## **Modern Music The Avant Garde Since 1945:**

**Modern Music** Paul Griffiths, 1986      **The Pleasure of Modernist Music** Arved Mark Ashby, 2004 The debate over modernist music has continued for almost a century from Berg's *Wozzeck* and Webern's *Symphony Op 21* to John Cage's renegotiation of musical control the unusual musical practices of the Velvet Underground and Stanley Kubrick's use of Ligeti's *Lux Aeterna* in the epic film *2001* The composers discussed in these pages including Bartók Stockhausen Bernard Herrmann Steve Reich and many others are modernists in that they are defined by their individualism whether covert or overt and share a basic urge toward redesigning musical discourse The aim of this volume is to negotiate a varied and open middle ground between polemical extremes of reception The contributors sketch out the possible significance of a repertory that in past discussions has been deemed either meaningless or beyond describable meaning With an emphasis on recent aesthetics and contexts including film music sexuality metaphor and ideas of a listening grammar they trace the meanings that such works and composers have held for listeners of different kinds None of them takes up the usual mandate of educated listening to modernist works the notion that a person can appreciate difficult music if given enough time and schooling Instead the book defines novel but meaningful avenues of significance for modernist music avenues beyond those deemed appropriate or acceptable by the academy While some contributors offer new listening strategies most interpret the listening premise more loosely as a metaphor for any manner of personal and immediate connection with music In addition to a previously untranslated article by Pierre Boulez the volume contains articles all but one previously unpublished by twelve distinctive and prominent composers music critics and music theorists from America Europe Australia and South Africa Arved Ashby Amy Bauer William Bolcom Jonathan Bernard Judy Lochhead Fred Maus Andrew Mead Greg Sandow Martin Scherzinger Jeremy Tambling Richard Toop and Lloyd Whitesell Arved Ashby is Associate Professor of Music at the Ohio State University      *Modern Music and After* Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War this fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding This constant expansion of musical thinking since 1945 has left us with no singular history of music Griffiths's study accordingly follows several different paths showing how and why they converge and diverge This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the

recent explosion of scholarly interest in the latter half of the twentieth century In particular the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s Griffiths then moves the book into the twenty first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino For its breadth wealth of detail and characteristic wit and clarity the third edition of *Modern Music and After* is required reading for the student and the enquiring listener

**The Arab Avant-Garde** Thomas Burkhalter, Kay Dickinson, Benjamin J. Harbert, 2013-11-13 The first in depth study of diverse and radical innovation in Arab music From jazz trumpeters drawing on the noises of warfare in Beirut to female heavy metallers in Alexandria the Arab culture offers a wealth of exciting challenging and diverse musics The essays in this collection investigate the plethora of compositional and improvisational techniques performance styles political motivations professional trainings and inter continental collaborations that claim the mantle of innovation within Arab and Arab diaspora music While most books on Middle Eastern music making focus on notions of tradition and regionally specific genres The Arab Avant Garde presents a radically hybrid and globally dialectic set of practices Engaging the avant garde a term with Eurocentric resonances this anthology disturbs that presumed exclusivity drawing on and challenging a growing body of literature about alternative modernities Chapters delve into genres and modes as diverse as jazz musical theatre improvisation hip hop and heavy metal as performed in countries like Iraq Egypt Lebanon Syria Palestine and the United States Focusing on multiple ways in which the Arab avant garde becomes manifest this anthology brings together international writers with eclectic disciplinary trainings practicing musicians area studies specialists ethnomusicologists and scholars of popular culture and media Contributors include Sami W Asmar Michael Khoury Saed Muhssin Marina Peterson Kamran Rastegar Caroline Rooney and Shayna Silverstein as well as the editors

When Music Mattered James Wierzbicki, 2022-04-27 This book examines the American Sixties and how that period s socio political essence was reflected and refracted in certain forms of the period s music Its five main chapters bear the names of familiar musical categories Folk Rock Jazz Avant Garde Classical But the book s real subject matter treated at length in the Prologue and the Epilogue but spread throughout all that comes between is the Sixties tangled mess of hopes and frustrations of hungers as much for self identity as for self indulgence of crises of conscience that bothered Americans of almost all ages and regardless of political persuasion

*Revisiting the Historiography of Postwar Avant-Garde Music* Anne-Sylvie Barthel-Calvet, Christopher Brent Murray, 2022-07-29 This collection of essays delves into the historiographical traditions that have dominated how the stories of European postwar avant garde music are told seeking to approach commonplaces of that history writing from new perspectives The contributors revisit subjects as varied as the impact of long playing records on the emergence of open works Messiaen s interest in non European musical traditions Xenakis s turn to information theory Kagel s strategic invention of a new genre Berio s dependence on funding from American foundations and the ways in which figures like Boulez Stockhausen Pousseur and Nono constructed their musical ancestries Leading experts

in their respective fields the volume's authors have sought to rethink the historiography of European experimental music of the 1950s 1960s and 1970s in ways that resituate that small but influential milieu in broader historical and cultural contexts. In doing so they suggest new directions and insights for students and specialists of twentieth century music and music historiography.

**Modernism Today** Sjeff Houppermans, Pete Liebrechts, Jan Baetens, Otto Boele, 2013-10-25 This book manifests at least four recent shifts and tendencies within Modernist studies in general that point at the expansion of this increasingly interdisciplinary field. First Modernist studies has seen a temporal expansion to the extent that scholars in the field have come to turn to both the pre and posterior history of Modernism. Second the field has witnessed a spatial expansion in that increasingly so researchers have also come to scrutinize the Modernisms of regions at the fringes of Europe and beyond. Thirdly a vertical expansion too has marked Modernist studies in recent decades not only by further expanding the canon of women writers and exploring the continuum between high and lowbrow but also by looking at the artistic and mediatized hierarchies and cross fertilizations operative in the period. A fourth conceptual expansion of the field shows that whereas concepts such as middlebrow *à la* re garde and to some extent even avant garde were once exotic notions of at best marginal importance in European Modernist studies they now form part and parcel of the field complicating and expanding it conceptually.

The New York Schools of Music and the Visual Arts Steven Johnson, 2012-11-12 Musicians and artists have always shared mutual interests and exchanged theories of art and creativity. This exchange climaxed just after World War II when a group of New York based musicians including John Cage Morton Feldman Earle Brown and David Tudor formed friendships with a group of painters. The latter group now known collectively as either the New York School or the Abstract Expressionists included Jackson Pollock Willem deKooning Robert Motherwell Mark Rothko Barnett Newman Clyfford Still Franz Kline Phillip Guston and William Baziotes. The group also included a younger generation of artists particularly Robert Rauschenberg and Jasper Johns that stood somewhat apart from the Abstract Expressionists. This group of painters created what is arguably the first significant American movement in the visual arts. Inspired by the artists the New York School composers accomplished a similar feat. By the beginning of the 1960s the New York Schools of art and music had assumed a position of leadership in the world of art. For anyone interested in the development of 20th century art music and culture The New York Schools of Music and Art will make for illuminating reading.

A History of Twentieth-Century Music in a Theoretic-Analytical Context Elliott Antokoletz, 2014-03-14 A History of Twentieth-Century Music in a Theoretic-Analytical Context is an integrated account of the genres and concepts of twentieth century art music organized topically according to aesthetic stylistic technical and geographic categories and set within the larger political social economic and cultural framework. While the organization is topical it is historical within that framework. Musical issues interwoven with political cultural and social conditions have had a significant impact on the course of twentieth century musical tendencies and styles. The goal of this book is to provide a theoretic analytical basis that will appeal to those instructors who want to incorporate

into student learning an analysis of the musical works that have reflected cultural influences on the major musical phenomena of the twentieth century Focusing on the wide variety of theoretical issues spawned by twentieth century music A History of Twentieth Century Music in a Theoretic Analytical Context reflects the theoretical analytical essence of musical structure and design **No Documents, No Escape** Christophe Levaux, 2020-09-01 Rising out of the American art music movement of the late 1950s and 1960s minimalism shook the foundations of the traditional constructs of classical music becoming one of the most important and influential trends of the twentieth century The emergence of minimalism sparked an active writing culture around the controversies philosophies and forms represented in the music s style and performance and its defenders faced a relentless struggle within the music establishment and beyond Focusing on how facts about music are constructed negotiated and continually remodeled We Have Always Been Minimalist retraces the story of these battles that from pure fiction to proven truth led to the triumph of minimalism Christophe Levaux s critical analysis of literature surrounding the origins and transformations of the stylistic movement offers radical insights and a unique new history
