Moderates And Conservatives In Western Europe

Arthur Haberman

Moderates And Conservatives In Western Europe:

Moderates and Conservatives in Western Europe Policy Studies Institute,1983 The political parties of western Europe s Centre Right have been surprisingly neglected in contrast to the parties of the Left This book sheds light on these parties which include the Gaullists and Giscardians of France the Christian Democrats in Germany and Italy the Conservatives in Britain and the Democratic Centre Union in Spain the Liberal parties in these countries are also covered The Media and the Far Right in Western Europe Antonis A. Ellinas,2010-01-29 Explains one of the most important phenomena in Western Europe the rise of far right parties **Moderates and conservatives in Western Europe** Robert Morgan,Stefano Silvestri,1982 The Radical Right in Western Europe Herbert Kitschelt,Anthony J. McGann,1997 An in depth analysis of radical right parties in seven countries New Conservatives in Russia and East Central Europe Katharina Bluhm,Mihai Varga,2018-08-14 This book explores the emergence and in Poland Hungary and Russia the coming to power of politicians and political parties rejecting the consensus around market reforms democratization and rule of law that has characterized moves toward an open society from the 1990s It discusses how over the last decade these political actors together with various think tanks intellectual circles and religious actors have increasingly presented themselves as conservatives and outlines how these actors are developing a new local brand of conservatism as a full fledged ideology that counters the perceived liberal overemphasis on individual rights and freedom and differs from the ideology of the established present day conservative parties of Western Europe Overall the book argues that the renaissance of conservatism in these countries represents variations on a new illiberal conservatism that aims to re establish a strong state sovereignty defining and pursuing a national path of development Reading and Writing for Civic Literacy Donald Lazere,2015-12-03 This brief edition of a groundbreaking textbook addresses the need for college students to develop critical reading writing and thinking skills for self defense in the contentious arena of American civic rhetoric Designed for first year or more advanced composition and critical thinking courses it is one third shorter than the original edition more affordable for students and easier for teachers to cover in a semester or quarter It incorporates up to date new readings and analysis of controversies like the growing inequality of wealth in America and the debates in the 2008 presidential campaign expressed in opposing viewpoints from the political left and right Exercises help students understand the ideological positions and rhetorical patterns that underlie such opposing views Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis Religion in an Expanding Europe Timothy A. Byrnes,Peter J. Katzenstein,2006-03-23 With political controversies raging over issues such as the wearing of headscarves in schools and the mention of Christianity in the European Constitution religious issues are of growing importance in European politics In this volume Byrnes and Katzenstein analyze the effect that enlargement to countries with different and stronger religious traditions may have on the EU as a

whole and in particular on its homogeneity and assumed secular nature Looking through the lens of the transnational religious communities of Catholicism Orthodoxy and Islam they argue that religious factors are stumbling blocks rather than stepping stones toward the further integration of Europe All three religious traditions are advancing notions of European identity and European union that differ substantially from how the European integration process is generally understood by political leaders and scholars This volume makes an important addition to the fields of European politics political sociology and the sociology of religion

1930 Arthur Haberman, 2018-09-25 The year 1930 can be seen as the dawn of a period of darkness the beginning of a decade that Auden would style low dishonest That year was one of the most reflective moments in modernity After the optimism of the nineteenth century the West had stumbled into war in 1914 It managed to survive a conflagration but it failed in the aftermath to create something valued In 1930 Europe was questioning itself and its own viability Where are we heading a number of public intellectuals asked Who are we and how do we build moral social and political structures Can we continue to believe in the insights and healing quality of our culture Major thinkers Mann Woolf Ortega Freud Brecht Nardal and Huxley as well as a number of artists including Picasso and Magritte and musicians such as Weill sought to grapple with issues that remain central to our lives today the viability of a secular Europe with Enlightenment values coming to terms with a darker view of human nature mass culture and its dangers the rise of the politics of irrationality identity and the other in Western civilization new ways to represent the postwar world the epistemological dilemma in a world of uncertainty and the new Fascism was it a new norm or an aberration Arthur Haberman sees 1930 as a watershed year in the intellectual life of Europe and with this book the first to see the contributions of the public intellectuals of 1930 as a single entity he forces a reconsideration and reinterpretation of the period
