Conception of the work In his preface Wells forecasts incorrectly that A Modern Utopia would be the last of a series of volumes on social problems that he began in 1901 with Anticipations and that included Mankind in the Making 1903 Unlike those non fictional works A Modern Utopia is presented as a tale told by a sketchily described character known only as the Owner of the Voice who Wells warns the reader is not to be taken as the Voice of the ostensible author who fathers these pages He is accompanied by another character known as the botanist Interspersed into the narrative are discursive remarks on various matters creating what Wells calls in his preface a sort of shot silk texture between philosophical discussion on the one hand and imaginative narrative on the other In addition there are frequent comparisons to and discussions of previous utopian works In his Experiment in Autobiography 1934 Wells wrote that A Modern Utopia was the first approach I made to the dialogue form and that the trend towards dialogue like the basal notion of the Samurai marks my debt to Plato A Modern Utopia quite as much as that of More derives frankly from the Republic The premise of the novel is that there is a planet for No less than a planet will serve the purpose of a modern Utopia exactly like Earth with the same geography and biology Moreover on that planet all the men and women that you know and I exist in duplicate They have however different habits different traditions different knowledge different ideas different clothing and different appliances Not however a different language Indeed should we be in Utopia at all if we could not talk to everyone Plot To this planet out beyond Sirius the Owner of the Voice and the botanist are translated imaginatively in the twinkling of an eye We should scarcely note the change Not a cloud would have gone from the sky Their point of entry is on the slopes of the Piz Lucendro in the Swiss Alps The adventures of these two characters are traced through eleven chapters Little by little they discover how Utopia is organized It is a world with no positive compulsions at all for the adult Utopian unless they fall upon him as penalties incurred The Owner of the Voice and the botanist are soon required to account for their presence When their thumbprints are checked against records in the central index housed in a vast series of buildings at or near Paris both discover they have doubles in Utopia They journey to London to meet them and the Owner of the Voice s double is a member of the Samurai a voluntary order of nobility that rules Utopia These samurai form the real body of the State Running through the novel as a foil to the main narrative is the botanist s obsession with an unhappy love affair back on Earth The Owner of the Voice is annoyed at this undignified and unworthy insertion of earthly affairs in Utopia but when the botanist meets the double of his beloved in Utopia the violence of his reaction bursts the imaginative bubble that has sustained the narrative and the two men find themselves back in early twentieth century London
