Moises Moses:

Unbridled Calling Mónica Szurmuk, 2024-09-02 How can a child born in the Russian Pale at the end of the 19th century become one of the most celebrated journalists in Latin America and a writer admired by Jorge Luis Borges In this biography Mónica Szurmuk delves into the different aspects of the life of writer journalist and politician Alberto Gerchuinoff Thoroughly researched in four different continents this book is as much an account of the life of Alberto Gerchunoff as an investigation into the Jewish world of the first half of the twentieth century and the different spaces where Jewish and Latin American cultural and political life intersect *African Immigrants in Contemporary Spanish Texts* Debra Faszter-McMahon, Victoria L. Ketz, 2016-03-09 Around the turn of 21st Century Spain welcomed more than six million foreigners many of them from various parts of the African continent How African immigrants represent themselves and are represented in contemporary Spanish texts is the subject of this interdisciplinary collection Analyzing blogs films translations and literary works by contemporary authors including Donato Ndongo Equatorial Guinea Abderrahman El Fathi Morocco Chus Gutiérrez Spain Juan Bonilla Spain and Bahia Mahmud Awah Western Sahara the contributors interrogate how Spanish cultural texts represent idealize or sympathize with the plight of immigrants as well as the ways in which immigrants themselves represent Spain and Spanish culture At the same time these works shed light on issues related to Spain's racial ethnic and sexual boundaries the appeal of images of Africa in the contemporary marketplace and the role of Spain's economic crisis in shaping attitudes towards immigration Taken together the essays are a convincing reminder that cultural texts provide a mirror into the perceptions of a society during times of change María Izquierdo and Frida Kahlo Nancy Deffebach, 2015-08-15 María Izquierdo 1902 1955 and Frida Kahlo 1907 1954 were the first two Mexican women artists to achieve international recognition During the height of the Mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of Mexican modernism Although the iconic Kahlo is now more famous the two artists had comparable reputations during their lives Both were regularly included in major exhibitions of Mexican art and they were invariably the only women chosen for the most important professional activities and honors In a deeply informed study that prioritizes critical analysis over biographical interpretation Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico Through iconographic analysis of paintings and themes within each artist's oeuvre Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era especially Mexican national identity and the role of women in society In a time when Mexican artistic and national discourses associated the nation with masculinity Izquierdo and Kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women Deffebach demonstrates that paradoxically Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas
