Modular Poems Dick Higgins, 1974 *Modular Poems* Dick Higgins, 1974 Modern Visual Poetry Willard Bohn, 2001

Far from frivolous playthings modern visual poems represent serious experiments Together with other members of the avant grade the visual poets sought to restructure the basic vision of reality that they inherited from their predecessors This statement describes contemporary visual poets as well who like their earlier colleagues strive to say things that are more meaningful in ways that are more meaningful BOOK JACKET On the Aesthetics of Beowulf and Other Old English Poems John M. Hill, 2010-01-01 What makes one Anglo Saxon poem better than another Why does Beowulf still have the power to move us after so many centuries What might have been aesthetically pleasing to Old English readers and writers of poetry While there is an apparent consensus by scholars on a core of poems considered to be exceptional literary achievements Beowulf Judith the Vercelli book there has been little systematic investigation of the basis for these appraisals With new essays on rhetoric wordplay meter structure irony form psychology ethos and reader response the contributors to this collection aim to find objective aesthetic qualities in Anglo Saxon poetry Posing questions of quality and beauty as discoverable in artefacts On the Aesthetics of Beowulf and Other Old English Poems significantly advances our understanding not only of aesthetics and Old English poetry but also of Old English attitudes towards literature as an art form

Translations from Mahmoud Darwish Ahmad Al-Ashqar,2017-06-29 Original poetry by Ahmad Al Ashqar and translations from Mahmoud Darwish *The Objectivist Nexus* Peter Quartermain,Rachel Blau DuPlessis,1999-07-02 Outstanding poets and critics present cultural readings of the Objectivist poets a group whose works have been largely unexamined

Notational Experiments in North American Long Poems, 1961-2011 A. J. Carruthers,2017-01-28 This book is a critical experiment that tracks the literary and poetic uses of musical notation and notational methods in North American long poems from the middle of last century to the contemporary moment Poets have readily referred to their poems as scores Yet in this study Carruthers argues that the integration of musical scores in expansive works of this period does more work than previously thought offering both resolution and escape from the demands placed on long poem form The five case studies on Langston Hughes Armand Schwerner BpNichol Joan Retallack and Anne Waldman offer approaches to reading literary scores in what might be described as a critical stave or a critical fugue of instances In differing ways musical notation and notational methods impact the form time and sometimes the ethical and political stances of these respective long poems *The Cambridge Companion to the Poem* Sean Pryor,2024-06-06 What is a poem What ideas about the poem as such shape how readers and audiences encounter individual poems To explore these questions the first section of this Companion addresses key conceptual issues from singularity and genre to the poem s historical exchanges with the song and the novel The second section turns to issues of form focusing on voice rhythm image sound diction and style The third section considers the poem s social and cultural lives It examines the poem in the archive and in the digital sphere as well as in relation to decolonization and global capitalism The chapters in this volume range across both canonical and non canonical poems poems from the past and the present and poems by a diverse set of poets This book will be a key resource for students and scholars studying the poem **What is Poetry?** Nigel Fabb,2015 Poetry defined as language divided into lines is found in most known human cultures This masterful survey of poetry and its constituent components demonstrates the functions performed by metre rhyme alliteration and parallelism arguing that each line of a poem fits as a whole unit into the limited capacity of human working memory Using examples from around the world Fabb surveys the wide varieties of poetry and the ways they are performed including those in songs and signed literatures Focusing on language form and memory he argues helps us understand why poetry is a particularly valued way of using language A fresh exploration of poetry the book will be welcomed by students and researchers of literature linguistics and psychology as well as anyone interested in poetry

Colour'd Shadows T. Hoagwood,K. Ledbetter,2005-02-04 This book studies the print culture of the nineteenth century as

it shaped the meanings and the cultural significance of literary works by women writers Mary Robinson Felicia Hemans Elizabeth Barrett Browning Lady Blessington Lady Morgan Caroline Norton Letitia Elizabeth Landon and others *Colour d Shadows* explains and interprets the physical forms of their books the economics and politics of production and reception and the cultural meanings of their literary work showing how poems literary annuals engravings commercial arrangements the practices of women editors as well as writers the politics of gender the changing means of production and women s literary relationships unfold in the medium of print and more largely the rapidly changing culture of the century *Making Canada New* Dean Irvine, Vanessa Lent, Bart A. Vautour, 2017-03-17 An examination of the connections between modernist writers and editorial activities *Making Canada New* draws links among new and old media collaborative labour emergent scholars and scholarships and digital modernisms In doing so the collection reveals that renovating modernisms does not need to depend on the fabrication of completely new modes of scholarship Rather it is the repurposing of already existing practices and combining them with others whether old or new print or digital that instigates a process of continuous renewal Critical to this process of renewal is the intermingling of print and digital research methods and the coordination of more popular modes of literary scholarship with less frequented ones such as bibliography textual studies and editing *Making Canada New* tracks the editorial renovation of modernism as a digital phenomenon while speaking to the continued production of print editions

The Full Severity of Compassion Chana Kronfeld, 2015-12-09 Yehuda Amichai 1924 2000 was the foremost Israeli poet of the twentieth century and an internationally influential literary figure whose poetry has been translated into some 40 languages Hitherto no comprehensive literary study of Amichai s poetry has appeared in English This long awaited book seeks to fill the gap Widely considered one of the greatest poets of our time and the most important Jewish poet since Paul Celan Amichai is beloved by readers the world over Beneath the carefully crafted and accessible surface of Amichai s poetry lies a profound complex and often revolutionary poetic vision that deliberately disrupts traditional literary boundaries and distinctions Chana Kronfeld focuses on the stylistic implications of Amichai s poetic philosophy and on what she describes as his acerbic critique of ideology She rescues Amichai s poetry from complacent appropriations showing in the process how his work obliges us to rethink major issues in literary studies including metaphor intertextuality translation and the politics of poetic form In spotlighting his deeply egalitarian outlook this book makes the experimental iconoclastic Amichai newly compelling

A Long Essay on the Long Poem Rachel Blau DuPlessis, 2023-03-21 For decades Rachel Blau DuPlessis has shown readers how genres forms and the literal acts of writing and reception can be understood as sites of struggle In her own words writing is a praxis in which the author disappears into a process into a community into discontinuities and into a desire for discovery It is cause for celebration then that we have another work of warm incisive expository writing from DuPlessis in *A Long Essay on the Long Poem*

The Origins of Chinese Literary Hermeneutics Martin Svensson Ekström, 2024-03-01 Explores how China s oldest poetry collection was interpreted in a Confucian

exegetical text the Mao Commentary in the mid second century BCE The Shijing Canon of Odes is China's oldest poetry collection traditionally considered to have been edited by Confucius himself Despite their enormous importance for Confucianism and Chinese civilization the 305 odes have for millennia also puzzled readers Why did the Sage include in the Canon apparently lewd poems about women promising men to hitch up their skirts and wade the river and men tossing and turning in bed yearning for young women What did the innumerable representations of plants beasts and birds and of various climactic and astronomical phenomena signify beyond their immediate function as natural descriptions One such puzzled reader was Mao Heng a learned Confucian employed at a minor court in the mid second century BCE The object of this study is the Commentary that Mao composed on the Odes and in particular the hermeneutic tool the xing that he invented to explain the figurality and tropes at play in them Mao's xingish interpretation of the Odes is both genuinely hermeneutic in that it explains the rhetorical organization of these poems and thoroughly ideological since it allows Mao to transform them into Confucian dogma The book also argues that the xing content function and cultural importance is comparable to the Aristotelian concept of metaphor metaphora and that the xing the Odes and the practice of shi Chinese poetry demand an intercultural comparative reading for a more nuanced understanding
