

You can't set her free. But you can help her feel less anxious.

You know this woman.

She's anxious, tense, irritable. She's felt this way for months.

Beset by the seemingly insurmountable problems of raising a young family, and confined to the home most of the time, her symptoms reflect a sense of inadequacy and isolation. Your reassurance and guidance may have helped some, but not enough.

Serax (oxazepam) cannot change her environment, of course. But it can help relieve anxiety, tension, agitation and irritability, thus strengthening her ability to cope with day-to-day problems. Eventually—as she regains confidence and composure—your counsel may be all the support she needs.

Indicated in anxiety, tension, agitation, irritability, and anxiety associated with depression.

May be used in a broad range of patients, generally with considerable dosage flexibility.

Contraindications: History of previous hypersensitivity to oxazepam. Oxazepam is not indicated in psychosis.

Precautions: Hypotensive reactions are rare, but use with caution where complications could ensue from a fall or blood pressure, especially in the elderly. One patient exhibiting drug dependency to taking a chronic, excessive dosage developed upon cessation questionable withdrawal symptoms. Carefully supervised dose and amounts prescribed, especially for patients prone to overdose, excessive prolonged use in susceptible patients (alcoholics, in addicts, etc.) may result in dependence or habituation. Reduce dosage gradually after prolonged excessive dosages to avoid possible withdrawal seizures. Caution patients against driving or operating machinery until absence of drowsiness or dizziness is ascertained. Warn patients of possible reduction in alcohol tolerance. Safety for use in pregnancy has not been established.

Not indicated in children under 6 years; absolute dosage for 6 to 12 years only not established.

Side Effects: Therapy interrupting side effects are rare. Transient mild drowsiness is common initially. If persistent, reduce dosage. Dizziness, vertigo and headache have also occurred infrequently, especially rarely. Most peripheral reactions (numbness, stimulation of effect) are reported in psychiatric patients. Minor diffuse rashes (morbilliform, urticarial and hypersensitivity) are rare. Nausea, lethargy, ataxia, slurred speech, tremor and altered taste are rare and generally attributable to dosage reduction. Although rare, leukopenia and hepatic dysfunction including jaundice have been reported during therapy. Periodic blood counts and liver function tests are advised. Abuse, reported rarely, does not appear related to dose or age.

These side reactions, noted with related compounds, are not yet reported: peripheral edema with severe leg reactions, hallucinations, mental impairment, change in EEG pattern, severe drowsiness (including apneustic), slurred vision, dilated pupils, incontinence, stupor, disorientation, fever, tachycardia and dyspnea.

Availability: Capsules of 15, 35 and 50 mg. oxazepam.

To help you relieve anxiety and tension

Living A Dream Gene Jessup, 2021-02-10 My book *Living A Dream* has been described in several different ways an autobiography a family history a father's memories or a colorful reflection of a man and his life I have tried to tell my story as I traveled through a difficult childhood my escape from the family disease of alcoholism and the beginning of a new life for me and my loved ones For most of us our lives reflect the many and varied aspects of the human experience laughter and tears joy and sorrow We are sons and daughters fathers and mothers loving companions But inevitably we are but a memory in the minds of those whom we have loved I believe that humor heals the soul and is of God's grace I endeavor to introduce humor into a variety of personal experiences There are of course painful memories in which only sorrow and tears can be found Hopefully in time a new perception and awareness will bring a peaceful acceptance to replace the pain The theme of *Living a Dream* if there is one is not just humor but of a man's journey through life as I transition from darkness to the bright light of day I believe that within the pages of this narrative the essence will hopefully become apparent quite simply learning to love openly and honestly Some of my friends who have read my book have shared their thoughts and comments with me Mary Olson wrote Gene thank you for the privilege of reading your autobiography Thought it was wonderful the way you told your life experiences I wouldn't change a thing I enjoyed your humor and the fun times with your family Never having gone hunting or fishing I learned a lot and was so interested in all the details and I know that whoever reads your book will too Ron Roberts wrote I really enjoyed reading your book fell out of my chair laughing a couple of times My friend the general loved it Not bad for an ex smokejumper Kolton Simmons age twelve He didn't need to say anything his giggles and laughter said it all Greg Tarr College professor This book is wonderful well written and very enjoyable George Bombel General US Army retired I really enjoyed the book I got started and couldn't put it down
