Modern France Problems Of The Third And Fourth Republics

Hans A. Binnendijk

Modern France Problems Of The Third And Fourth Republics:

Modern France Edward Mead Earle,1951 **Three Against the Third Republic** Michael Curtis,2017-07-28 The Third Republic of France was characterized by weak and short term governments This book is a study of three writers Georges Sorel Maurice Barres and Charles Maurras their writings in the years between 1885 and 1914 and their reactions to the deficiencies they saw in the Third Republic and in the system of French democracy The study begins in 1885 with the appearance of certain new political factors It ends in 1914 because the three writers had by this time completed their original contributions to the thought of the country even if not their total impact on France A relative position of each of these figures in the French political spectrum is deduced from a combination of attitudes toward a number of issues These include the extent of economic and social reform centralization of the power of the state the nature of the parliamentary system the desirability of political parties the relation of Church and State the responsibility of authority the use of force or coercion and national power versus international collaboration Their views span the political spectrum Sorel Barres and Maurras are important not only because they provided the chief ideological weapons for the attack on the regime but also in a wider context because they contribute significantly to understanding of a later period of European political history In their contemporary significance all three illustrated the various attitudes of the conservative the reactionary and the moralist The names and parties may have changed but the same ideas continue to impact French politics and western ideology today This is a key book for an epoch whose importance lingers in current discourse Modern France Edward Mead Earle,1964

Affluence and the French Worker in the Fourth Republic Richard F. Hamilton,2017-03-14 The basic concern of the author is to find the reason for the persistent leftist character of French working class politics in a period of rapid industrialization and improving living standards Reanalyzing material from surveys made by two French organizations he finds that increased affluence is correlated with changes in social structure that increase radicalism As rural and small town workers come into big cities and large plants they are influenced by political activists who provide them with a Communist frame of reference for interpreting the meaning of new affluence Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Republic in Danger Martin S. Alexander,2003-11-13 The first full length study in English of the man who lost the Battle of France **Encyclopedia of Modern French Thought** Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not

only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more

Writing History in the Third Republic Isabel Noronha-DiVanna, 2010-02-19 Writing History in the Third Republic offers new insight to the historiographical output of French historians between 1860 and 1914 a period often referred to as of positivistic historians or the *cole m thodique* Asserting their independence from Germanic influence by emphasising the French element in their work historians in the period described their approach as methodical and positivistic and maintained that this was a distinctively French way of studying history A heightened concern with sources with facts as basis for all true knowledge and with truth itself were unifying elements of the historiography of those historians now called *cole m thodique* The *cole* represented the most sophisticated theoretical considerations about history and a method for historical studies in French academia in the late nineteenth century The purpose of this book is to reassess whether or not this school is legitimately to be seen as having emerged in the Third Republic in response to political developments of nineteenth century France or if the so called *m thodiques* share more in terms of philosophy of history and methodology than previously emphasized by scholars This book contributes to the debate surrounding the role of history and its method offering a counter argument to postmodernist scholars while reassessing the contribution of twentieth century theorists of history to the history of historiography

National Negotiating Styles Hans Binnendijk, 1987 National Negotiating Styles Hans A. Binnendijk, 1995-02 Provides a profile of each national negotiating style for China the Soviet Union Japan France Egypt and Mexico Reviews each nation s historical and institutional setting the characteristics of its political culture the style of the negotiators themselves and national strategies and tactics Suggests bargaining guidelines for U S negotiators

Clermont de Lodève 1633-1789 J. K. J. Thomson, 2003-09-25 Describes the economic and social manifestations of the two cycles of prosperity and decline in Clermont de Lodève
