Mohammed Charlemagne:

Mohammed and Charlemagne Henri Pirenne, 2001-08-28 Remarkable classic that developed the revolutionary theory of how the advance and influence of Islam caused the Europe of the Roman Empire to evolve into the Europe of the Middle Ages An important seminal book worthy to close one of the most distinguished careers in European scholarship Saturday Review of Literature **Mohammed, Charlemagne & the Origins of Europe** Richard Hodges, David Whitehouse, 1983 In this concise book Richard Hodges and David Whitehouse review the Pirenne thesis in the light of archaeological information from northern Europe the Mediterranean and western Asia **Mohammed, Charlemagne, and the Origins of Europe** Richard Hodges, 1983 *Mohammed, Charlemagne and the Origins of Europe* Richard Hodges, David Whitehouse, 1983 No Marketing Blurb Mohammed and Charlemagne Henri Pirenne, Jacques Pirenne, 1939 Remarkable classic that developed the revolutionary theory of how the advance and influence of Islam caused the Europe of the Roman Empire to evolve into the Europe of the Middle Ages an important seminal book worthy to close one of the most distinguished careers in European scholarship Saturday Review of Literature **Mohammed & Charlemagne Revisited** Emmet Scott, 2012-01 During the 1920s Belgian historian Henri Pirenne came to an astonishing conclusion the ancient classical civilization which Rome had established throughout Europe and the Mediterranean world was not destroyed by the Barbarians who invaded the western provinces in the fifth century it was destroyed by the Arabs whose conquest of the Middle East and North Africa terminated Roman civilization in those regions and cut off Europe from any further trading and cultural contact with the East According to Pirenne it was only in the mid seventh century that the characteristic features of classical life disappeared from Europe after which time the continent began to develop its own distinctive and somewhat primitive medieval culture Pirenne's findings published posthumously in his *Mohammed et Charlemagne* 1937 were even then highly controversial for by the late nineteenth century many historians were moving towards a quite different conclusion namely that the Arabs were actually a civilizing force who rekindled the light of classical learning in Europe after it had been extinguished by the Goths Vandals and Huns in the fifth century And because Pirenne went so diametrically against the grain of this thinking the reception of his new thesis tended to be hostile Paper after paper published during the 1940s and 50s strove to refute him The most definitive rebuttal however appeared in the early 1980s This was *Mohammed Charlemagne and the Origins of Europe* by English archaeologists Richard Hodges and David Whitehouse These in common with Pirenne's earlier critics argued that classical civilization was already dead in Europe by the time of the Arab conquests and that the Arabs arrived on the scene as civilizers rather than destroyers Hodges and Whitehouse claimed that the latest findings of archaeology fully supported this view and their work was highly influential So influential indeed that over the next three decades Pirenne and his thesis was progressively sidelined so that recent years have seen the publication of dozens of titles in the English language alone which fail even to mention his name In *Mohammed and Charlemagne Revisited* historian Emmet Scott reviews the evidence put

forward by Hodges and Whitehouse as well as the more recent findings of archaeology and comes to a rather different conclusion. For him the evidence shows that classical civilization was not dead in Europe at the start of the seventh century but was actually experiencing something of a revival. Populations and towns were beginning to grow again for the first time since this second century a development apparently attributable largely to the spread of Christianity. In addition the real centres of classical civilization in the Middle East were experiencing an unprecedented Golden Age at the time with cities larger and more prosperous than ever before. Excavation has shown that these were destroyed thoroughly and completely by the Arab conquests with many never again reoccupied. And it was precisely then says Scott that Europe's classical culture also disappeared with the abandonment of the undefended lowland villas and farms of the Roman period and a retreat to fortified hilltop settlements the first medieval castles. For Scott archaeology demonstrated that the Arabs did indeed blockade the Mediterranean through piracy and slave raiding precisely as Pirenne had claimed and he argues that the disappearance of papyrus from Europe was an infallible proof of this. Whatever classical learning survived after this time says Scott was due almost entirely to the efforts of Christian monks. The Pirenne thesis has taken on a new significance in the post 9/11 world. Scott's take on the theory will certainly ignite further and perhaps heated debate.

Mohammed and Charlemagne Henri Pirenne, 2013 Mohammed and Charlemagne Henri Pirenne, *The Palladino Family in America* Peter August Hoetjes, 2004. The family surname is derived from the Italian first name Paladino. The first recorded Paladino was a medieval knight and the nephew to the Holy Roman Emperor Charlemagne 742-814 AD. Many romantic fables are told of Charlemagne and his paladins. The most famous of the paladins was Roland the favorite nephew of Charlemagne. It is Roland the Italian bestowed by Charlemagne with the name Paladin who may be our famous ancestral noble Cavaliere that all Palladino's and modern day Pauldine's are descended from.

genealogy and objective interpretation of these topics can spell the difference between real family history and fanciful family folklore. It is in a whimsical and fanciful vein that I portend that the Palladino and modern day Pauldine clan is in some way related to the famous Holy Roman Emperor Charlemagne and his equally famous nephew Roland the Paladin. But who knows. Perhaps a future Palladino explorer with the inclination and more importantly possessing very deep pockets might one day embark on the eternal quest for the truth and in the process even perchance recover Roland's magical sword Durandal.

God's Crucible: Islam and the Making of Europe, 570-1215 David Levering Lewis, 2009-01-12. From the two time Pulitzer Prize winning author God's Crucible brings to life a furiously complex age. New York Times Book Review. Resonating as profoundly today as when it was first published to widespread critical acclaim a decade ago God's Crucible is a bold portrait of Islamic Spain and the birth of modern Europe from one of our greatest historians. David Levering Lewis's narrative filled with accounts of some of the most epic battles in world history reveals how cosmopolitan Muslim al Andalus flourished a beacon of cooperation and tolerance while proto Europe floundered in opposition to Islam making virtues out of hereditary aristocracy religious intolerance perpetual war and slavery. This

masterful history begins with the fall of the Persian and Roman empires followed by the rise of the prophet Muhammad and five centuries of engagement between the Muslim imperium and an emerging Europe Essential and urgent God s Crucible underscores the importance of these early world altering events whose influence remains as current as today s headlines
