Franklin Roosevelt to Barack Obama Suzanne Angioli, 2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with one's basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office

Guide to the White House Staff Shirley Anne Warshaw, 2013-03-27 *Guide to the White House Staff* is an insightful new work examining the evolution and current role of the White House staff. It provides a study of executive legislative relations, organizational behavior, policy making, and White House cabinet relations. The work also makes an important contribution to the study of public administration for researchers seeking to understand the inner workings of the White House. In eight thematically arranged chapters, *Guide to the White House Staff* reviews the early members of the White House staff and details the need for statutory authorization and funding for staff expansion. It addresses the creation of the Executive Office of the President (EOP) and a formal White House staff in 1939. It explores the statutes, executive orders, and succession of reorganization plans that shaped and refined the EOP. It traces the evolution of White House staff from FDR to Obama and the specialization of staff across policy and political units. It explores how presidential transitions have operated since Eisenhower created the position of chief of staff. It explains the expansion of presidential in-house policymaking structures beginning with national security and continuing with economic and domestic policy. It covers the exodus of staff and the roles remaining staff played during the second terms of presidents. It examines the post-White House careers of staff. *Guide to the White House Staff* also provides easily accessible biographies of key White House staff members who served the presidencies of Richard M. Nixon through George W. Bush. This valuable new reference will find a home in collections supporting research on the American presidency, public policy, and public administration. **Army**, 1998 **Books in Print**, 1991 **Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare** United States Congress.
