National Science Foundation (U.S.). Office of Experimental Projects and Programs,1974 Scientific Thinking in Speech and Language Therapy Carmel Lum,2005-04-11 Speech and language pathologists like all professionals who claim to be scientific in their practice make a public commitment to operate on the basis of knowledge derived in accordance with sound scientific standards Yet students in communication disorders are given relatively little grounding in the fundamentals of science indeed they often receive implicit encouragement to rely on clinical wisdom This pathbreaking text introduces the principles of critical scientific thinking as they relate to assessing communication problems deciding about alternative approaches to intervention and evaluating outcomes The author provides many illustrative examples to help readers contextualize the ideas Her clear presentation will help not only undergraduate and graduate students but also established professionals reason more effectively about what they are doing and why Though the examples come from speech and language pathology this illuminating and readable book constitutes a valuable resource for all clinical practitioners

foundation for societal wisdom To redress this gap Frederick Betz examines several cases in recent history that display a fundamental paradox between scientific technological achievement with devastating social effects i e historical events of ideological dictatorships in Russia Germany China and Yugoslavia He builds a new framework for applying social science perspectives to explain societal histories and social theory Emerging from this methodological and empirical investigation is a general topological theory of societal dynamics This theory and methodology can be used to integrate history and social science toward establishing grounded principles of societal wisdom
