Modernity And Progress Fitzgerald Hemingway Orwell:

Modernity and Progress Ronald Berman, 2007-03-18 From the 1920s and for a generation thereafter understandings of time place and civilization were subjected to a barrage of new conceptions Berman probes the work of three writers Hemingway Fitzgerald and Orwell who wrestled with one or more of these issues in ways of lasting significance At stake for each is a sense of what constitutes true civilization Back cover The Romance of Regionalism in the Work of F. Scott and Zelda Fitzgerald Kirk Curnutt, Sara A. Kosiba, 2022-09-07 The Romance of Regionalism in the Work of F Scott and Zelda Fitzgerald The South Side of Paradise explores resonances of Southernness in works by American culture s leading literary couple At the height of their fame F Scott and Zelda Fitzgerald dramatized their relationship as a romance of regionalism as the charming tale of a Northern man wooing a Southern belle Their writing exposes deeper sectional conflicts however from the seemingly unexorcisable fixation with the Civil War and the historical revisionism of the Lost Cause to popular culture s depiction of the South as an artistically deprived economically broken backwater the couple challenged early twentieth century stereotypes of life below the Mason Dixon line From their most famous efforts The Great Gatsby and Save Me the Waltz to their more overlooked and obscure Scott s 1932 story Family in the Wind Zelda s The Iceberg published in 1918 before she even met her husband Scott and Zelda returned obsessively to the challenges of defining Southern identity in a country in which going south meant decay and dissolution Contributors to this volume tackle a range of Southern topics including belle culture the picturesque and the Gothic Confederate commemoration and race relations and regional reconciliation As the collection demonstrates the Fitzgeralds fortuitous meeting in Montgomery Alabama in 1918 sparked a Southern renaissance in miniature **Translating Modernism** Ronald Berman, 2010-09-23 In Translating Modernism Ronald Berman continues his career long study of the ways that intellectual and philosophical ideas informed and transformed the work of America s major modernist writers Here Berman shows how Fitzgerald and Hemingway wrestled with very specific intellectual artistic and psychological influences influences particular to each writer particular to the time in which they wrote and which left distinctive marks on their entire oeuvres Specifically Berman addresses the idea of translating or translation for Fitzgerald the translation of ideas from Freud Dewey and James among others and for Hemingway the translation of visual modernism and composition via C zanne Though each writer had distinct interests and different intellectual problems to wrestle with as Berman demonstrates both had to wrestle with transmuting some outside influence and making it their own *The Cambridge Companion to F. Literature and Modern Time Trish Ferguson,2020-05-06 *Literature and Modern Time* is a collection of essays that explore literature in the context of a wave of challenges to linear conceptions of time introduced by thinkers such as Bergson Einstein McTaggart Freud and Nietzsche These challenges were not uniform in character The volume will demonstrate that literature of the era under scrutiny was not simply reacting to new theories of time in some cases it is actually inspiring and anticipating them Thus *Literature and Modern Time* promises to offer a genuine dialogue between literature and time theory and in doing so will uncover and examine influences and connections sometimes unexpected between philosophers and writers of the era It will examine literary attempts to transcend and escape time and also challenge rupture based accounts of modernist time by demonstrating that literary texts commonly associated with brokenness decline or stasis also at the same time maintain faith in healing renewal and mobility This collection contains interdisciplinary research of the quite highest kind to see so many different kinds of time narrative historical mechanical subjective non linear time myth and nostalgia as well as time space discussed here is very stimulating indeed

The Shock of the Same Tom Grimwood, 2021-06-01 Since the birth of modernity Western thought has been at war with clichés The association of philosophical and cultural integrity with originality and the corresponding need for invention and novelty has been a distinct concern of a whole spectrum of ideas and movements from Nietzsche's polemics against the herd the shock of the new of the artistic avant garde the Frankfurt School's critique of mass culture to Orwell's defence of political dialogue from dying metaphors This book is the first examination of the cliché as a philosophical concept Challenging the idea that clichés are lazy or spurious opposites to genuine thinking it instead locates them as a dynamic and contestable boundary between thought and non thought The book unpacks the constituent phenomena of clichés repetition circulation the readymade sameness through readings of anti philosophical thinkers such as Nietzsche Kierkegaard Paulhan de Certeau Derrida Sloterdijk Badiou and Groys In doing so the book critically articulates the techniques and technologies through which the boundary between thought and non thought is formed in modern Western philosophy Rejecting the idea that clichés should be dismissed out of hand on normative frameworks of good and bad thinking or new and old ideas it instead interrogates the material cultural and archival ground on which these frameworks are built

Exile and Expatriation in Modern American and Palestinian Writing Ahmad

Rasmi Qabaha, 2018-05-23 This book examines the distinction between literary expatriation and exile through a contrapuntal reading of modern Palestinian and American writing. It argues that exile in the Palestinian case especially is a political catastrophe; it is banishment by a colonial power. It suggests that unlike expatriation, a choice of a foreign land over one's own exile is a political rather than an artistic concept and is forced rather than voluntary. While exile can be emancipatory, it is always an unwelcome loss. In addition to its historical dimension, exile also entails a different perception of return to expatriation. This book frames expatriates as quintessentially American, particularly intellectuals and artists seeking a space of creativity and social dissidence in the experience of living away from home. At the heart of both literary discourses, however, is a preoccupation with home, belonging, identity, language, mobility, and homecoming.
