealistic young supporters of the republican resistance to Louis

Napoleon Bonaparte's coup d'état in December 1851. They join the woodcutters and peasants of the Var to seize control of Plassans opposed by the Bonapartist loyalists led by Silvère's uncle Pierre Rougon. Meanwhile the foundations of the Rougon family and its illegitimate Macquart branch are being laid in the brutal beginnings of the Imperial regime. The Fortune of the Rougons is the first in Zola's famous Rougon Macquart series of novels. In it we learn how the two branches of the family came about and the origins of the hereditary weaknesses passed down the generations. Murder, treachery and greed are the keynotes and just as the Empire was established through violence the fortune of the Rougons is paid for in blood. But literature demonstrates that their diverse peripheries define them too: from suburbs to slums, rubbish dumps to nightclubs and entire failed cities. The contributors to this collection explore literary urban peripheries through readings of literature from four continents and numerous cities.
