## **Modernity And Religion:**

**Religions of Modernity** Stef Aupers, Dick Houtman, 2010-07-07 Religions of Modernity challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book s chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there s a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P rna Adam Possamai Linda Woodhead and Dorien Zandbergen *Religion, Education and Post-Modernity* Andrew Wright, 2003-12-16 This book the first to explore religious education and post modernity in depth sets out to provide a much needed examination of the problems and possibilities post modernity raises for religious education At once a general introduction to this topic and a distinctive contribution to the debate in its own right Religion Education and Post modernity explores and illuminates the problems and possibilities opened up for religious education by postmodern thought and culture The book describes the emergence of post modernity considers the impact of post modernity on religion addresses its impact on the philosophy of religion and considers the nature of religious education in the post modern world Andrew Wright argues that although post modernity has much to offer the religious educator there are also many pitfalls and dangers to be avoided Steering clear of the extreme of post modern hyper realism he constructs a religious pedagogy sensitive to post modern concerns for alterity difference and the voice of the Other whilst insisting on the importance of reasons in cultivating religious literacy

**Meaning and Modernity** Richard Madsen, 2001-12-04 This interesting volume of essays on contemporary religion and its ambivalent relationship to modernity not only serves as a testimony to the intellectual influence of Robert Bellah it establishes a new school of comparative religious and social thought This Bellahian school at the intersection of sociological theological and contemporary philosophical thinking has roots in Durkheim and Weber borrows insights from Marx Foucault and Bourdieu and finds its clearest voice in the writings of Bellah himself The essays by some of Bellah s colleagues and former students that have been gathered in this volume address some of the most sagacious of these Bellahian themes the religious dimension of contemporary civil societies the relationship between religious and capitalist values the cultural critique of modernity and the moral visions that hold a promise of civic renewal Mark Juergensmeyer author of *Terror in the Mind of God The Global Rise of Religious Violence* California 2000 This highly readable collection of original thought provoking essays by leading scholars provides fresh insights into the issues that Robert Bellah has addressed so fruitfully in his long career Readers will learn much about such issues as how Calvinism

contributed to political revolution why democracies require an enlarged sense of political community how the religious foundations of Japan and the United States differ and what it means to be a Christian and an American Benton Johnson coauthor of *Vanishing Boundaries The Religion of Protestant Baby Boomers* 1994 and author of *Functionalism in Modern Sociology Understanding* Talcott Parsons 1975

**Modernity, Religion, and the War on Terror** Richard Dien Winfield, 2016-04-15 The war on terror cannot be truly understood without investigating the legitimacy of modernity the challenge that religion presents to modernization the inescapable conflicts attending the emergence and expansion of modernity and the post colonial predicament from which Islamist reaction arises Richard Dien Winfield illuminates the war on terror in light of these issues presenting an anti foundationalist justification of the rationality and freedom of modernity while assessing how religion can stand in opposition to modernity and why Islam has been a privileged vehicle of anti modern religious revolt Winfield shows that the privatization that religion must undergo to be compatible with modern freedom involves no capitulation to relativism but rather is a theological imperative on which the truth of religion depends Exposing the limits of any purely secular modernization of Islam Winfield shows how Islam can draw upon its core tradition to repudiate the oppression of Islamist reaction and become at home in the modern world

**Modernity, Religion, and the War on Terror** Richard Dien Winfield, 2007-01-01 States that the war on terror cannot be truly understood without investigating the legitimacy of modernity the challenge that religion presents to modernization and the post colonial predicament from which Islamist reaction arises This book illuminates the war on terror in light of these issues

*Religion and the Discourse on Modernity* Paul-François Tremlett, 2011-11-03 The point of departure for this book is the debate about whether religious studies should privilege explanation or understanding Engaging with contemporary scholarship in the field Tremlett argues that the study of religions has always involved the conflation of facts and values and indeed has been structured in advance by the value saturated discourse on disenchanted modernity He argues that phenomenological and post modern approaches to religions lack both theoretical and methodological coherence and in their stead proposes a Marxist approach to religions that is at once empirical and informed by values pertaining to social justice freedom and autonomy **Making Sense of Modernity** Paul Edward Gottfried, 1993 **Powers of Distinction** Nancy Levene, 2017-12-06

The principle of modernity A history of religion Artificial populations The collective Images of truth from Anselm to Badiou The radical enlightenment of Spinoza and Kant Modernity as ground zero Of gods laws rabbis and ends

Modernism in Religion James Macbride Sterrett, 1922 Modern Religion, Modern Race Theodore M. Vial, 2016 Religion is a racialized category even when race is not explicitly mentioned In *Modern Religion* *Modern Race* Theodore Vial argues that because the categories of religion and race are rooted in the post Enlightenment project of reimagining what it means to be human we cannot simply will ourselves to stop using them Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world It has become common to argue that the category religion is not universal or even very old but is a product of Europe s Enlightenment modernization Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe s process of identity construction of itself and of non European others Current debates about race follow an eerily similar trajectory race is not an ancient but a modern construction It is part of the project of colonialism and race discourse forms one of the cornerstones of modern European identity making Why can t we stop using them or re construct them in less toxic ways By examining the theories of Kant Herder and

Schleiermacher among others Vial uncovers co constitutive nature of race and religion describes how they became building blocks of the modern world and shows how the two concepts continue to be used today to form identity and to make sense of the world He shows that while we disdain the racist language of some of the founders of religious studies the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies Although it may not be time to abandon the very category of religion with all its attendant baggage Modern Religion Modern Race calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race

An Introduction to the Sociology of Religion Inger Furseth, Pål Repstad, 2006-01-01 An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Some chapters are organized according to topic Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion

Throughout the book illustrations and examples are taken from several religious traditions

**The Challenge of Religion after Modernity** Raymond L. M. Lee, Susan E. Ackerman, 2018-05-08 This title was first published in 2003 If God has departed as Baudrillard claims is religion still relevant A new religious landscape is appearing in the new millennium The middle classes with their electronic technologies are producing a culture of commodified images and signs that is radically transforming the religious landscape and re enchanting the world Ecstatic experiences pervade the reenchanting world Both fundamentalism and the New Age movement promote the free flow of charisma reshaping religion in unforeseen directions Analysing the crisis of modernity this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re enchantment that will usher in new ideas about charisma consciousness and spirituality These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment

**Beyond Tradition and Modernity** R. J. Werblowsky, 2016-10-06 First delivered in 1974 as one of the Jordan Lectures in Comparative Religion this book considers and compares traditional or pre modern and post traditional or post modern religions It assesses the processes as well as the images of change in various cultures principally Christianity Judaism Islam Hinduism and Buddhism and examines how these religions handle the dialects of rejection appropriation and integration

**Religion and Modernity** Detlef Pollack, Gergely Rosta, 2017-12-08 This is not a book that provides a new integrated theory of religious change in modern societies but rather one that develops theoretical elements that contribute to the understanding of some contemporary religious developments Most of the approaches in sociology of religion are prone to emphasise either processes of religious decline or of religious upswing For example secularization theory usually includes a couple of relevant factors such as functional differentiation economic affluence or social equality in order to account for religious change However the result of such a theory's empirical analyses seems to be certain in advance namely that the

social relevance of religion is decreasing In contrast the religious market model devised by sociologists of religion in the US is inclined to detect everywhere processes of religious upsurge Religion and Modernity An International Comparison avoids a purely theoretically based perspective on religious changes For this reason Detlef Pollack and Gergely Rosta do not begin with theoretical propositions but with questions The authors raise the question of how the social significance of religion in its various facets has changed in modern societies and explain what factors and conditions have contributed to these changes

**The Enlightenment and religion** S. J. Barnett, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book offers a critical survey of religious change and its causes in eighteenth century Europe and constitutes a challenge to the accepted views in traditional Enlightenment studies Focusing on Enlightenment Italy France and England it illustrates how the canonical view of eighteenth century religious change has in reality been constructed upon scant evidence and assumption in particular the idea that the thought of the enlightened led to modernity For despite a lack of evidence one of the fundamental assumptions of Enlightenment studies has been the assertion that there was a vibrant Deist movement which formed the intellectual solvent of the eighteenth century The central claim of this book is that the immense ideological appeal of the traditional birth of modernity myth has meant that the actual lack of Deists has been glossed over and a quite misleading historical view has become entrenched *Shakespeare*

*and Early Modern Religion* David Loewenstein, Michael Witmore, 2015-01-22 This volume freshly illuminates the diversity of early modern religious beliefs practices and issues and their representation in Shakespeare's plays **Collectivistic**

**Religions** Dr Slavica Jakelc, 2012-12-28 *Collectivistic Religions* draws upon empirical studies of Christianity in Europe to address questions of religion and collective identity religion and nationalism religion and public life and religion and conflict It moves beyond the attempts to tackle such questions in terms of choice and religious nationalism by introducing the notion of collectivistic religions to contemporary debates surrounding public religions Using a comparison of several case studies this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization it will be of key interest to scholars across a range of disciplines including sociology political science religious studies and geography **Religion, Modernity and Postmodernity** Paul Heelas, 1998-07-07

*Religion Modernity and Postmodernity* is the first book to engage the study of religion with contemporary theorizing about culture It addresses important issues such as whether there are postmodern forms of religion whether theories of religion framed in terms of modernity can be recast to suit new or emerging circumstances and how the study of religion can be better integrated with recent developments in the study of culture
