Modern European History:

Modern European History Hutton Webster, 1925 The Oxford Handbook of Early Modern European History, 1350-1750 Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context. The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching, research and scholarly publishing. More recently, however, the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned. The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume II is devoted to Cultures and Power, opening with chapters on philosophy, science, art and architecture, music and the Enlightenment. Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments, notably the expansion of state power.

Modern European History Charles Downer Hazen, 1919 **Early Modern Europe, 1450-1789** Merry E. Wiesner-Hanks, 2022-08-25 Thoroughly updated edition of a best-selling acclaimed book placing early modern European history in a global and environmental context.

A Companion to Modern European History Martin Pugh, 1997-10-22 Its sixteen thematic chapters, each written by an expert in the field, cover social and economic developments, the rise and fall of all the major political movements as well as the immense changes generated by war and international diplomacy across Europe.

A History of Modern Europe Albert S. Lindemann, 2012-12-10 A History of Modern Europe surveys European history from the defeat of Napoleon to the twenty-first century, presenting major historical themes in an authoritative and compelling narrative. Concise, readable, single volume covering Europe from the early nineteenth century through the early twenty-first century. Vigorous interpretation of events reflects a fresh, concise perspective on European history. Clear and thought-provoking treatment of major historical themes. Lively narrative reflects complexity of modern European history but remains accessible to those unfamiliar with the field.

Modern European Intellectual History Dominick LaCapra, Steven L. Kaplan, 1982 **Themes in Modern European History 1780-1830** Pamela Pilbeam, 2017-06-30 Themes in Modern European History 1780-1830 is an authoritative and lively exploration of a period dominated by events which have shaped modern Europe. In a series of articles, six leading academics present some controversial conclusions: the east-west contrast in Europe today has more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917; the conservative Europe of 1814 was the product of the Romantic imagination, not a Restoration of the old regime. Spanning political, social, economic and demographic facets of

revolutions this is an indispensable textbook for all students of the nineteenth century and for all those interested in understanding the nature of Europe today **Readings in Modern European History** James Harvey Robinson, Charles Austin Beard, 2023-07-18 Readings in Modern European History Europe since the Congress of Vienna is a collection of primary source documents and writings on European history from 1815 to 1923 The book was first published in 1908 and has been used as a textbook in many college history courses This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Readings in Modern European History James Harvey Robinson, Charles Austin Beard, 1908
