Moments On Maple Avenue:

Moments on Maple Avenue Louise Kapp Howe,1986-01-01 Recounts a typical day at a modern abortion clinic and looks at the patients fathers doctors and medical procedures **Senior Moments** S. L. Varnado,2006-07 In this madcap romp through the life of a typical senior citizen author S L Varnado discusses his problems with telephone menus that fail to connect him with a living person computers that refuse to compute and HMOs that motivate him to seek assisted suicide As Varnado shares his difficulties with a satanic television set that brings in the Beverly Hillbillies speaking French diets that lead to slow death by starvation aerobic exercises that take the wind out of you and ghetto blasters that wake the neighborhood at midnight it becomes apparent that an elderly person s life is beset with danger in this brave new world of the twenty first century Varnado winces at the grim difficulties of a wife who keeps him on a rigorous diet and doctors who leave him alone for hours in tiny cubicles There are however rare moments of triumph such as when he convinces his wife that he is not really the klutz she thinks he is and when he makes a delightful pilgrimage to the local shopping mall Although never one to take things lightly Varnado leaves you with the feeling that even though life can t be beautiful a little cleverness can make it tolerable Medically Speaking C.C. Gaither,2019-04-23 Medically Speaking A Dictionary of Quotations on Dentistry Medicine and Nursing contains over 1 500 quotes pertinent and especially illuminating to these disciplines Here you will find quotations from the most famous to the unknown Some are profound some are witty some are wise but none are frivolous The extensive author and subject indexes Moments in Literature ,1972 *The Northwestern Reporter* ,1922

Gaither's Dictionary of Scientific Quotations Carl C. Gaither,Alma E. Cavazos-Gaither,2012-01-04 This unprecedented collection of 27 000 quotations is the most comprehensive and carefully researched of its kind covering all fields of science and mathematics With this vast compendium you can readily conceptualize and embrace the written images of scientists laymen politicians novelists playwrights and poets about humankind s scientific achievements Approximately 9000 high quality entries have been added to this new edition to provide a rich selection of quotations for the student the educator and the scientist who would like to introduce a presentation with a relevant quotation that provides perspective and historical background on his subject Gaither s Dictionary of Scientific Quotations Second Edition provides the finest reference source of science quotations for all audiences The new edition adds greater depth to the number of quotations in the various thematic arrangements and also provides new thematic categories **Moments and Memories** James G. Devine,2014-02-10 Some people might think this is strange writing a book about someone who has passed away Well that s just a matter of opinion After all if we believe if we really believe than there is no need to worry because the essence of the individual concerned is still present just not to the human eye I believe and so this book is for you dad Although you have been gone for so many years I still think of you At this point in my life I wish I had discovered my interest in writing and had composed something like this when you were here with me Now there are only memories but even those are precious and my

eyes begin to water thinking of you The fact that I am the middle and only living son in a small family I chose to remember my father who passed away in 1981 in a special way So after seven years of research and careful thought I brought this book about my father to life a unique man who definitely experienced a wonderful life I hope you enjoy the story of our trip to Ireland and the many individual stories of my father s life and the history of his family Perhaps this is the start of a tradition of memories of other family members that may produce more stories and maybe another book a beginning for someone
