the Years 2008 and 2009 has here chronicled through the hunt for the Somali golden mole the development of the conservation movement the importance of diversity in the animal kingdom including humankind within this realm as well as a hard look at extinction The Somali mole of the title first described in print in a text book published in 1964 had as sole evidence of its existence only the fragment of a jaw bone found in an owl pellet a specimen that seemed to have vanished as Girling began his exploration Intrigued by the elusiveness of this creature and what the hunt for the facts of its existence might tell us about extinction he was drawn to the dusty vaults of museums of natural history where the most rare artifacts are stored and catalogued as he found himself caught up in the need to track it down Part quest part travelog the book that results not only offers an important voice to the scientific debate about extinction and biodiversity it becomes an environmental call to arms
