the second largest population of Salvadorans in the United States Pedersen charts El Salvador's change alongside American deindustrialization viewing the Salvadoran migrant work abilities used in new lowwage American service jobs as a kind of primary export and shows how the latest social conditions linking both countries are part of a longer history of disparity across the Americas Drawing on the work of Charles S Peirce he demonstrates how the defining value forms migrant work capacity services and remittances act as signs building a moral world by communicating their exchangeability while hiding the violence and exploitation on which this story rests Theoretically sophisticated ethnographically rich and compellingly written *American Value* offers critical insights into practices that are increasingly common throughout the world
