Understanding the Military Design Movement Ben Zweibelson,2023-06-09

This book explains the history and development of the military design movement featuring case studies from key modern militaries. Written by a practitioner, the work shows how modern militaries think and arrange actions in time and space for security affairs and why designers are disrupting, challenging, and reconceptualizing everything previously upheld as sacred on the battlefield. It is the first book to thoroughly explain what military design is, where it came from, and how it works at deep philosophically grounded levels and why it is potentially the most controversial development in generations of war fighters. The work explains the tangled origins of commercial design and that of designing modern warfare, the rise of various design movements, and how today's military forces largely hold to a Newtonian stylization built upon mimicry of natural science infused with earlier medieval and religious inspirations. Why does our species conceptualize war as such, and how do military institutions erect barriers that become so powerful that efforts to design further innovation require entirely novel constructs outside the orthodoxy? The book explains design stories from the Israel Defense Force, the US Army, the US Marine Corps, the Canadian Armed Forces, and the Australian Defence Force for the first time and includes the theory, doctrine, organizational culture, and key actors involved. Ultimately, this book is about how small communities of practice are challenging the foundations of modern defence thinking. This book will be of much interest to students of military and strategic studies, defence studies, and security studies, as well as design educators and military professionals.

A Military History of the Modern Middle East James Brian McNabb,2017-03-09 This timely study synthesizes past history with the major military events and dynamics of the 20th and 21st century Middle East, helping readers understand the region's present and look into its future. The Middle East has been and will continue to be a major influence on policy around the globe. This work reviews the impact of past epochs on the modern Middle East and analyzes key military events that contributed to forming the region and its people. By helping readers recognize historical patterns of conflict, the book will stimulate a greater understanding of the Middle East as it exists today. The work probes cause and effect in major conflicts that include the fall of the Ottoman Empire, the World Wars, the Arab-Israeli wars, and the US wars with Iraq, examining the manner in which military operations have been conducted by both internal and external actors. New regional groups, for example, the Gulf Cooperation Council (GCC), are addressed, and pertinent events in Afghanistan and Pakistan are scrutinized. Since military affairs are traditionally an extension of politics and economics, the three are considered together in historical context as they relate to war and peace. The book closes with a chapter on the Arab Awakening and its impact on the future balance of power.

Joan Beaumont, Garth Pratten, 2025-06-12 Professor Emeritus David Horner AM FASSA is one of Australia's greatest military historians and its fifth official historian of war and military operations. Few who undertake research in the field can do so without consulting his prodigious authoritative and definitive publications.

Serving for 25 years in the Australian Army before joining The Australian National University Horner is the epitome of the soldier scholar and has played a key role in establishing military history as an academic discipline in Australia This volume honours Horner s long career of service to history and the nation Authors pay tribute to Horner s legacy by engaging with his scholarship applying his conclusions to new case studies and contexts reflecting and expanding on the subjects he addressed and the methodologies he employed and pushing the boundaries of the discipline he was instrumental in founding The breadth of Horner s research is demonstrated by the subjects and themes they address including strategic planning and policy command multinational operations intelligence and defence policy Military History Supremo both underscores Horner s contribution to Australia s military and intelligence history and highlights the vibrancy and relevance of the field today

On Ops: Lessons and Challenges for the Australian Army since East Timor Tom Frame,Albert Palazzo,2016-07-01 No one in the Australian government or Army could have predicted that in the 25 years following the end of the Cold War Army personnel would be deployed to Rwanda Cambodia Somalia Bougainville East Timor Afghanistan Iraq and the Solomon Islands In a constructive critique of the modern Australian Army On Ops examines the massive transformation that has taken place since troops were deployed to East Timor 1999 After decades of inactivity and the long peace of the 1970s and 1980s the Army was stretched to the limit Contributors include John Howard and Peter Leahy as well as Craig Stockings David Horner and an impressive array of military historians academics intelligence experts and ex and current Army A Military History of Victoria, Australia 1803-1945 Bob Marmion,Andrew Dagg,2024-02-06 This is a case study of possibly the most complex defensive system in Australia between 1803 and 1945 Defending Victoria was such a wide ranging and demanding task that the colony and later the state of Victoria was known as the Gibraltar of the South This book fills a major gap in Australian military and naval history Using Victoria as a case study the book shows how defence developed from the idea of a basic sand fort emanating from a fear of French invasion during the early 19th century into a complex modern three dimensional defensive system incorporating air land and sea defences as well as radar and secret defence technology by the 1940s The book is not a simple narration of facts and events but a substantial addition to Australian military history on account of its extensive analysis of the political social economic and technological factors which impacted defence over many decades of the 19th century Mapping the Third Offset: Australia, the United States and Future War in the Indo-Pacific Brendan Thomas-Noone,2017-12-05 The United States is facing multiple challenges to sustaining its military technological edge in the Indo Pacific The proliferation of advanced missiles submarines satellites and other technology has raised the costs and risks for the United States in a regional conflict Access to advanced technology and innovation has spread raising the importance of the private sector in maintaining military superiority but also generating new centres of technological progress The United States current defence strategy and capabilities are increasingly economically unsustainable and its defence budget is stagnating due to political polarisation in Congress The Third Offset is a set of strategies that aims to

bolster US conventional military power by mobilising innovation new technologies and institutional reform The United States is placing bets on a series of new technologies from artificial intelligence to hypersonic weapons that will allow its military to project force in contested environments Some of these technologies will in theory allow for more economically sustainable military operations and capabilities Reforming US defence institutions to prioritise innovation and seeking ways to take advantage of new technologies in the private sector are attempts to embed and sustain US military advantage The direction of the Third Offset and its success or failure should inform Australia s strategic outlook Canberra should seek to expand engagement with the Third Offset particularly through the following institutional aspects A United States Australia Defence Technology Workshop should be established to generate new ideas around Indo Pacific technological trends investment and new military concepts Canberra should explore the possibility of hosting or jointly funding an international Defence Innovation Unit Experimental Office providing strategic coordination on technological developments resourcing and opportunities for Australian defence firms Australia needs to expand its engagement with the United States on the testing exercises and simulations that will form new Third Offset military concepts **Anzac's Long Shadow** James

Brown,2014-02-15 A century ago we got it wrong We sent thousands of young Australians on a military operation that was barely more than a disaster It s right that a hundred years later we should feel strongly about that But have we got our remembrance right What lessons haven t we learned about war and what might be the cost of our Anzac obsession Defence analyst and former army officer James Brown believes that Australia is expending too much time money and emotion on the Anzac legend and that today s soldiers are suffering for it Vividly evoking the war in Afghanistan Brown reveals the experience of the modern soldier He looks closely at the companies and clubs that trade on the Anzac story He shows that Australians spend a lot more time looking after dead warriors than those who are alive We focus on a cult of remembrance instead of understanding a new world of soldiering and strategy And we make it impossible to criticise the Australian Defence Force even when it makes the same mistakes over and over None of this is good for our soldiers or our ability to deal with a changing world With respect and passion Brown shines a new light on Anzac s long shadow and calls for change Bold original challenging James Brown tackles the burgeoning Anzac industry and asks Australians to re examine how we think about the military and modern day service Leigh Sales The best book yet written not just on Australia s Afghan war but on war itself and the creator destroyer myth of Anzac John Birmingham James Brown is a former Australian Army officer who commanded a cavalry troop in Southern Iraq served on the Australian taskforce headquarters in Baghdad and was attached to Special Forces in Afghanistan Today he is the Military Fellow at the Lowy Institute for International Policy where he works on strategic military issues and defence policy He also chairs the NSW Government s Contemporary Veterans Forum He lives in Sydney **Australian Contributions to Strategic and Military Geography** Stuart Pearson,Jane L. Holloway,Richard Thackway,2018-03-08 Drawing from military geography s spatial roots its embrace of dynamic systems and integration of

human and biophysical environments this book helps in understanding the value of analyzing patterns processes and systems and cross scale and multi disciplinary ways of acting in a complex world while making the case for a resurgence of strategic and military geography in Australia Here leading experts demonstrate that geography retains its relevance in clarifying the scale and dynamics of defense activities in assessments of the international regional national and site impacts of changes in physical cyber and human geographies The cases presented show Australia contributing to a growing strategic and military geography **The Empire at War: Australia, New Zealand, the Pacific Islands** Sir Charles Prestwood Lucas,1924

Matthew Kennedy,2023-07-25 From the late 1800s to the early 1900s Australian settler colonists mobilised their unique settler experiences to develop their own vision of what empire was and could be Reinterpreting their histories and attempting to divine their futures with a much heavier concentration on racialized visions of humanity white Australian settlers came to believe that their whiteness as well as their Britishness qualified them for an equal voice in the running of Britain s imperial project Through asserting their case many soon claimed that as newly minted citizens of a progressive and exemplary Australian Commonwealth white settlers such as themselves were actually better suited to the modern task of empire Such a settler political cosmology with empire at its center ultimately led Australians to claim an empire of their own in the Pacific Islands complete with its own unique imperial governmentality The History Highway 3.0 Dennis A. We Who Proudly Served Peter Francis Kenny,2015-05-27 Although Australia is only a young country in comparison to other nations it can hold its head up high and proudly proclaim that it is one of the giants in this world of toil and trouble in which we live When the odds are stacked against Australians they dont turn and run instead they stand and fight and overcome the obstacles that face them The contents of this volume are a tribute to all the men and women of this proud and great country who have come from all walks of life to give of their time and unfortunately some have even given their lives to defend this great land and keep it free There have been politicians doctors nurses police officers average everyday citizens musicians actors artists farmers graziers authors sportsmen and women journalists and a host of others who have taken up the cause for their country and the monarchy serving from the Crimean to the war in Vietnam and beyond Their heroic deeds and their many sacrifices have ensured that todays generation can rest easier proud in the knowledge that these servicemen and women have paved the way for our freedom Now they come together once again as one big family to shed an insight on their achievements so that you can fully understand and appreciate what they have and had experienced I dedicate this work to the memory of all those who have made the supreme sacrifice in order that we may live in peace and prosperity and also to the families of those who did not return The book is not a glorification of war but a glorification of the individual and his or her actions and deeds

House, 2012-11-20 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe *International Military Digest* ,1917
