MomSense Old Mesquite Publishing, Vicki Kabat, 2000-03 *The Mommy Myth* Susan Jeanne Douglas, Meredith W. Michaels, 2004 An analysis of the history of women in the United States in relation to motherhood [The Drama All Over a Father's First Love](#) Mandell Williams, 2021-06-03 As the country fights against injustice in the criminal department there has also been an unspoken injustice brewing in the family court system for way too long For over twenty one years I have dedicated my life in spotlighting the dark side on an outdated system affecting so many lives I've learned firsthand of this biased one sided system that has stolen my firstborn away from me My story of these events that has transpired throughout two decades has been well documented with the facts of my case in its entirety The surrounding drama marked by family court and fueled by a relentless baby mama has led me on a journey for justice for a daughter I never knew Just like so many others who have fought and lost the right to be a parent My mission now is to change and expose the truth of this corrupt culture that touches across all racial barriers and wealth status History has shown us that a father's love is one of the most important key figures in a child's life To undertake that away purposely can be an atrocity affecting generations to come But who knew the fight for my daughter would ultimately catapult my life into a direction for change and a front row seat to a new normal that affects us all **Maternal Theory** Andrea O'Reilly, 2021-07-08 Theory on mothers mothering and motherhood has emerged as a distinct body of knowledge within Motherhood Studies and Feminist Theory more generally This collection The Second Edition of Maternal Theory Essential Readings introduces readers to this rich and diverse tradition of maternal theory Composed of 60 chapters the 2nd edition includes two sections the first with the classic texts by Adrienne Rich Nancy Chodorow Sara Ruddick Alice Walker Barbara Katz Rothman bell hooks Sharon Hays Patricia Hill Collins Audre Lorde Daphne de Marneffe Judith Warner Patrice diQinzio Susan Maushart and many more The second section includes thirty new chapters on vital and new topics including Trans Parenting Non Binary Parenting Queer Mothering Matricentric Feminism Normative Motherhood Maternal Subjectivity Maternal Narratology Maternal Ambivalence Maternal Regret Monstrous Mothers The Migrant Maternal Reproductive Justice Feminist Mothering Feminist Fathering Indigenous Mothering The Digital Maternal The Opt Out Revolution Black Motherhoods Motherlines The Motherhood Memoir Pandemic Mothering and many more Maternal Theory is essential reading for anyone interested in motherhood as experience ideology and identity **Parenting for a Digital Future** Sonia Livingstone, Alicia Blum-Ross, 2020-06-09 In contrast to panicky headlines about clueless parents and kids glued to screens Parenting for a Digital Future offers a balanced in depth exploration of the realities of parenting today Drawing on interviews with and surveys of diverse parents rich and poor parenting toddlers to teenagers the book offers a warm and deeply human depiction of how parents hopes and fears about technology influence how they remember their own pasts how they parent in the present and crucially how they shape their children's futures **We All Giggled** Thomas O. Hueglin, 2011-09-28 We All Giggled tells the stories of two families that

came together when the author's parents met and married in 1945. The Haglins had lost most of their fortune in the course of two world wars and the Wachendorffs had survived the Nazi years despite their Jewish ancestry. The families' roots are traced back to a vineyard in southern Germany, a jail in Geneva, the Conservatory in St. Petersburg and the hometown of a Jewish merchant in Silesia. This engaging book centres on the author's recollections of his grandparents, his parents and his own growing up in postwar Germany in an environment of bourgeois stability and comfort. As the author chronicles his family's ups and downs and abiding love for music, food and art across several generations, a rich tapestry of anecdotes unfolds about opera singers, restaurants and travels and about family relations, romance and the kind of impromptu reactions to people, places and situations that often result in uncontrollable giggles. **Fat-Talk Nation** Susan Greenhalgh, 2015-06-24

In recent decades America has been waging a veritable war on fat in which not just public health authorities but every sector of society is engaged in constant fat talk aimed at educating, badgering and ridiculing heavy people into shedding pounds. We hear a great deal about the dangers of fatness to the nation but little about the dangers of today's epidemic of fat talk to individuals and society at large. The human trauma caused by the war on fat is disturbing and it is virtually unknown. How do those who do not fit the ideal body type feel being the object of abuse, discrimination and even revulsion? How do people feel being told they are a burden on the healthcare system for having a BMI outside what is deemed with little solid scientific evidence to be healthy? How do young people already prone to self-doubt about their bodies withstand the daily assault on their body type and sense of self-worth? In *Fat Talk Nation* Susan Greenhalgh tells the story of today's fight against excess pounds by giving young people the campaign's main target an opportunity to speak about experiences that have long lain hidden in silence and shame. Featuring forty-five autobiographical narratives of personal struggles with diet, weight, bad BMIs and eating disorders, *Fat Talk Nation* shows how the war on fat has produced a generation of young people who are obsessed with their bodies and whose most fundamental sense of self comes from their size. It reveals that regardless of their weight, many people feel miserable about their bodies and almost no one is able to lose weight and keep it off. Greenhalgh argues that attempts to rescue America from obesity-induced national decline are damaging the bodily and emotional health of young people and disrupting families and intimate relationships. Fatness today is not primarily about health. Greenhalgh asserts more fundamentally it is about morality and political inclusion/exclusion or citizenship. To unpack the complexity of fat politics today, Greenhalgh introduces a cluster of terms: biocitizen, biomyth, biopedagogy, bioabuse, biocop and fat personhood and shows how they work together to produce such deep investments in the attainment of the thin/fit body. These concepts, which constitute a theory of the workings of our biocitizenship culture, offer powerful tools for understanding how obesity has come to remake who we are as a nation and how we might work to reverse course for the next generation. **Daughters of Madness** Susan L. Nathiel Ph.D., 2007-03-30 June was 9 years old when she came home from school and her schizophrenic mother met her at the door angrily demanding to know: Who the hell are you? What are you doing in my house? Tess's mother

would wait outside church then scream at family friends as they emerged accusing them of spying and plotting to kill her Five year old Tess and her 7 year old brother would cry and beg their mother to take them home as onlookers stared These are just two of the stories among dozens gathered for this book The children now adults grew up with mentally ill mothers at a time when mental illness was even more stigmatizing than it is today They are what Nathiel calls the daughters of madness and their young lives were lived on shaky ground Telling someone that there s mental illness in her family and watching the reaction is not for the faint hearted the therapist says quoting another s research Nathiel adds Telling them it is your mother who s mentally ill certainly ups the ante A veteran therapist with 35 years experience Nathiel takes us into this traumatic world each of her chapters covering a major developmental period for the daughter of a mentally ill mother and then explains how these now adult daughters faced and coped with their mothers illness While the stories of these daughters are central to the book Nathiel also offers her professional insights into exactly how maternal impairment affects infants children and adolescents Women significantly more than men are often diagnosed with serious mental illness after they become parents So what effect does a mentally ill mother have on a growing child teenager or adult daughter who looks to her not only for the deepest and most abiding love but also a sense of what the world is all about Nathiel also makes accessible the latest research on interpersonal neurobiology attachment and the way a child s brain and mind develop in the contest of that relationship
